Railway Pricing Under Commercial Freedom:

Railway Pricing Under Commercial Freedom T. D. Heaven, University of British Columbia. Centre for Transportation Studies, 1977 **Railroad deregulation act of 1979** United States. Congress. Senate. Committee on Commerce, Science, and Transportation. Subcommittee on Surface Transportation, 1979 **Technical Bulletin**, 1989 **Railroads, Freight, and Public Policy** Theodore E. Keeler, 2010-12-01 This book examines railroad regulation and public policy regarding the freight industry *Implementation of the 4R Act* United States. Congress. Senate. Committee on Commerce, Science, and Transportation. Subcommittee on Surface Transportation, 1979 **ECMT Round Tables Possibilities and Limits of Regulation in Transport Policy Report of the Sixty-Second Round Table on Transport Economics Held in Paris on 29-30 September 1983** European Conference of Ministers of Transport, 1984-01-01 This Round Table examines the history possibilities and limits of regulation in transport policy *Rail Restructuring in Europe* European Conference of Ministers of Transport, 1998-10-09 This report examines reforms in over 30 countries from the Atlantic to the Urals characterizing restructuring in terms of management independence separation of infrastructure from operations and rights of access to rail infrastructure *Railroad Economics* Scott Dennis, Wayne K Talley, 2007-07-09 Research in Transportation Economics is now available online at ScienceDirect full text online of volumes 6 onwards Elsevier book series on ScienceDirect gives multiple users throughout an institution simultaneous online access to an important compliment to primary research Digital delivery ensures users reliable 24 hour access to the latest peer reviewed content The Elsevier book series are compiled and written by the most highly regarded authors in their fields and are selected from across the globe using Elsevier's extensive researcher network For more information about the Elsevier Book Series on ScienceDirect Program please visit <http://www.info.sciencedirect.com/bookseries> **Techniques for Railway Restructuring** Lee W. Huff, Louis S. Thompson, 1990 This document addresses how not whether to restructure a railway **National Transportation Policies Through the Year 2000** National Transportation Policy Study Commission, 1979 **Last Trains** Charles Loft, 2013-03-27 The debate about Dr Richard Beeching will rage until the Second Coming and probably beyond But in Charles Loft's careful examination of the Beeching Report we have as fine a study as we are going to possess in the meantime Peter Hennessy Loft's great strength is his judiciousness He understands the political processes and assesses them fair mindedely And his verdict will I suspect hold up better than any of Beeching's judgements Matthew Engel Financial Times Prepare to be impressed shocked and saddened This is undoubtedly one of the best books of the year a riveting read Railways Illustrated Lucid to the point thought provoking at every turn Last Trains is a volume that everyone should read before making judgements about the rail closures of the Sixties Heritage Railway Thoughtful and well researched analysis Edinburgh Evening News During the course of the 1950s England lost confidence in its rulers and convinced itself it must modernise The failing steam powered local railways run by Colonel Blimp symbolised everything that was wrong with the country surely the future lay in motorways and high

speed express trains Along came Dr Beeching with his diagnosis and suddenly branch line Britain was gone for ever The debate about the Beeching cuts has raged ever since In this superbly researched examination Charles Loft exposes the political failures that bankrupted the railways and lays bare the increasing alienation of bureaucrats from the public they were trying to serve The result is a fascinating study of a nation grappling to come to terms with modernity

British Railways 1948-73 T. R. Gourvish, N. Blake, 1986 Originally published in 1986 this is a business history of the first twenty five years of nationalised railways in Britain Commissioned by the British Railways Board and based on the Board's extensive archives it fully analyses the dynamics of nationalised industry management and the complexities of the vital relationship with government After exploring the origins of nationalisation the book deals with the organisation financial performance investment and commercial policies of the British Transport Commission 1948-2 Railway Executive 1948-53 and British Railways Board 1963-73 Calculations of profit and loss investment and productivity are provided on a consistent basis for 1948-73 This business history thus represents a major contribution not only to the debate about the role of the railways in a modern economy but also to that concerning the nationalised industries which have proved to be one of the most enduring problems of the British economy since the war

