Reckoning The Iraq And The Legacy Of Saddam Hussein:

The Reckoning Sandra Mackey, 2002 Saddam Hussein is high on America's enemy list but journalist Mackey questions if Iraq without him might hold the seeds of the next Yugoslavia **After Saddam** Dina Badie, 2017-07-25 After Saddam American Foreign Policy and the Destruction of Secularism in the Middle East investigates the manner in which American foreign policy in Iraq artificially shifted the balance of power in the region and brought religious identities to the foreground Deposing Saddam Hussein resulted in a new regional order that diminished the strength of secular nationalism elevated Iran and Saudi Arabia as regional rivals and by implication established a new ideological paradigm that privileged competing religious factions over secular ideals The trend first manifested itself in Iraq during the American occupation with Iranian backed Shiites fighting Saudi supported Sunnis A similar dynamic is evident in current regional wars in Syria and Yemen By elevating particular groups through rhetorical financial and military support civil conflicts in the Middle East reflect the ideologies behind the Saudi Iranian rivalry This book therefore looks beyond popular narratives of intractable long standing Sunni Shia conflict to explain the source of current sectarian tension as a product of balance of power dynamics It also helps to explain the fracturing of the region that created a ripe environment for groups like the Islamic State to capitalize on sectarian grievances This book relies and builds on balance of power theorizing by looking at the way that traditional competition for power between states and nonstate actors shapes ideological competition For example during the Cold War the two major world powers the U S and the Soviet Union helped to shape international conflicts so that the narrative of capitalism vs communism played a prominent role in civil and international conflicts such as in Korea Nicaragua or Angola By meddling in the internal affairs of states arming rebel groups and lending support to competing factions the U S and U S S R shaped not only outcomes but also the ideas underpinning conflicts Today a similar dynamic can be discerned in the Middle East Saddam's Generals: Perspectives of the Iran-Iraq War National Intelligence Council, Kevin M. Woods, Williamson Murray, Elizabeth A. Nathan, Laila Sabara, Ana M. Venegas, 2013-05-23 This study was inspired by post World War II efforts of U S Army historians and intelligence officers to gather and preserve insights and perspectives of the German General Staff This is the second volume in a series of studies sponsored by the National Intelligence Council designed to cast light on issues involving Saddam's Iraq by interviewing former Iraqi officials The first volume Saddam's War An Iraqi Military Perspective of the Iran Iraq War contained interviews with Lieutenant General Ra'ad Hamdani a former Iraqi Republican Guard Corps commander This second volume includes an additional interview with Hamdani along with four additional senior officers who discuss issues including Iraqi naval operations airpower military intelligence and capability development Encyclopedia of Media and Propaganda in Wartime America Martin J. Manning, Clarence R. Wyatt, 2010-12-20 This fascinating compilation of reference entries documents the unique relationship between mass media propaganda and the U S military a relationship that began in the period before the American Revolution and continues to this day sometimes

cooperative sometimes combative and always complex The Encyclopedia of Media and Propaganda in Wartime America brings together a group of distinguished scholars to explore how war has been reported and interpreted by the media in the United States and what effects those reports and interpretations have had on the people at home and on the battlefield Covering press U S military relationships from the early North American colonial wars to the present wars in Iraq and Afghanistan this two volume encyclopedia focuses on the ways in which government and military leaders have used the media to support their actions and the ways in which the media has been used by other forces with different views and agendas The volumes highlight major events and important military political and cultural players offering fresh perspectives on all of America s conflicts Bringing these wars together in one source allows readers to see how media affected the conflicts individually but also understand how the use of the various forms of media print radio television film and electronic have developed and changed over the years

Middle East Conflicts from Ancient Egypt to the 21st Century Spencer C. Tucker, 2019-08-27 With more than 1 100 cross referenced entries covering every aspect of conflict in the Middle East this definitive scholarly reference provides readers with a substantial foundation for understanding contemporary history in the most volatile region in the world This authoritative and comprehensive encyclopedia covers all the key wars insurgencies and battles that have occurred in the Middle East roughly between 3100 BCE and the early decades of the twenty first century It also discusses the evolution of military technology and the development and transformation of military tactics and strategy from the ancient world to the present In addition to the hundreds of entries on major conflicts military engagements and diplomatic developments the book also features entries on key military political and religious leaders Essays on the major empires and nations of the region are included as are overview essays on the major periods under consideration The book additionally covers such non military subjects as diplomacy national and international politics religion and sectarian conflict cultural phenomena genocide international peacekeeping missions social movements and the rise to prominence of international terrorism The reference entries are augmented by a carefully curated documents volume that offers primary sources on such diverse topics as the Greco Persian Wars the Crusades and the Arab Israeli Wars

