Degenerate Moderns E. Michael Jones,1993 In this groundbreaking new book Jones shows how some of the major determining leaders in modern thought and culture have rationalized their own immoral behavior and projected it onto a universal canvas The main thesis of this book is that in the intellectual life there are only two ultimate alternatives either the thinker conforms desire to truth or he conforms truth to desire In the last one hundred years the western cultural elite embarked upon a project which entailed the reversal of the values of the intellectual life so that truth would be subjected to desire as the final criterion of intellectual value In looking at recent biographies of such major moderns as Freud Kinsey Keynes Margaret Mead Picasso and others there is a remarkable similarity between their lives and thought After becoming involved in sexual license early on they invariably chose an ideology or art form which subordinated reality to the exigencies

of their sexual misbehavior *A Very Principled Boy* Mark A. Bradley, 2014-04-29 Drawing on previously unreleased CIA and State Department records this real life story of espionage misguided idealism and high treason follows a communist sympathizer who used his position as aid to the intelligence chief to leak critical information to the Soviets during World War II

The Atlantic, 1987 ***Covert Action in the Cold War*** James Callanan, 2009-11-24 Born out of the ashes of World War II the covert action arm of the Central Intelligence Agency CIA was created to counter the challenge posed by the Soviet Union and its allies and bolster American interests worldwide It evolved rapidly into an eclectic well resourced organization whose activities provided a substitute for overt military action and afforded essential backup when the Cold War turned hot in Korea and Vietnam This comprehensive examination of a still controversial subject sheds valuable new light on the undercover operations mounted by the CIA during the Cold War Using a wide range of unpublished government records and documents James Callanan traces the growth of the agency chronologically as it forged a covert action mission that sought to advance US foreign and defense policy in all corners of the globe Offering a powerful perspective on a pivotal period in American history *Covert Action in the Cold War* makes a crucial contribution to our understanding of global politics during the Cold War
