perceived world      *Gestures of Ethical Life* David Michael Kleinberg-Levin, 2005 For Greek antiquity the question of right or fitting measure constituted the very heart of both ethics and politics But can the Good of the ethical life and the Justice of the political be reduced to measurement and calculation If they are matters of measure are they not also absolutely immeasurable In critical dialogue with texts by Plato Hlderlin Rilke Heidegger Benjamin Adorno Marx Merleau Ponty Levinas and Levi the author argues that the question of measure has become ever more urgent in the context of a modernity pressured by the conditions of a technological economy and a relativism that threatens to destroy a vital sense of moral responsibility and the commitment to justice that underlies the possibility of freedom Conceived as a task for the metaphysics of memory this book explores the normative problematic of measure bringing its deeply buried redemptive promise to appearance in our gestures uses and abuses of the hands the dialectic of tact and the manners of social existence      **The Routledge Handbook of Translation Studies** Carmen Millán, Francesca Bartrina, 2013-03-05 The Routledge Handbook of Translation Studies provides a comprehensive state of the art account of the complex field of translation studies Written by leading specialists from around the world this volume brings together authoritative original articles on pressing issues including the current status of the field and its interdisciplinary nature the problematic definition of the object of study the various theoretical frameworks the research methodologies available The handbook also includes discussion of the most recent theoretical descriptive and applied research as well as glimpses of future directions within the field and an extensive up to date bibliography The Routledge Handbook of Translation Studies is an indispensable resource for postgraduate students of translation studies      *A Critical Introduction to Translation Studies* Jean Boase-Beier, 2011-04-07 Jean Boase Beier s Critical Introduction To Translation Studies demonstrates a keen understanding of theoretical and practical translation It looks to instances where translation might not be straightforward where stylistics play an important role Examples are discussed from works of literature advertisements journalism and others where effects on the reader are central to the text and are reflected in the style It begins by setting out some of the basic problems and issues that arise in the study of translation such as the difference between literary and non literary translation the role of language content and style the question of universals and specifics in language and the notion of context The book then goes on to focus more closely on style and how it enables us to characterise literary texts and literary translation The final part looks at the translation of poetry Throughout it is conscious of the relationship between theory and practice in translation This book offers a new approach to translation grounded in stylistics and it will be an invaluable resource for undergraduates and postgraduates approaching translation studies      *Poetry & Translation* Peter Robinson, 2010-01-01 The conviction pleasures and gratitude of committed reading are evident in his affirmation of the poetic contract between readers and writers Andrea Brady Poetry Review      **The Philosopher's Gaze** David Michael Levin, 2023-04-28 David Michael Levin s ongoing exploration of the moral character and enlightenment potential of vision takes a new direction in The Philosopher s Gaze

Levin examines texts by Descartes Husserl Wittgenstein Nietzsche Heidegger Benjamin Merleau Ponty and Levinas using our culturally dominant mode of perception and the philosophical discourse it has generated as the site for his critical reflections on the moral culture in which we are living In Levin's view all these philosophers attempted to understand one way or another the distinctive pathologies of the modern age But every one also attempted to envision if only through the faintest of traces traces of mutual recognition traces of another way of looking and seeing the prospects for a radically different lifeworld The world after all inevitably reflects back to us the character the reach and range of our vision In these provocative essays the author draws on the language of hermeneutical phenomenology and at the same time refines phenomenology itself as a method of working with our experience and thinking critically about the culture in which we live This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1999 David Michael Levin's ongoing exploration of the moral character and enlightenment potential of vision takes a new direction in *The Philosopher's Gaze* Levin examines texts by Descartes Husserl Wittgenstein Nietzsche Heidegger Benjamin Merleau

