Recycling The Cycle The City Of Chester And Its Whitsun Plays:

The Chester Cycle in Context, 1555-1575 Dr Helen Ostovich, Ms Jessica Dell, Professor David Klausner, 2012-11-01 The Chester Cycle in Context 1555 1575 considers the implications of recent archival research which has profoundly changed our view of the continuation of performances of Chester's civic biblical play cycle into the reign of Elizabeth I. Scholars now view the decline and ultimate abandonment of civic religious drama as the result of a complex network of local pressures heavily dependent upon individual civic and ecclesiastical authorities rather than a result of a nation wide policy of suppression as had previously been assumed. Approaching individual plays in the Chester cycle in the light of this new understanding this volume investigates how new sources shift and clarify our understanding of the last years of cycle's performance. Contributors analyze how the city attempted to preserve its dramatic traditions by making adjustments to the plays in the face of protestant objections to the stage portrayal of such concepts as transubstantiation the life of the Virgin Mary or such apocryphal stories as the midwives at the nativity. Many of the essays focus on the performance of 1572 which took place despite the objections of the bishop of Chester and in the face of complaints from protestant churchmen and citizens.

Recycling the Cycle David Mills, 1998-01-01 David Mills has produced a detailed study of the city of Chester Whitsun Plays in their local physical social political cultural and religious context. **The York Mystery Cycle and the Worship of the City** Pamela M. King, 2006 An investigation into the connections between the York Plays religious observance and the role played by the city itself. WINNER of the 2007 David Bevington Prize. The York Play is the earliest near complete English civic mystery cycle. It evolved constantly throughout its long performance history but the text that was recorded in the York Register shows that it was already a mature and elaborate civic festival by the time it was written down. This study uncovers the Cycle's connection with worship in York in the sense both of devotional practice and of civic honour informing a particular period in the cultural history of the city. The pageants in the Register show in their different ways how the community which devised and performed the Cycle regarded the celebration of the great summer feast of Corpus Christi. Moreover the principles of selection that give the Cycle its structure reflect the broader pattern of the liturgical calendar with its other feasts and fasts. The Cycle bears witness not only to the practices of religious observance in York but also to the ecclesiastical politics in which the city was caught up from the very beginning of the fifteenth century. PAMELA KING is Professor of Medieval Studies at the University of Bristol. **Cyclic Form and the English Mystery Plays** Peter Happé, 2016-08-09 Cyclic Form and the English Mystery Plays is centred upon the five extant English mystery cycles with a view to examining the cyclic form they share. It is based upon consideration of the differences between the texts and upon the underlying assumptions governing this dramatic form. The cycles are extensively compared with practices in the cyclic dramas of France the German speaking areas Italy the Netherlands and Spain in the late middle ages and the early modern period. There is also a unique and innovative bridging with iconographical material from a range of artistic modes giving

further insight into the structure and organisation of cyclic form Cyclic Form and the English Mystery Plays should be of interest to undergraduate students and to more experienced researchers in the early drama and the study of visual images and artefacts Shakespeare and Theatrical Patronage in Early Modern England Paul Whitfield White, Suzanne R. Westfall, 2006-12-14 During the past quarter of a century the study of patronage theatre relations in early modern England has developed considerably This however is an extensive wide ranging and representative 2002 study of patronage as it relates to Shakespeare and the theatrical culture of his time Twelve distinguished theatre historians address such questions as What important functions did patronage have for the theatre during this period How in turn did the theatre impact and represent patronage Where do paying spectators and purchasers of printed drama fit into the discussion of patronage The authors also show how patronage practices changed and developed from the early Tudor period to the years in which Shakespeare was the English theatre s leading artist This important book will appeal to scholars of Renaissance social history as well as those who focus on Shakespeare and his playwriting contemporaries *Imagining Spectatorship* John J. McGavin, Greg Walker, 2016 *Imagining Spectatorship* is a highly innovative study in the emerging area of early spectatorship focusing on the spectators experience to offer new perspectives on early drama Shakespeare and the Middle Ages Curtis Perry, John Watkins, 2009-05-07 *Shakespeare and the Middle Ages* brings together a distinguished multidisciplinary group of scholars to rethink the medieval origins of modernity Shakespeare provides them with the perfect focus since his works turn back to the Middle Ages as decisively as they anticipate the modern world almost all of the histories depict events during the Hundred Years War and King John glances even further back to the thirteenth century Angevins several of the comedies tragedies and romances rest on medieval sources and there are important medieval antecedents for some of the poetic modes in which he worked as well Several of the essays reread Shakespeare by recovering aspects of his works that are derived from medieval traditions and whose significance has been obscured by the desire to read Shakespeare as the origin of the modern These essays taken cumulatively challenge the idea of any decisive break between the medieval period and early modernity by demonstrating continuities of form and imagination that clearly bridge the gap Other essays explore the ways in which Shakespeare and his contemporaries constructed or imagined relationships between past and present Attending to the way these writers thought about their relationship to the past makes it possible in turn to read against the grain of our own teleological investment in the idea of early modernity A third group of essays reads texts by Shakespeare and his contemporaries as documents participating in social cultural transformation from within This means attending to the way they themselves grapples with the problem of change attempting to respond to new conditions and pressures while holding onto customary habits of thought and imagination Taken together the essays in this volume revisit the very idea of transition in a refreshingly non teleological way *Textual Cultures, Cultural Texts* Orietta Da Rold, Elaine M. Treharne, 2010 New essays reappraising the history of the book manuscripts and texts The dynamic fields of the history of

the book and the sociology of the text are the areas this volume investigates bringing together ten specially commissioned essays that between them demonstrate a range of critical and material approaches to medieval early modern and digital books and texts They scrutinize individual medieval manuscripts to illustrate how careful re reading of evidence permits a more nuanced apprehension of production and reception across time analyse metaphor for our understanding of the Byzantine book examine the materiality of textuality from Beowulf to Pepys and the digital work in the twenty first century place manuscripts back into specific historical context and re appraise scholarly interpretation of significant periods of manuscript and print production in the later medieval and early modern periods All of these essays call for a new assessment of the ways in which we read books and texts making a major contribution to book history and illustrating how detailed focus on individual cases can yield important new findings Contributors Elaine Treharne Erika Corradini Julia Crick Orietta Da Rold A S G Edwards Martin K Foys Whitney Anne Trettien David L Gants Ralph Hanna Robert Romanchuk Margaret M Smith Liberty Stanavage
