Radicals In Urban Politics The Alinsky Approach:

Radicals in Urban Politics Robert Bailey (Jr.),1974 **Radicals in Urban Politics** Robert Bailey,1974 *Community Organizing for Urban School Reform* Dennis Shirley,2010-01-01 Observers of all political persuasions agree that our urban schools are in a state of crisis Yet most efforts at school reform treat schools as isolated institutions disconnected from the communities in which they are embedded and insulated from the political realities which surround them *Community Organizing for Urban School Reform* tells the story of a radically different approach to educational change Using a case study approach Dennis Shirley describes how working class parents public school teachers clergy social workers business partners and a host of other engaged citizens have worked to improve education in inner city schools Their combined efforts are linked through the community organizations of the Industrial Areas Foundation which have developed a network of over seventy Alliance Schools in poor and working class neighborhoods throughout Texas This deeply democratic struggle for school reform contains important lessons for all of the nation s urban areas It provides a striking point of contrast to orthodox models of change and places the political empowerment of low income parents at the heart of genuine school improvement and civic renewal [Library Book Catalog](#) United States. Department of Justice,1975 [Shutdown at Youngstown](#) Terry F. Buss,F. Stevens Redburn,1983-01-01 In spite of the gravity of the problem of mass unemployment and its periodic recurrence in industrial societies few scientific studies have been undertaken which serve to define the impact of plant closings on workers families and the community to evaluate individual group or community responses to closings and to offer suggestions for the future *Shutdown at Youngstown* meets this need It presents the findings of a multidisciplinary scientific study of the closing of the steel mills in Youngstown in 1977 which put 5 000 persons out of work Research reported in the text is based on personal interviews social indicator data and data from health and human service agencies The authors conclude by developing a public policy for dealing with plant closings and the crisis of mass unemployment

Encyclopedia of Contemporary American Culture Robert Gregg,Gary W. McDonogh,Cindy H. Wong,2005-11-10 As a meeting point for world cultures the USA is characterized by its breadth and diversity Acknowledging that diversity is the fundamental feature of American culture this volume is organized around a keen awareness of race gender class and space and with over 1 200 alphabetically arranged entries spanning the American century from the end of World War II to the present day the Encyclopedia provides a one stop source for insightful and stimulating coverage of all aspects of that culture Entries range from short definitions to longer overview essays and with full cross referencing extensive indexing and a thematic contents list this volume provides an essential cultural context for both teachers and students of American studies as well as providing fascinating insights into American culture for the general reader The suggestions for further reading which follows most entries are also invaluable guides to more specialized sources **This Could Be the Start of Something Big** Manuel Pastor Jr.,Chris Benner,Martha Matsuoka,2015-10-27 For nearly two decades progressives have

been dismayed by the steady rise of the right in U S politics Often lost in the gloom and doom about American politics is a striking and sometimes underanalyzed phenomenon the resurgence of progressive politics and movements at a local level Across the country urban coalitions including labor faith groups and community based organizations have come together to support living wage laws and fight for transit policies that can move the needle on issues of working poverty Just as striking as the rise of this progressive resurgence has been its reception among unlikely allies In places as diverse as Chicago Atlanta and San Jose the usual business resistance to pro equity policies has changed particularly when it comes to issues like affordable housing and more efficient transportation systems To see this change and its possibilities requires that we recognize a new thread running through many local efforts a perspective and politics that emphasizes regional equity Manuel Pastor Jr Chris Benner and Martha Matsuoka offer their analysis with an eye toward evaluating what has and has not worked in various campaigns to achieve regional equity The authors show how momentum is building as new policies addressing regional infrastructure housing and workforce development bring together business and community groups who share a common desire to see their city and region succeed Drawing on a wealth of case studies as well as their own experience in the field Pastor Benner and Matsuoka point out the promise and pitfalls of this new approach concluding that what they term social movement regionalism might offer an important contribution to the revitalization of progressive politics in America

Crespi, 2013-11-05 What is public opinion How can we best study it This work presents a process model that answers these questions by defining public opinion in a way that also identifies an approach to studying it The model serves as a framework into which the findings of empirical research are integrated producing a comprehensive understanding of public opinion that encompasses the congeries of middle range theories that have emerged from empirical research The three dimensional process model and the way it is explicated satisfies the diverse and sometimes divergent needs and interests of political

scientists sociologists social psychologists and communication specialists who study public opinion This is achieved by clearly differentiating and interrelating the following individual opinions the judgmental outcomes of a process in which attitudinal systems comprised of beliefs values interests and feelings function as intervening variables that direct and structure perceptions of public issues collective opinions the outcomes of communication from which mutual awareness emerges and that integrate separate individual opinions into a significant social force and political roles of collective and individual opinions the outcomes of the extent to which collective and individual opinions have achieved legitimacy as the basis for governing a people DON T USE THIS PARAGRAPH FOR GENERAL CATALOGS Each dimension of the model has its corresponding subprocess transactions between individuals and their environments communications among individuals and collectives and political legitimation of public opinion Since the process model is by definition interactional none of the three dimensions has theoretical or sequential priority over the others Instead of treating the psychological political and sociological aspects of public opinion as separate stages of an unidirectional process the three aspects are modeled as dimensions of a complex ongoing system in continuous interaction with each other This conceptualization satisfies the need for a truly interdisciplinary theory in that it demands that each dimension be studied in terms of its defining sub process It also avoids the twin errors of reductionism and reification in the study of public opinion Ethnic Chicago Melvin