Extractives, Manufacturing, and Services David O. Whitten, 1997-04-22 The second volume in the Handbook of American Business History series this book offers concise histories of extractive manufacturing and service industries as well as extensive bibliographic essays pointing to the leading sources on each industry and bibliographic checklists Supplementing other bibliographic materials in business history this volume provides researchers with a much needed path through the vast array of material available in the library and on the Internet Indicating which resources to check and which to bypass the book is a guide to a sometimes overwhelming amount of information Each of the book's chapters provides a concise industry history beginning with the industry's rise to importance in the U S and continuing to the present The bibliographic essays provide a narrative outline of the leading sources published or made available in archives libraries or museum collections since 1971 when Lovett's American Economic and Business History Information Sources was published Each discussion concludes with a bibliographic checklist of the titles mentioned in the essay as well as other titles In a rapidly expanding information society researchers teachers and students may be easily overwhelmed by the exhaustive material available in print and electronically What is useful and what can be ignored is a strategic question and few know where to begin This book provides a guide

Pricing and Cost Recovery in Long Distance Transport David Starkie, M.R. Grenning, M.M. Starrs, 2012-12-06 The 1977 BTE Report on Cost Recovery in Australian Transport 1974-75 provided estimates of the aggregate level of financial cost recovery in the various modes by broad transport task It suggested that there were substantial differences between modes in the level of cost recovery The 1979 Transport Pricing and Cost Recovery seminar concluded that economic efficiency objectives required more attention in transport pricing and investment decisions than had been apparent in the past The principles for economically efficient

pricing were spelt out and several specific issues were identified which are worth following up in this seminar. These include reconciliation of financial and economic efficiency objectives and the identification of appropriate revenue targets; specification of the changes in accounting and management information systems which would be required to implement more economically rational pricing and identification of the principles for estimating compensation for public service obligations. Finally a brief account is given of recent BTE work on cost recovery in general aviation and in road and rail transport. BTE has suggested that economic efficiency considerations would require substantial modification to the present means of collecting revenue from general aviation with more reliance placed on direct pricing measures like flight specific air navigation charges and airport movement charges. On road/rail competition an order of magnitude comparison of road and rail cost recovery in the Adelaide/Victorian border corridor suggests that only the road mode approximately covers short run avoidable costs and that both modes fail to cover long run avoidable costs. *ICC Practitioners' Journal*, 1981 **May 23, June 6, 7, and 20, 1979** United States. Congress. Senate. Committee on Commerce, Science, and Transportation. Subcommittee on Surface Transportation, 1979 *National Transportation Policies Through the Year 2000* USA. National Transportation Policy Study Commission, 1979 *Competitive Tendering of Rail Services* European Conference of Ministers of Transport, 2007-09-28 This report examines experience to date from around the world in competitively tendering rail services. It seeks to draw lessons for effective design of concessions and regulation from both the successful and less successful cases examined. *British Rail 1974-1997* Terence Richard Gourvish, Terry Gourvish, 2004-01-29 Based on privileged access to the British Railway Board's rich archives this book provides an authoritative account of the progress made by the British Railway System prior to its privatization. It offers a unique account of the last fifteen years of nationalized railways in Britain and it sheds light on the current problems of privatized railway systems. This volume is divided into four complete and concise sections for complete study: Railways Under Labour 1974-1979, The Thatcher Revolution, British Rail in the 1980s, On the Threshold of Privatization, Running the Railways 1990-1994, and Responding to Privatization 1981-1997. Author Terry Gourvish is considered Britain's leading railway historian. **From Rail to Road and Back Again?** Colin Divall, 2016-03-03 The coming of the railways signalled the transformation of European society allowing the quick and cheap mass transportation of people and goods on a previously unimaginable scale. By the early decades of the twentieth century however the domination of rail transport was threatened by increased motorised road transport which would quickly surpass and eclipse the trains only itself to be challenged in the twenty first century by a renewal of interest in railways. Yet as the studies in this volume make clear to view the relationship between road and rail as a simple competition between two rival forms of transportation is a mistake. Rail transport did not vanish in the twentieth century any more than road transport vanished in the nineteenth with the appearance of the railways. Instead a mutual interdependence has always existed balancing the strengths and weaknesses of each system. It is that interdependence that forms the major theme of this

collection Divided into two main sections the first part of the book offers a series of chapters examining how railway companies reacted to increasing competition from road transport and exploring the degree to which railways depended on road transportation at different times and places Part two focuses on road mobility interpreting it as the innovative success story of the twentieth century Taken together these essays provide a fascinating reappraisal of the complex and shifting nature of European transportation over the last one hundred years
