

CHAPTER 3: THEORIES OF LAW

	NATURALIST	POSITIVIST	SOCIOLOGIST
THEORY	• a legal theory that recognises law of nature/ moral law • believes that laws must be good and just to govern human relation. • It's the nature of every human being to know from his conscience what is righteous and therefore lawful. • They believe that human laws are defined by morality, and not by an authority figure like a government king. • NATURALIST: OVERLAP THESIS • all forms of natural law theory supports the necessary relation between the concepts of law and morality.	• Positivists believe that only positive law is law. Positive laws are laws that have been established by the authority of the state (sovereign). • Positivists are blind to values. • Positive law has nothing to do with ideal or just law, it has no regard to goodness or badness or the law. • Recognize only positive facts and excludes considerations towards concepts of jurisprudence. • POSITIVIST: SEPARABILITY THESIS • Positivism is not concerned with whether law is moral, just or unfair.	• Law is wholly concerned with its effect and results on society rather than treating law as will of god or command of the sovereign as law exists for the needs of the society. • Main concern of socialist is interpreting the law in the social context, to bring good to the society. • Law regulates all kinds of relationships in a society and controls the behavior of its members. Hence, it is considered as a form of social control. • Law is not only about legality and punishment.

Rights And Law Analysis And Theory:

Rights and Law Andrew Halpin, 1997 *Rights and Law* Andrew Halpin, 2001 *Theory of Legal Personhood* Visa A. J. Kurki, 2019 This work offers a new theory of what it means to be a legal person and suggests that it is best understood as a cluster property The book explores the origins of legal personhood the issues afflicting a traditional understanding of the concept and the numerous debates surrounding the topic New Essays on the Nature of Rights Mark McBride, 2017-08-24 This original collection of jurisprudential essays furthers our understanding of the nature of rights In Part 1 Halpin considers the value of Hohfeldian neutrality when theorising about law in general and legal rights in particular and Kurki focuses on Hohfeld's operative notion of power In Part 2 Kramer rebuts Wenar's objections to his Interest Theory of rights and May provides a comparative defence of the Interest Theory against Wenar's Kind Desire theory of claim rights Penner then pursues legal doctrine focusing on whether judges hold the powers of their office as rights an issue over which Wenar and Kramer have clashed Sreenivasan utilising a novel test case involving pure public goods argues that the third party beneficiary objection to the Interest Theory is fatal McBride builds on Sreenivasan's Hybrid Theory of claim rights to construct his new Tracking Theory of rights Cruft then argues that the best extant versions of the Interest and Will Theories of rights cannot avoid a form of circularity and Van Duffel argues that meeting four adequacy constraints which he proposes counts in favour of any theory of rights In Part 3 Andersson proposes a tie breaking procedure for rights conflicts in the applied realm of politics and Steiner concludes by alleging that Kant's principle of right a standard of corrective justice has distributive implications A fine collection of cutting edge essays on the most important normative concept of modernity Professor Leif Wenar King's College London This important collection proceeds much beyond the famous 1998 A Debate Over Rights which sets the stage for the debates concerning rights since then It explores three aspects of rights First it re-examines the Hohfeldian classification and highlights its importance and relevance Second it investigates and develops the debates between the interest and the will theory It includes essays by the main established proponents of these two positions as well as essays by newcomers to this field The different essays in this part address each other in ways which sharpen and clarify the disagreements and provide new original arguments for the contending views Last it provides a new perspective on the debates concerning conflicts of rights and the ways to overcome them This collection will no doubt dominate the future conceptual discussions concerning the nature of rights and their role in political theory Professor Alon Harel The Hebrew University of Jerusalem **Legal Reasoning, Legal Theory and Rights** Martin P. Golding, 2017-07-05 This book is a selection of articles and chapters published over Martin Golding's academic career Golding's approach to the philosophy of law is that it contains conceptual and normative issues and in this volume logical issues in legal reasoning are examined and various theories of law are critically discussed Normative questions are dealt with regarding the rule of law and criminal law defenses and the concept of rights and the terminology of rights are analyzed Much of Golding's work is critical historical as

well as constructive This volume will prove an informative and useful collection for scholars and students of the philosophy of law

THE THEORY OF AMERICAN INTERNATIONAL LAW: ANALYSIS AND CRITICISM. LAVERNE

BURCHFIELD,1928 The Architecture of Rights David Frydrych,2021-10-13 What is a right What if anything makes rights different from other features of the normative world such as duties standards rules or principles Do all rights serve some ultimate purpose In addition to raising these questions philosophers and jurists have long been aware that different senses of a right abound To help make sense of this diversity and to address the above questions they developed two types of accounts of rights models and theories This book explicates rights modelling and theorising and scrutinises their methodological underpinnings It then challenges this framework by showing why the theories ought to be abandoned In addition to exploring structural concerns the book also addresses the various ways that rights can be used It clarifies important differences between rights exercise enforcement remedying and vindication and identifies forms of legal rights claiming and rights invoking outside of institutional contexts

