Understanding the Populist Shift Gabriella Lazaridis,Giovanna Campani,2016-11-10 During the European elections of 2014 one of the main issues raised by the media was the electoral performance of so called populist parties The electorate confirmed its deep dissatisfaction with mainstream political parties voting for far right parties in parliamentary elections in Northern Europe Austria Denmark Sweden Eastern Europe Hungary where the deeply anti Semitic Jobbik party gained votes and in France where the French National Front won about a quarter of the vote while in the Southern European countries battered by austerity policies it was the radical right and left in Greece Golden Dawn and Syriza and the radical left in Spain Podemos that obtained excellent scores This book examines the growing trend towards far and extreme right populism that has emerged prominently in Northern Finland Western Austria Denmark France the UK Southern Greece Italy and Central Eastern Europe Slovenia Bulgaria since the 1990s Providing a critical understanding of current European trends and analysing the complex phenomena covered by the notion of populism this book will be of interest to students and scholars researching right wing politics as well as European politics more generally *Dawn's Shadow* Bonnie

the past half century based on the life histories of thirty nine people who have placed antiracist activism at the center of their lives Through a rich and fascinating narrative that links individual experiences with social and political history Thompson shows the ways both public and personal in which whites have opposed racism during several social movements the Civil Rights and Black Power movements multiracial feminism the Central American peace movement the struggle for antiracist education and activism against the prison industry Beginning with the diverse catalysts that started these activists on their journeys this book demonstrates the contributions and limitations of white antiracism in key social justice movements Through these stories crucial questions are raised Does antiracist work require a repudiation of one s whiteness or can that identity be transformed through political commitment and alliances What do white people need to do to undermine white privilege What would it take to build a multiracial movement in which white people are responsible for creating antiracist alliances while not co-opting people of color Unique in its depth and thoroughness *A Promise and a Way of Life* is essential for anyone currently fighting racism or wondering how to do so Through its demonstration of the extraordinary personal and social transformations ordinary people can make it provides a new paradigm for movement activity one that will help to incite and guide future antiracist activism *Kine weekly* ,1955
