Rights And The Common Good The Communitarian Perspective

Ian Turner

Rights And The Common Good The Communitarian Perspective:

Rights and the Common Good Amitai Etzioni, 1995 This is a provocative new book that examines the relationship between individual rights and social responsibilities The book's thirty essays explore the foundations of communitarian thought as well as the implications of communitarian ideas for contemporary public and social policy The essays also discuss how communities can be strengthened and consider how society can be more responsive to the needs of individuals and communities

Responsibilities: A Critical Legal Defence of Human Rights Ian Turner, 2025-11-11 For many human rights have become a panacea for the injustices of society globalisation poverty discrimination climate change etc But has this rights inflation been a prima facie good Has the rise in human rights merely propounded a self-centred individualism exacerbating the marginalisation of large swathes of society who are already socially excluded Rightly human rights have been the subject of a multitude of criticisms from a range of critical perspectives Marxism critical legal studies communitarianism feminism critical race theory etc However this unique study pushes back against this tide of anti-rights providing an original defence of human rights from the perspective of a progressive political community of rights holders and duty bearers Possessing rights might place a rights holder at the centre of their moral universe to the exclusion of all others but that holder of rights cannot expect others to bear the duty of their rights without exercising the same obligation to the rights of others in return So far from emphasising isolation and self-interest responsibilities arising from the exercise of rights engender a keen sense of solidarity a principle integral to critical legal theory The book will be of interest to academics and researchers working in the areas of Human Rights Constitutional Law and Legal and Political Theory

Communitarian Politics in Asia Beng Huat Chua, 2004-07-31 This book examines instances in Southeast and East Asian countries where communitarianism is both articulated as national ideology and embedded as the ethos of social life

Meeting the Ethical Challenges of Leadership Craig E. Johnson, 2011-02-28 The Fourth Edition retains the elements of the text that have contributed to its success while also broadening its appeal Written in an informal accessible style author Craig E Johnson takes an interdisciplinary approach to leadership ethics while blending research and theory with practical application This unique text promotes ethical decision making and action through skill development self assessment and application exercises In the Fourth Edition A new chapter Ethical Crisis Leadership explains five ethical principles and strategies that are essential to fulfilling moral duties during times of crisis Leadership Ethics at the Movies features present short summaries of feature films that portray ethical dilemmas Discussion starters are included to prompt readers to draw ethical implications and applications from the films Self Assessment features measure the reader's performance on an important behaviour skill or concept discussed in the chapter Implications and Applications review key ideas and their ramifications for the reader as a leader For Further Exploration Challenge and Assessment encourages readers to engage in extended reflection and self analysis Focus on Follower Ethics boxes that broaden coverage of the text and introduce concepts students can apply to their

role as followers Three cases per chapter offer real world examples for analysis and reflection A lengthy reference section at the end of the book serves as a starting point for further research and exploration Instructors Resources include teaching strategies a test bank sample syllabi assignment descriptions and more

Reputation and Defamation Lawrence McNamara, 2007-12-13 The proposition that the tort of defamation protects reputation has long been axiomatic in the law The axiom's endurance is surprising it has long been observed that the law is riddled with inconsistencies and moreover the courts and the scholarly literature have rarely discussed exactly what reputation is and how judgments about reputation are made Reputation and Defamation develops a theory of reputation and uses it to analyse evaluate and propose a revision of the law It is the first book to present a comprehensive study of what reputation is how it functions and how it is and should be protected under the law Reputation it argues is best understood in terms of the moral judgments a community makes about its members Viewed in this way it becomes apparent contrary to the legal orthodoxy that defamation law did not really aim and function to protect reputation until the early nineteenth century Unfortunately the modern common law has not paid sufficient attention to either the nature of reputation or the historical relationship between reputation and defamation Consequently the tests for what is defamatory do not always protect reputation adequately or appropriately The shun and avoid and ridicule tests have developed so that a publication may be actionable even where it does not tend to prompt a negative moral judgment of the plaintiff These tests should be discarded The principal lowering the estimation test however is for the most part appropriately geared to the protection of reputation Importantly the scope of legal protection has been limited Words will only be actionable if they tend to make right thinking people think the less of the plaintiff The values of Christian tradition and Victorian moralism which became embedded in the concept of the right thinking person are problematic in the current era of moral diversity A revised legal framework is proposed It retains the principal test but rethinks how and why different criteria for moral judgment should or should not be recognised when courts determine whether an attack on reputation will be actionable as defamation It is argued that the right thinking person should be associated with an inclusive liberal premise of equal moral worth and a shared commitment to moral diversity The proposed framework demands that when courts recognise values at odds with that premise then such recognition must be justified on sound and expressly stated ethical grounds That demand serves to protect reputation appropriately and effectively in an age of moral diversity

