, *The Pragmatics of Negation* Malin Roitman, 2017-12-14 Negation is one of the most discussed phenomena within linguistics on all language levels though it never seems to be exhausted This operator establishes complex sentence structures and constantly challenges from a cognitive syntactical semantic and morphologic viewpoint presuppositions on language internal relations as rational and logic It therefore arouses interest through all fields within language sciences From a pragmatic perspective where negation is conceived a marked structure using negation often produces meanings beyond the one of a reversed affirmation it is not the case that X This book explores the various uses and pragmatic meanings of negation in authentic communication in different text types and in different languages predominately romance languages The multilingual composition marries a macro micro perspective where aspects of genre sociocultural context memory rhetoric and argumentation interplay with the negative morpheme s nature and embedded instructions This broad approach makes this book a unique contribution to negation studies and to pragmatics in general The book is important and enriching reading for scholars in all linguistic domains but particularly for researchers in semantics pragmatics argumentation and discourse analysis

Dialogue Analysis: Units, relations and strategies beyond the sentence Edda Weigand, Eckhard Hauenherm, 2011-07-13 The topic of this volume was discussed at a Round Table of the International Association for Dialogue Analysis IADA at the University of Bologna in March 1995 The Round Table was intended to make a scientific contribution in honour of the president s 65th birthday The topic refers on the one hand to the central problem of Dialogue Analysis which is to discover a new communicatively functioning unit after having left behind the unit of the sentence which can be considered the unit par excellence of structural linguistics On the other hand it includes the manifold units relations and strategies i e the specific problems of dialogue analysis