Narrative and Ethical Understanding Garry L. Hagberg, 2024-07-05 There has been a steady stream of articles written on the relations between ethics and the interpretation of literature but there remains a need for a book that both introduces and significantly contributes to the field particularly one that shows how we can think more openly and creatively about the multiform powers of ethical narrative by considering ethically significant literature This volume offers an analytically acute and culturally rich way of understanding how it is that we can productively think philosophically about the narrative structures that describe our ethical lives and what kind of distinctive conceptual and in some cases personal progress we can make by doing so Given the extremely widespread interest in ethical issues this volume will strike resonant chords far and wide on arrival while offering something new in bringing together the study of long form narrative the language of moral psychology and detailed literary case studies Given the vast expansion of narrative studies in recent years the time for just such a volume is right

**Rilke** Charlie Louth, 2020-06-19 The life of Rilke's work is in its words and this book attends closely to the life unfolding in Rilke's words over the course of his career What is a poem and how does it act upon us as we read What does reading involve These

are questions of the greatest interest to Rilke who addresses them in several poems and for whom the experience of reading affords an interaction with the world a recalibration of our ways of attending to it which sets it apart from other kinds of experience Rilke's work is often approached in periods he is the author of the New Poems or of Malte or of the Duino Elegies or of the Sonnets to Orpheus as if its different phases had little to do with one another but in fact his writing is a concentrated and evolving exploration of the possibilities of poetic language a working of the life of words into precise and exacting forms in dialogue with the texture of the world The Life of the Work traces that trajectory in a series of close readings that do not neglect the lesser known uncollected verse and the poems in French as well as Rilke's activity as a translator of Michelangelo Shakespeare Barrett Browning Mallarmé and Valéry among many others These encounters were part of Rilke's engagement with the world his way of extending the reach of his language to get it ever closer to the ungraspable movements the risk and promise of life itself One of his best known poems ends with the words You must change your life an injunction that animates the whole of his work

*Aesthetic Technologies of Modernity, Subjectivity, and Nature* Richard Leppert, 2015-10-06 Virginia Woolf famously claimed that around December 1910 human character changed Aesthetic Technologies addresses how music especially opera the phonograph and film served as cultural agents facilitating the many extraordinary social artistic and cultural shifts that characterized the new century and much of what followed long thereafter even to the present Three tropes are central the tensions and traumas cultural social and personal associated with modernity changes in human subjectivity and its engagement and representation in music and film and the more general societal impact of modern media sound recording the development of the phonograph in particular and the critical role played by early century opera recording A principal focus of the book is the conflicted relationship in Western modernity to nature particularly as nature is perceived in opposition to culture and articulated through music film and sound as agents of fundamental sometimes shocking transformation The book considers the sound vision world of modernity filtered through the lens of aesthetic modernism and rapid technological change and the impact of both experienced with the prescient sense that there could be no turning back

**Lyric Orientations** Hannah Vandegrift Eldridge, 2016-11-08 In *Lyric Orientations* Hannah Vandegrift Eldridge explores the power of lyric poetry to stir the social

and emotional lives of human beings in the face of the ineffable nature of our mortality She focuses on two German speaking masters of lyric prose and poetry Friedrich Hölderlin 1770 1843 and Rainer Maria Rilke 1875 1926 While Hölderlin and Rilke are stylistically very different each believes in the power of poetic language to orient us as social beings in contexts that otherwise can be alienating They likewise share the conviction that such alienation cannot be overcome once and for all in any universal event Both argue that to deny the uncertainty created by the absence of any such event or to deny the alienation itself is likewise to deny the particularly human condition of uncertainty and mortality By drawing on the work of Stanley Cavell who explores how language in all its formal aspects actually enables us to engage meaningfully with the world Eldridge challenges poststructuralist scholarship which stresses the limitations even the failure of language in the face of reality Eldridge provides detailed readings of Hölderlin and Rilke and positions them in a broader narrative of modernity that helps make sense of their difficult and occasionally contradictory self characterizations Her account of the orienting and engaging capabilities of language reconciles the extraordinarily ambitious claims that Hölderlin and Rilke make for poetry that it can create political communities that it can change how humans relate to death and that it can unite the sensual and intellectual components of human subjectivity and the often difficult fragmented or hermetic nature of their individual poems
