Right Medicine How To Make Health Care Reform Work Today:

The Price of Life Robert H. Blank, 1997-02-14 How can America become a healthy nation Blank asks when it is beset by poverty illiteracy and crime No new health care system can succeed unless or until the links between social problems and sickness are understood and addressed On the national level Blank calls for a more aggressive redistribution of social and public health resources to the poor and elderly at the same time he describes sanctions that would encourage individuals to be more careful about their own health and limit or change destructive behavior *How Corporations Hurt Us All* Dan Butts, 2003 The recent accounting and corporate scandals of Enron WorldCom Tyco K Mart and McWane producer of cast iron water and sewer pipes which has killed 9 workers and injured 4600 more with impunity since 1995 and other greedy and lawless billion dollar behemoths are just the tip of the iceberg relative to the serious and pervasive harm that corporations and greed are doing to people communities the earth and to our children s and grandchildren s future *How Corporations Hurt Us All* examines many crises including how Big Oil billion dollar weapons contractors and unaccountable private firms like DynCorps are continuing dangerous and immoral Cold War policies by driving multiple wars and military operations our collapsing corporate health care system that restricts free speech stifles public debate and manipulates public opinion to serve narrow corporate and political goals Some of the world s largest multinational corporations DExxonMobil 1 oil company Wal Mart 1 retailer HCA 1 hospital conglomerate Citigroup the world s 1 financial institution and other rogue operations are profiled in the book The good news is that there are effective approaches to all of these interrelated greed driven crises Even more hopeful are the corporate reform and global economic democracy movements representing thousands of dedicated citizens groups and millions of individuals throughout the world Yet what is ultimately necessary to reverse global economic social and environmental deterioration and eventual collapse insure world peace and security strength our weakened civil liberties and fulfill our human potential as the book explains is forging a broad consensus on a new bottom line or organizing principle for business and society **The Right Medicine** David Cundiff, Mary Ellen McCarthy, 2012-12-06 When Dr David Cundiff called me with a proposal to help research and write *The Right Medicine* I was intrigued but skeptical His ideas for reform of the US health care system were visionary radical and highly original but would they work As a Wall Street analyst and long time student of the health care system I had my doubts had read David s book on hospice care *Euthanasia Is Not the Answer* and was impressed And I had recently witnessed the slow death of my grandmother from the complications of Alzheimer s disease Despite the fact that she was and had been suffering for years and despite the fact that her care was an extraordinary emotional and financial burden nursing home administrators and physicians encouraged one last ditch treatment after another pulling her back each time from the brink of what would have been a merciful death I knew that David was correct in his contention that hospice care and a more sparing application of high technology medicine were major keys to improving health care I also realized after a decade of analyzing the health care industry that a government funded system

along the lines of Canada's was probably the only way to rein in rampant inflation and provide universal coverage. But David had other ideas too. He argued that preventive care could dramatically cut both the incidence and costs associated with the most common causes of illness in America today. *Health Care Reform* United States. Congress. Senate. Committee on Small Business, 1994. **Condition Critical** Richard D. Lamm, Robert H. Blank, 2007 Explains in laymen's terms why we need to control costs come to terms with rationing in the near future and take more individual responsibility for health. Lamm and Blank explain why unchecked spending and use of technology is bad for our collective health from publisher description. *Comprehensive Health Care Reform Discussion Draft* United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Health, 2012. *Congressional Record* United States.
