Uncommonly Savage Paul D. Escott, 2019-03-04 Truly impressive Travels uncharted terrain moving deftly through a vast scholarship in two languages The research is sound the prose crisp and accessible and the subject unquestionably important W Fitzhugh Brundage author of *The Southern Past A Clash of Race and Memory* Illuminates the enduring potency of memory in shaping postwar societies for generations after the fighting ceased reminding us that both losers and victors often had powerful motives to remember and to forget Caroline E Janney author of *Remembering the Civil War* Traces the dynamics of memory in the aftermath of the Spanish and American civil wars and demonstrates how similar processes of closure willful blindness and ideological inculcation worked out in the different contexts to produce sometimes similar but often radically different outcomes Cillian McGrattan author of *Memory Politics and Identity* With an engaging narrative and deep research the book is a model of the benefits derived from a truly comparative study David Goldfield author of *Still Fighting the Civil War* Spain and the United States both experienced extremely bloody and divisive civil wars that left social and emotional wounds many of which still endure today In *Uncommonly Savage* award winning historian Paul Escott considers the impact of internecine violence on memory and ideology politics and process of reconciliation He also examines debates over reparation or moral recognition the rise of truth and reconciliation commissions and the legal psychological and religious aspects of modern international law regarding amnesty

Political Status of the Negro in the Age of FDR

Ralph J. Bunche, 2024-09-11 A Nobel Peace Prize winner s groundbreaking work of social science that offered one of the earliest portraits of Black life in twentieth century America This volume presents the essence of a massive report prepared in

1940 by a team headed by political scientist and civil rights leader Ralph J Bunche for the Carnegie Corporation's Survey of the Negro in America. The report was used by Swedish social economist Gunnar Myrdal in writing his monumental *An American Dilemma* and it shaped Myrdal's treatment of the Black political experience. As a valuable historical document it provides a backdrop against which we can measure change in the Black American's political status and interpret the origins and consequences of the second Reconstruction. *The Political Status of the Negro* introduces essential information about political practices in the Southern states. It offers insight into the historical economic, sociological, and psychological factors that accounted for these practices as well as some understanding of the myths, stereotypes, and symbols that contemporaries often used to explain and justify them. The study's most enduring value lies in its wealth of personal interviews which were conducted in the South in the late 1930s and in its first-hand impressions of the African Americans and Southern politics. The book is divided into two parts. The first contains Bunche's explanations, comments, and analytical writings on the subject; the second includes almost all of the interviews and field reports. To this text, historian Dewey W. Grantham added a comprehensive introduction that discusses Bunche and his work, the preparation of the research manuscript, and the book's role in Gunnar Myrdal's later work.

Blacks, Carpetbaggers, and Scalawags Richard L. Hume, Jerry B. Gough, 2008-10

After the Civil War, Congress required ten former Confederate states to rewrite their constitutions before they could be readmitted to the Union. An electorate composed of newly enfranchised former slaves, native southern whites minus significant numbers of disenfranchised former Confederate officials, and a small contingent of carpetbaggers or outside whites sent delegates to ten constitutional conventions. Derogatorily labeled black and tan by their detractors, these assemblies wrote constitutions and submitted them to Congress and to the voters in their respective states for approval. *Blacks, Carpetbaggers, and Scalawags* offers a quantitative study of these decisive but little-understood assemblies, the first elected bodies in the United States to include a significant number of blacks. Richard L. Hume and Jerry B. Gough scoured manuscript census returns to determine the age, occupation, property holdings, literacy, and slaveholdings of 839 of the conventions' 1,018 delegates. Carefully analyzing convention voting records on certain issues including race, suffrage, and government structure, they correlate delegates' voting patterns with their racial and socioeconomic status. The authors then assign a Republican support score to each delegate who voted often enough to count, establishing the degree to which each delegate adhered to the Republican leaders' program at his convention. Using these scores, they divide the delegates into three groups: radicals, swing voters, and conservatives, and incorporate their quantitative findings into the narrative histories of each convention, providing for the first time a detailed analysis of these long-overlooked assemblies. Hume and Gough's comprehensive study offers an objective look at the accomplishments and shortcomings of the conventions and humanizes the delegates who have until now been understood largely as stereotypes. *Blacks, Carpetbaggers, and Scalawags* provides an essential reference guide for anyone seeking a better understanding of the Reconstruction era.

