Reforming Juvenile Justice National Research Council,Division of Behavioral and Social Sciences and Education,Committee on Law and Justice,Committee on Assessing Juvenile Justice Reform,2013-06-22 Adolescence is a distinct yet transient period of development between childhood and adulthood characterized by increased experimentation and risk taking a tendency to discount long term consequences and heightened sensitivity to peers and other social influences A key function of adolescence is developing an integrated sense of self including individualization separation from parents and personal identity Experimentation and novelty seeking behavior such as alcohol and drug use unsafe sex and reckless driving are thought to serve a number of adaptive functions despite their risks Research indicates that for most youth the period of risky experimentation does not extend beyond adolescence ceasing as identity becomes settled with maturity Much adolescent involvement in criminal activity is part of the normal developmental process of identity formation and most adolescents will mature out of these tendencies Evidence of significant changes in brain structure and function during adolescence strongly suggests that these cognitive tendencies characteristic of adolescents are associated with biological immaturity of the brain and with an imbalance among developing brain systems This imbalance model implies dual systems one involved in cognitive and behavioral control and one involved in socio emotional processes Accordingly adolescents lack mature capacity for self regulations because the brain system that influences pleasure seeking and emotional reactivity develops more rapidly than the brain system that supports self control This knowledge of adolescent development has underscored important differences between adults and adolescents with direct bearing on the design and operation of the justice system raising doubts about the core assumptions driving the criminalization of juvenile justice policy in the late decades of the 20th century It was in this context that the Office of Juvenile Justice and Delinquency Prevention OJJDP asked the National Research Council to convene a committee to conduct a study of juvenile justice reform The goal of Reforming Juvenile Justice A Developmental Approach

was to review recent advances in behavioral and neuroscience research and draw out the implications of this knowledge for juvenile justice reform to assess the new generation of reform activities occurring in the United States and to assess the performance of OJJDP in carrying out its statutory mission as well as its potential role in supporting scientifically based reform efforts

Lawrence V. Moore, 2003 Criminal justice professionals and the media have noted the rise of juvenile crime rates nationwide and a growing surge in youth violence This in turn has highlighted the debate over juvenile transfers to adult courts Proponents of treating violent juvenile offenders as adults argue that juvenile offenders should be held accountable and receive punishment that is appropriate to the seriousness of their offences and that society must be protected by their removal from law abiding communities They urge that young offenders must be held accountable for both lesser and more serious crimes especially when the former offences if unpunished may lead offenders to commit the latter Opponents of treating violent juveniles offenders as adults argue that harsh punishment of juvenile offenders is counterproductive creating recidivism Their contention is that youths who are committing crimes should still be tried in juvenile courts rather than adult courts for a greater effect This informative book presents all the current issues problems ideas as well as some background on the controversies surrounding juvenile crime

Courting Kids Carla J. Barrett, 2013-01-01 Despite being labeled as adults the approximately 200 000 youth under the age of 18 who are now prosecuted as adults each year in criminal court are still adolescents and the contradiction of their legal labeling creates numerous problems and challenges In *Courting Kids* Carla Barrett takes us behind the scenes of a unique judicial experiment called the Manhattan Youth Part a specialized criminal court set aside for youth prosecuted as adults in New York City Focusing on the lives of those coming through and working in the courtroom Barrett's ethnography is a study of a microcosm that reflects the costs challenges and consequences the tough on crime age has had especially for male youth of color She demonstrates how the court through creative use of judicial discretion and the cultivation of an innovative courtroom culture developed a set of strategies for handling adult juvenile cases that embraced rather than denied defendants adolescence **Choosing White-Collar Crime**

Neal Shover, Andrew Hochstetler, 2005-11-14 For more than three decades rational choice theory has reigned as the dominant approach both for interpreting crime and as underpinning for crime control programs Although it has been applied to an array of street crimes white collar crime and those who commit it have thus far received less attention **Choosing White Collar Crime** is a systematic application of rational choice theory to problems of explaining and controlling white collar crime It distinguishes ordinary and upperworld white collar crime and presents reasons theoretically for believing that both have increased substantially in recent decades Reasons for the increase include the growing supply of white collar lure and non credible oversight **Choosing White Collar Crime** also examines criminal decision making by white collar criminals and their criminal careers The book concludes with reasons for believing that problems of white collar crime will continue unchecked in the increasingly global economy and calls for strengthened citizen movements to rein in the increases **Prisoner Reentry and Crime in America** Jeremy Travis, Christy Visser, 2005-08 The contributors question the causes of public concern about the number of returning prisoners the public safety consequences of prisoners returning to the community and the political and law enforcement responses to the issue New Directions in Restorative Justice Elizabeth Elliott, Robert Gordon, 2013-06-17 This book is based on papers originally presented at the 6th International Conference on Restorative Justice in Vancouver It is concerned with several new areas of practice within restorative justice with sections on restorative justice and youth aboriginal justice and restorative justice victimization and restorative justice and evaluating restorative justice
