Recollections Of The Storming The Castle Of Badajos

George Webb Derenzy

Recollections Of The Storming The Castle Of Badajos:

Recollections of the Storming of the Castle of Badajos Captain MacCarthy, 2001 The siege and storming of Badajos from 18 March to 6 April 1812 was one of the bloodiest episodes of the Peninsular War In conditions resembling the trenches of the First World War Wellington's infantry dug their way towards the huge medieval walls of the Spanish frontier fortress before storming the place on the night of 6 April The town had denied them on two previous occasions and it is little wonder that once inside the men went berserk and embarked upon an orgy of rape pillage and destruction that lasted for a full seventy two hours Even the iron hand of Wellington himself could not stop it and in the words of one of the great historians of the war the disorder subsided rather than it was quelled The storming of Badajos was not achieved without huge cost to Wellington however Indeed he watched helpless as the flower of his army was smashed upon the breaches Over forty times did the 4th and Light Divisions attack and forty times were they beaten back with heavy loss Fortunately two other attacks intended only to distract the French succeeded One of them was made by the 3rd Division who took the Castle of Badajos by escalade the men scaling the forty feet high walls by means of flimsy ladders The 3rd Division was guided to its point of attack by James MacCarthy whose own vivid account of the siege and storming is reproduced here in this facsimile the latest in the acclaimed Spellmount Library of Military History series As well as being a graphic account of the siege MacCarthy's book is both extremely rare and is much sought after by students of the Peninsular War and by book collectors alike Dust jacket *Recollections of the Storming of the Castle of Badajos, by the Third Division, Under the Command of Lieut. offer a still potent often dramatic testimony to the past notably through the strength of the sites the power of the works and the vast resources they required This compelling book explores not only the history of fortifications themselves but also the real and potential threat to them posed by siegecraft Tracing the interaction of attack and defense over time Black situates the evolution of fortifications within the wider development of governments societies and cultures Moreover his examination of the future of these installations as well as of potential methods of destroying them only reaffirms their omnipresence in human history and their continued importance Fortifications are not simply relics of the past but rather elements fundamental to military and social interaction across the world today *Catalogue of the Library of the Royal United Service Institution* Royal United Service Institution (Great Britain). Library,1908 **Rethinking Military History** Jeremy Black,2004-09-02 Rethinking Military History is a bold new thought book that reconsiders military history at the beginning of the twenty first century The chapters provide a valuable and concise survey of the main themes in the study of military history from 1500 to the present day as Jeremy Black reveals the main trends in the practice and approach to mili
