Railway Station A Social History:

The Railway Station Jeffrey Richards, John MacDonald MacKenzie, John M. MacKenzie, 1986 This delightful and wide ranging compendium Books and Bookmen captures the mystique of railway stations by crossing the disciplines of history literature art and architecture in a sweeping global survey unique in its scope **The railway station**, 1986 *The Railway Station* Jeffrey Richards, John MacDonald MacKenzie, 2005 The advent of the railways in the 19th century symbolised a new age of progress power and civilisation for the Victorians and although the civilising aspect of industrialisation has not always been obvious the importance of the railways has never been in doubt Every aspect of the railway station is examined from the sombre grandeur of St Pancras to the smallest country halt *The Railway and Modernity* Matthew Beaumont, Michael J. Freeman, 2007 Most research and writing on railway history has been undertaken in a way that disconnects it from the wider cultural milieu Authors have been very effective at constructing specialist histories of transport but have failed to register the railway's central importance in the representation and understanding of modernity This book brings together contributions from a range of established scholars in a variety of disciplines with the central purpose of exploring the railway less as a transport technology than as a key signifier of capitalist modernity It examines the complex social relations in which the railway became historically embedded identifying it as a central problematic in the cultural experience of modernity It avoids the limitations of both the close sighted empiricism typical of many transport historians and the long sighted generalizations of cultural commentators who view the railway merely as a shorthand for the concept of progress over the nineteenth and twentieth centuries The book draws on a diverse range of materials including literary and historical forms of representation It is also informed by a creative application of various critical theories A Social History of the Media Asa Briggs, Peter Burke, 2018-07-26 Written by two leading social and cultural historians the first two editions of A Social History of the Media became classic textbooks providing a masterful overview of communication media and of the social and cultural contexts within which they emerged and evolved over time This third edition has been thoroughly revised to bring the text up to date with the very latest developments in the field Increased space is given to the exciting media developments of the early 21st Century including in particular the rise of social and participatory media and the globalization of media Additionally new and important research is incorporated into the classic material exploring the continuing importance of oral and manuscript communication the rise of print and the relationship between physical transportation and social communication Avoiding technological determinism and rejecting assumptions of straightforward evolutionary progress this book brings out the rich and varied histories of communication media In an age of fast paced media developments a thorough understanding of media history is more important than ever and this text will continue to be the first choice for students and scholars across the world Social History, Local History, and Historiography Roger C. Richardson, 2011-09-22 This wide ranging volume collects together twelve of the author's longer

essays mainly drawn from those first published in the last two decades Chiefly consisting of micro studies of a variety of different aspects of early modern English history the book concerns itself with social and economic change the period of the English Revolution and its long lasting impact with Puritanism with the family as a social institution and with historical consciousness and different forms of historical writing Some of the essays focus on a particular individual not all well known William Camden John Milner and Ralph Dutton to open up a broader theme One boldly attempts a comparison over three centuries of the evolution of local history as a subject on both sides of the Atlantic Two other essays reach out into the nineteenth and twentieth centuries but do so with echoes of the subject matter of some of those dealing with the early modern period The inter connectedness of social history local history and historiography is stressed and illustrated throughout Both specialists and non specialists will find much to interest them in this varied and rewarding volume

A Social History of Sheffield Boxing, Volume I Matthew Bell, Gary Armstrong, 2021-02-20 A Social History of Sheffield Boxing combines urban ethnography and anthropology sociological theory and place and life histories to explore the global phenomenon of boxing Raising many issues pertinent to the social sciences such as contestations around state regulation of violence commerce and broadcasting pedagogy and elite sport and how sport is delivered and narrated to the masses the book studies the history of boxing in Sheffield and the sport s impact on the cultural political and economic development of the city since the 18th century Interweaving urban anthropology with sports studies and historical research the text expertly examines a variety of published sources ranging from academic papers to biographies and from newspaper reports to case studies and contemporary interviews In Volume I Bell and Armstrong construct a vivid history of boxing and probe its cultural acceptance in the late 1800s examining how its rise was inextricably intertwined with the industrial and social development of Sheffield Although Sheffield was not a national player in prize fighting s early days throughout the mid 1800s many parochial scores and wagers were settled by the use of fists By the end of the century boxing with gloves had become the norm and Sheffield had a valid claim to be the chief provincial focus of this new passion largely due to the exploits of George Corfield Sheffield s first boxer of national repute Corfield s deeds were later surpassed by three British champions Gus Platts Johnny Cuthbert and Henry Hall Concluding with the dual themes of the decline of boxing in Sheffield and the city s changing social profile from the 1950s onwards the volume ends with a meditation on the arrival of new migrants to the city and the processes that aided or frustrated their integration into UK life and sport