Lincoln and the Politics

of Christian Love Grant N. Havers, 2009-11-13 America has seen faith based initiatives and the audacity of hope in twenty first century politics but few participants in our political scene have invoked the other Christian virtue of charity as a guiding principle Abraham Lincoln extolled the merit of loving thy neighbor as thyself especially as a critique of the hypocrisy of slavery but a discussion of Christian love is noticeably absent from today's debates about religion and democracy In this provocative book Grant Havers argues that charity is a central tenet of what Lincoln once called America's political religion He explores the implications of making Christian love the highest moral standard for American democracy showing how Lincoln's legacy demands that a true democracy be charitable toward all and that only a people who lived according to such ideals could succeed in building democracy as Lincoln understood it Havers argues that it is simplistic to conflate Lincoln's invocation of with charity for all with his abiding support for the ideal of human equality The ethic of charity in his view also brought a uniquely Christian realism to the universalism of democracy He also describes how since World War I intellectuals and political leaders have denied that there exists a necessary relation between democracy and Christian love proposing that democracy is sufficiently ethical without reliance on a specific religious tradition Today's neoconservatives and liberals instead posit a universal yearning for democracy that requires no foundation in the ethic of charity Havers shows that this democratic universalism espoused by those who believe a chosen people should uphold the natural rights of humanity is alien to the sober thought of both the founders and Lincoln This carefully argued work defends Lincoln's understanding of charity as essential to democracy while emphasizing the difficulty of fusing this ethic with the desire to spread democracy to people who do not share America's Christian heritage In considering the prospect of America's leaders rediscovering a moral foreign policy based on charity rather than the costly idolization of democracy Lincoln and the Politics of Christian Love makes a timely contribution to the wider debate over both the meaning of religion in American politics and the mission of America in the world and opens a new window on Lincoln's lasting legacy

The American Civil Rights Movement 1865-1950

Russell Brooker, 2016-12-07 The American Civil Rights Movement 1865-1950 is a history of the African American struggle for freedom and equality from the end of the Civil War to the beginning of the Civil Rights Movement in the 1950s and 1960s It synthesizes the disparate black movements explaining consistent themes and controversies during those years The main focus is on the black activists who led the movement and the white people who supported them The principal theme is that African American agency propelled the progress and that whites often helped Even whites who were not sympathetic to black demands were useful often because it was to their advantage to act as black allies Even white opponents could be coerced into cooperation or at least non opposition White people of good will with shallow understanding were frustrating but they were sometimes useful Even if they did not work for black rights they did not work against them and sometimes helped because they had no better options Until now the history of the African American movement from 1865 to 1950 has not been covered as one coherent story There have been many histories of African Americans that have treated the subject in one

chapter or part of a chapter and several excellent books have concentrated on a specific time period such as Reconstruction or World War II Other books have focused on one aspect of the time such as lynching or the nature of Jim Crow This is the first book to synthesize the history of the movement in a coherent whole **Tar Heel History on Foot** Lynn

Setzer,2013-10-01 This lively collection of 34 of the best history walks in North Carolina highlights the richness and diversity of the state s history from the time of its first settlement to the present Veteran guidebook author Lynn Setzer leads readers on short walks in state parks and natural areas state historic sites charming small towns from the mountains to the sea and the state s largest cities Along the way she brings to life some of our state s most momentous events most accomplished and notorious characters and most famous firsts These walks are varied pleasant and accessible to almost every reader including older day trippers and families with young children Some walks include add ons should readers wish to make a longer day of it Organized by theme and location the walks are accompanied by maps and photographs as well as information on each walk s length and difficulty A list of sources directs readers to additional information so that they can continue a deeper exploration of North Carolina history **Racism and Anti-racism in American Popular Culture** Catherine Silk,John

Silk,1990 **Encyclopedia of Historians and Historical Writing** Kelly Boyd,2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like J rgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies *Blacks in Appalachia* William H. Turner,Edward J.

Cabbell,2021-03-17 Although southern Appalachia is popularly seen as a purely white enclave blacks have lived in the region from early times Some hollows and coal camps are in fact almost exclusively black settlements The selected readings in this new book offer the first comprehensive presentation of the black experience in Appalachia Organized topically the selections deal with the early history of blacks in the region with studies of the black communities with relations between blacks and whites with blacks in coal mining and with political issues Also included are a section on oral accounts of black experiences and an analysis of black Appalachian demography The contributors range from Carter Woodson and W E B Du Bois to more recent scholars such as Theda Perdue and David A Corbin An introduction by the editors provides an overall context for the selections Blacks in Appalachia focuses needed attention on a neglected area of Appalachian studies It will be a valuable resource for students of Appalachia and of black history
