Railroads of Indiana Richard S. Simons, 1997. Despite the huge amount of interest in railroads this is the first complete description and history of the railroads of Indiana from the first line completed in 1838 up to the present. Simons and Parker follow Indiana's railroads through five distinct eras: 1830 to 1860, 1860 to 1900, 1900 to 1930, 1930 to 1960, and 1960 to 1996. The broad themes of Indiana railroad history are sketched within the framework of these periods. In addition there is a brief synopsis of each railroad system tracing its corporate and physical growth and evolution. A third section is devoted to commonalities among the various railroads focusing on services, facilities, personalities, and accidents.

**The Angola Horror** Charity Vogel, 2013-08-15. On December 18, 1867, the Buffalo and Erie Railroad's eastbound New York Express derailed as it approached the high truss bridge over Big Sister Creek just east of the small settlement of Angola, New York, on the shores of Lake Erie. The last two cars of the express train were pitched completely off the tracks and plummeted into the creek bed below. When they struck bottom, one of the wrecked cars was immediately engulfed in flames as the heating stoves in the coach spilled out coals and ignited its wooden timbers. The other car was badly smashed. About fifty people died at the bottom of the gorge or shortly thereafter, and dozens more were injured. Rescuers from the small rural community responded with haste but there was almost nothing they could do but listen to the cries of the dying and carry away the dead and injured, thrown clear of the fiery wreck. The next day and in the weeks that followed, newspapers across the country carried news of the Angola Horror, one of the deadliest railway accidents to that point in U.S. history. In a dramatic historical narrative, Charity Vogel tells the gripping true-to-life story of the wreck and the characters involved in the tragic accident. Her tale weaves together the stories of the people, some unknown, others soon to be famous, caught up in the disaster. The facts of the New York Express's fateful run, the fiery scenes in the creek ravine, and the subsequent legal, legislative, and journalistic search for answers to the question what had happened at Angola, and why. The Angola Horror is a classic story of disaster and its aftermath in which events coincide to produce horrific consequences and people are forced to respond to experiences that test the limits of their endurance. Vogel sets the Angola Horror against a broader context of the developing technology of railroads, the culture of the nation's print media, the public policy legislation of the post-Civil War era, and finally the culture of death and mourning in the Victorian period. The Angola Horror sheds light on the psyche of the American nation. The fatal wreck of an express train nine years later during a similar bridge crossing in Ashtabula, Ohio, serves as a chilling coda to the

story What Went Wrong? Trevor Kletz, 2009-06-17 What Went Wrong has revolutionized the way industry views safety. The new edition continues and extends the wisdom, innovations and strategies of previous editions by introducing new material on recent incidents and adding an extensive new section that shows how many accidents occur through simple miscommunications within the organization and how straightforward changes in design can often remove or reduce opportunities for human errors. Kletz's approach to learning as deeply as possible from previous experiences is made yet more valuable in this new edition which for the first time brings together the approaches and cases of What Went Wrong with the managerially focussed material previously published in Still Going Wrong. Updated and supplemented with new cases and analysis, this fifth edition is the ultimate resource of experienced based analysis and guidance for the safety and loss prevention professionals. A million dollar bestseller, this trusted book is updated with new material including the Texas City and Buncefield incidents and supplemented by material from Trevor Kletz's Still Going Wrong. Now presents a complete analysis of the design, operational and for the first time managerial causes of process plant accidents and disasters plus their aftermaths. Case histories illustrate what went wrong, why it went wrong and then guide readers in how to avoid similar tragedies, learn from the mistakes of others. *Railroad History*, 2002 **Edison** Neil Baldwin, 2001-04-28 Appointment

**Still Going Wrong!** Trevor Kletz, 2003-11-14 This is Trevor Kletz's follow up to his extremely successful What Went Wrong. Case Histories of Process Plant Disasters. In it Kletz reinforces the messages in his now classic book of famous case histories but the majority of the book covers points not covered in the original. This new volume will focus more on procedural changes that can be made not only at the technical or engineering levels but at the managerial level to prevent disasters from happening. This volume follows up on the cases and strategies outlined in the original million dollar seller What Went Wrong. Contains many new cases and areas for improvement including the hazards of rust, corrosion and many more new topics. Written by the world's leading expert on industrial safety. **Biography of General and Ambassador Horace**

**Porter, 1837-1921** Richard Henry Owens, 2002 This biography of Horace Porter emphasizes only the span of his adult career, a little more than six decades. But what a formative time it was! From West Point through the Civil War through the Spanish American War through World War I Porter was an able and devoted aid to Ulysses S. Grant during Union military triumphs during Grant's postwar presidency through Grant's failing health and death to the financing and dedication of Grant's tomb in New York. From Continentalism to Imperialism to world power. From bucolic agriculture and westward movement through the great era of railroad construction to world leadership in industry and finance. All that in six decades.