Criminology and Political Theory Dr Anthony Amatrudo,2009-07-09 A lucid sophisticated and timely vindication of the importance of Marxist feminist and other radical perspectives on the state and political economy to the analysis of crime control and justice It offers a valuable guide to issues of political philosophy for students and teachers of criminology critically deconstructing the taken for granted categories of law and criminal justice Professor Robert Reiner London School of Economics UK This clear and concise book sets out the relationship between political theory and criminology It critically analyzes key theories and debates within criminology and addresses the major political ideas that lie beneath them Organized around key criminological concepts and issues the book covers power and ideology the nature of the state social control and policing punishment economics and criminal activity morality The book has been carefully developed to support practical teaching and learning and contains chapter summaries further reading and a comprehensive glossary which combine to provide a full understanding of the themes

The Methodology of Legal Theory Michael Giudice,Wil Waluchow,2017-07-05 The last decade has witnessed a particularly intensive debate over methodological issues in legal theory The publication of Julie Dickson s Evaluation and Legal Theory 2001 was significant as were collective returns to H L A Hart s Postscript to The Concept of Law While influential articles have been written in disparate journals no single collection of the most important papers exists This volume the first in a three volume series aims not only to fill that gap but also propose a systematic agenda for future work The editors have selected articles written by leading legal theorists including among others Leslie Green Brian Leiter Joseph Raz Ronald Dworkin and William Twining and organized under four broad categories 1 problems and purposes of legal theory 2 the role of epistemology and semantics in theorising about the nature of law 3 the relation between morality and legal theory and 4 the scope of phenomena a general jurisprudence ought to address

The Right to Equality in European Human Rights Law Charilaos Nikolaidis,2014-07-25 A right to equality and non discrimination is widely seen as fundamental in democratic legal systems But failure to identify the human interest

that equality aims to uphold reinforces the argument of those who attack it as morally empty or unsubstantiated and weakens its status as a fundamental human right This book argues that an understanding of the human interest which equality aims to uphold is feasible within the jurisprudence of the European Court of Human Rights ECtHR and the European Court of Justice ECJ In comparing the evolution of the prohibition of discrimination in the case law of both Courts Charilaos Nikolaidis demonstrates that conceptual convergence within the European Convention on Human Rights ECHR and the EU on the issue of equality is not as far as it might appear initially While the two bodies of equality law are extremely divergent as to the requirements they impose their interpretation by the international judiciary might be properly analysed under a common light to emphasise the substantive dimension of equality in European Human Rights law The book will be of great use and interest to scholars and students of human rights discrimination law and European politics

Cultural Heritage Rights

Anthony J. Connolly, 2017-05-15 This collection brings together selected articles on key areas in the field of cultural heritage rights discourse Contributed by an international group of scholars the papers address conceptual and political issues and explore themes in contemporary literature on cultural heritage such as repatriation looting and illicit trade the effects of armed conflict and the relationship between tourism economic development and cultural heritage The legal regulation of cultural heritage is also discussed with articles on regulatory challenges current practices around the world and issues and challenges in common Topics which are likely to become increasingly important in the future such as climate change cultural globalisation human genomic science and the shift to a post liberal post rights politics and law of cultural heritage are also explored This volume which presents the most up to date scholarship in an area of increasing interest and relevance is an indispensable reference resource for libraries lecturers and students

Natural Law and Modern Society

Sean Coyle, 2023-07-12 Modern society is riven by social divisions between conservatives and progressives liberals and socialists the mainstream and the rise of far right political groups etc Instead of truth there are post truth and alternative facts In the wake of problems caused by untruthful politicians and world leaders by Brexit and Covid the need to repair or rebuild our communities has become paramount but what kind of community should we build and on what foundations This book suggests that natural law is such a foundation Natural Law and Modern Society presents a new theory of natural law grounded in the thought of Saint Thomas Aquinas aimed at answering questions relevant to the world of today from the nature of morality and ethics to the theory of law obligation and political authority from the domestic realm to international community It seeks to elicit from the natural law tradition timeless truths concerning the human condition in particular the social and political dimensions to human existence This mode of existence it argues is not a problem to be resolved through some permutation of political institutions but a predicament to be managed At the heart of the book is the identification of a core morality a set of moral requirements that are foundational to every society at all places and times as distinct from those standards that are particular to this or that society at some time