Justice and Violence Eric Nelson, 2019-06-04 Originally published in 2003 Justice and Violence brings together a fascinating and varied volume that focuses on the ethics of both political violence and pacifism Incorporating historical geopolitical and cultural case studies it takes a unique look at comparative analyses of these two phenomena and contending world views The volume is a must read for political scientists ethicists historians sociologists anthropologists and policy analysts As we move deeper into the twenty first century the contradictory and conflicting forces of globalization and cultural fragmentation make it increasingly crucial to give serious consideration to the issues raised here

Enduring Controversies in Military History Spencer C. Tucker, 2017-09-21 This provocative examination of major controversies in military history enables readers to learn how scholars approach controversial topics and provides a model for students in the study and discussion of other

historical events Why did Alexander the Great's empire fall apart so soon after his death How did France win the Hundred Years War despite England winning its major battles Was slavery the primary cause of the American Civil War Would it have benefited the Allies militarily to have gone to war against Germany in 1938 rather than in 1939 Should women be allowed to serve in combat positions in the U S military All of these questions and many other historical controversies are addressed in this thought provoking reference book By exploring every angle of some of the most contentious debates involving military history this book builds students critical thinking skills by supplying a complete background of the controversial topic to provide context and also by providing multiple perspective essays written by top scholars in the field The perspective essays present arguments for different positions on the controversy Readers will consider the cases for and against whether Hannibal should have marched on Rome after his momentous victory at Cannae whether the United States was justified in using the atomic bomb in Japan whether Adolf Hitler was primarily responsible for the Holocaust and whether torturing prisoners during the War on Terror is warranted among many other historical military debates

Civilian Immunity in War Igor Primoratz, 2007-10-04 The protection of noncombatants from deadly violence is the centrepiece of any account of ethical and legal constraints on war It was a major achievement of moral progress from early modern times to World War I Yet it has been under constant attrition since perhaps never more so than in our time with its new wars the spectre of weapons of mass destruction and the global terrorism alert Civilian Immunity in War written in collaboration by eleven authors provides the first comprehensive analysis of all main aspects of this highly topical subject It considers the arguments for rejection of civilian immunity and the main theories of the grounds and proper scope of this immunity both deontological just war theory and consequentialist Separate chapters examine the historical development of the idea of civilian immunity its standing in current international law and the problem of collateral damage of harming civilians without intent as a side effect of attacks on military targets The volume also addresses a string of specific issues Civilian immunity has undergone much attrition with the development of air warfare and the tendency of military conflict to degenerate into total war On the other hand modern military technology with its precision guidance missiles and smart bombs opens up the possibility of restricting deadly violence to its proper targets and staying clear of civilian life limb and property Another pressing issue is the fate of women in war in light of mass rapes characteristic of some new wars

Shooting to Kill Seumas Miller, 2016 In this book philosopher Seumas Miller analyzes the various moral justifications and moral responsibilities involved in the use of lethal force by police and military relying on a distinctive normative teleological account of institutional roles Miller covers a variety of urgent and morally complex topics including police shootings of armed offenders police shooting of suicide bombers targeted killing autonomous weapons humanitarian armed intervention and civilian immunity

Ethnic Politics and State Power in Africa Philip Roessler, 2016-12-15 Why are some African countries trapped in vicious cycles of ethnic exclusion and civil war while others experience relative peace In this groundbreaking book Philip Roessler addresses this

question Roessler models Africa's weak ethnically divided states as confronting rulers with a coup civil war trap sharing power with ethnic rivals is necessary to underwrite societal peace and prevent civil war but increases rivals capabilities to seize sovereign power in a coup d'état How rulers respond to this strategic trade off is shown to be a function of their country's ethnic geography and the distribution of threat capabilities it produces Moving between in depth case studies of Sudan and the Democratic Republic of the Congo based on years of field work and statistical analyses of powersharing coups and civil war across sub Saharan Africa the book serves as an exemplar of the benefits of mixed methods research for theory building and testing in comparative politics