Political Approaches to Educational Administration and Leadership Eugenie A. Samier, with Adam G. Stanley, 2008-03-01 This collection explores the political philosophy and theory foundations for educational administration and leadership as they influence our understanding analysis and practice in the field The first section Political Philosophy The Foundations discusses the work of such writers as Machiavelli Kant and Hegel Hayek Habermas and Bourdieu as their theories apply to the educational context The second section Political Analysis The Critique

examines various types of political analyses such as the politics of the policy process minority politics civil society micro politics community politics and cosmopolitan theory The last section Current Political Controversies The Practice addresses current topical issues of a political nature including the serving of the state economic agenda the democratisation of educational organisations the neo conservative agenda and globalisation The broad international perspective from which these topics are covered makes this volume an excellent addition to the fields of educational leadership organizational studies and educational administration theory

Understanding Dogmas and Dreams Nancy S. Love, 2006-02-09 Nancy Love's concise yet complete volume aims to inform students of their choices among political values By exploring the assumptions of various ideologies and comparing their positions students begin to understand political alternatives to be able to choose among them in essence they learn to think democratically Offering historical and analytic context for the selections in her companion reader *Dogmas and Dreams* Love challenges students to consider the various ways ideological frameworks shape political actions Reframing her approach in this second edition Love examines how traditional left right ideologies liberalism and conservatism socialism and fascism are shifting to adapt to new political realities in an ever turbulent post 9 11 world She also discusses why alternative ideologies feminism environmentalism fundamentalism and globalization may better convey our global political future While pushing the boundaries of the left right political spectrum she looks at how grassroots social movements offer alternative ways to view ideological differences from cluster concepts to micro discourses and even a planetary galaxy Expanded coverage includes a new chapter on nationalism and globalization which examines the work of Samuel Huntington Kenichi Ohmae Benjamin Barber and many more to explore fundamentalism in Islamic politics increased coverage of global environmental politics including Shiva's *Stolen Harvest* and Kelly's *Thinking Green* examining the relationships between developed and developing countries fresh material on socialist politics post 1989 and the rise of neo fascist movements in the United States and Europe including analysis of Hayden and Flacks *The Port Huron Statement* at 40 and Bob Moser's *The Age of Rage* an updated feminism chapter that considers the impact of third wave post colonial and so called power feminists and incorporates new analysis of Wollstonecraft's *A Vindication of the Rights of Woman* and Mohanty's *Under Western Eyes Revisited*

Collective Sustainable Consumption Anna Horodecka, Alina Szypulewska-Porczyńska, 2024-06-21 In the face of climate change and resulting environmental and social crises sustainable consumption has become a widely discussed issue and a key plank of the UN's Sustainable Development Goals SDGs The majority of the sustainable consumption research uses the SDG framework but this only serves to reinforce an individualistic efficiency based approach and it does not sufficiently cover the specific situation of transition economies In contrast this volume promotes a collective approach to sustainable consumption and combines general theoretical issues with empirical examples from the Polish economy The first part of the book presents a theoretical approach to collective consumption which has the core concepts of justice and human nature at its heart This approach emphasises the role of collective rationality and

categorises aspects of sustainable consumption as a common and public good The second part investigates diversified aspects of sustainability including socio economic inequalities as barriers to sustainable consumption consumer sovereignty in the context of current legal regulations and the impact on employees of changes to the types and conditions of work It also examines the sharing economy and the legal conditions of its development The third part adopts a political perspective focusing on the state policies enhancing the role of investment in public goods analyses photovoltaic programmes which promote prosumption and indicates challenges to sustainability faced by many countries such as the energy crisis sustainable finance and cooperative platforms This book will be of great interest to researchers and scholars interested in sustainability and consumption issues in economics management law public administration and political science

Schools and Community Dr James Arthur, Richard Bailey, 2002-11 Communitarianism as a movement is clearly a dominant theme within New Labour's educational policy How does this affect education and the life and work of schools Research has shown that there is a correlation between academic achievement and the strength of community life and awareness within a school The aim of this book therefore is to introduce communitarian thought to classroom teachers and to those working in education The book contextualizes the current debates within education around the many topical ideas being developed by communitarian thinkers including character building the role of parents the community and the individual values education and citizenship community education and standards and ethos in schools Throughout the book makes specific reference to the practical implications for both primary and secondary schools as well as for further education colleges This is a timely book that should be of interest to all those working in schools and with children and young people It aims to be a guide to this important and highly influential movement that is shaping our educational future