Rights in Context Reza Banakar, 2010 This collection

offers a snapshot of how rights are debated and employed in public discourse to reshape legal and political relations at the beginning of the twenty first century They explore how rights are used to challenge the state of affairs by indiv

Sex, Gender and International Human Rights Law Giovanna Gilleri,2023-12-01 This book investigates the relationship between sex and gender under international human rights law and how this influences the formation of individual subjects Combining feminist queer and psychoanalytical perspectives the author scrutinises the sexed gendered human rights discourse starting from the assumptions underpinning interpretations of sex gender and the related notions of gender identity sex characteristics and sexual orientation Human rights law has so far offered only a limited account of the diversity of sexed gendered subjectivities being based on a series of simplistic assumptions Namely that there are only two sexes and two genders sex is a natural fact and gender is a social construct gender is the metonymic signifier for women and gender power relations take the asymmetrical shape of male domination versus female oppression Against these assumptions dominative and subordinate postures interchangeably attach to femininities and masculinities depending on the subjects roles their positionalities and the situational meanings of their acts The limits of an approach to gender which is based on rigid binaries are evident in two case studies on the UN human rights treaty bodies vocabulary on medically unnecessary interventions upon intersex children and on the European Court of Human Rights narrative on sadomasochism This examination of the impact of human rights on gendered subjectivities will be of interest to scholars students and researchers in international law gender studies queer studies cultural studies critical

race theory and psychoanalysis *Jurisprudence and Practical Logic of Civil Code* Xianzhong Sun, 2024-11-06 This book is a collection of articles that the author has pondered for a long time on the legal theory and practice of China's civil law. It mainly discusses the systematic scientific and practical issues of Chinese civil law. At the macro level, it covers the relationship between the general provisions and the specific provisions of the Civil Code, the introduction, decline and revival of the Pandekton system in the process of drafting the Civil Code in China, and the important position of the Civil Code in the national governance system. At the meso level, it analyses the legislative arrangement and practical significance of the real right of the Civil Code. At the micro level, it explains the attribute of unauthorised disposal and the legal basis for the abolition of this clause in the Contract Law.

The Limits and Logic of Agency Theory in Company Law Jonathan Hardman, 2024-09-12 Agency theory is ubiquitous in company law. This book explores the limits of such deployment and the logic of how to deploy it. The book makes five linked arguments in respect of the limits of agency theory in company law. First, it argues that agency theory has become so broad that it can be used to analyse most human relationships. Such breadth, though, comes at the expense of legal clarity, as agency relationships cover such a broad range of relationships that there are no normative legal conclusions that can be drawn merely from identifying such a relationship. Second, it argues that we need to differentiate more specific concepts with clearer legal implications, such as externalities and the particular manifestation of moral hazard that appears in insurance dynamics. Third, it argues that considerable amounts of existing company law theory, which is ostensibly built from agency theory, is in fact based on a series of hidden value judgments at each stage of the analysis. Fourth, it argues that company law theory should use agency theory less to rebalance the discipline. Agency theory has become hegemonic, which is dangerous for the discipline, obscures company law's role in establishing incentives, undermines accountability, and reduces company law's autonomy. The book then moves to the logic of agency theory and makes three arguments. First, it argues that we need to factor in the company only apply agency theory to voluntary interactions and foreground our value judgments when identifying agency relations to do it properly. Second, it argues that it is rational to incur agency costs when we perceive the benefits of doing so to outweigh the costs, meaning that agency costs can be facilitative and we should look to front-end them rather than universally minimise them. Third, it argues that this needs to be undertaken through mandatory laws. Exploring the external limits and internal logic of agency cost analysis, this book will be of interest to academics, students, and researchers of corporate and company law.

Women and International Human Rights Law Gayatri Patel, 2019-12-06 This book presents the findings of the first comprehensive study on the most recent and most unique and innovative method of monitoring international human rights law at the United Nations. Since its existence, there has yet to be a complete and comprehensive book solely dedicated to exploring the Universal Periodic Review (UPR) process. *Women and International Human Rights Law* provides a much-needed insight into what the process is, how it operates in practice, and whether it meets its fundamental aim of promoting the universality of all human rights. The book addresses

the topics with regard to international human rights law and will be of interest to researchers academics and students interested in the monitoring and implementation of international human rights law at the United Nations In addition it will form supplementary reading for those students studying international human rights law on undergraduate programmes and will also appeal to academics and students with interests in political sciences and international relations
