Rights Persons:

Rights and Persons Abraham Irving Melden, 1980-01-01 *The UN Convention on the Rights of Persons with Disabilities in Practice* Lisa Waddington, Anna Lawson, 2018 A timely examination of the UN Convention on the Rights of Persons with Disabilities this first thorough comparative analysis contrasts the approaches of thirteen jurisdictions to reveal a legal area of growing importance The UN Convention on the Rights of Persons with Disabilities Great Britain. Parliament. Joint Committee on Human Rights, 2009 The UN Convention on the Rights of Persons with Disabilities builds on existing human rights treaties including the International Covenant on Civil and Political Rights and the International Covenant on Economic Social and Cultural Rights The UN Handbook for Parliamentarians on the Convention stresses that it is not intended to create new rights but clarifies the obligations and legal duties of States to respect and ensure the equal enjoyment of all human rights by all persons with disabilities Its purpose is to Promote protect and ensure the full enjoyment of all human rights and fundamental freedoms by all persons with disabilities and to promote respect for their inherent dignity The UK was among the first countries to sign the Convention on 30 March 2007 The findings of our recent inquiry on the rights of adults with learning disabilities showed that although UK law and policy on the treatment of adults with learning disabilities takes a human rights based approach the day to day experiences of people with learning disabilities are not so positive Ratification will send a strong signal to all people with disabilities in the UK and abroad that the Government takes equality and the protection of their human rights seriously The Government first publicly stated that reservations to the Convention were being considered in its response to our Report on the treatment of adults with learning disabilities in May 2008 more than a year after it signed the Convention Despite the Committee s call for a full explanation of the government s views on the compatibility of domestic law with the Convention the were then provided with little detail on the reservations being considered or the Government s approach to the process The Committee considers that progress towards ratification of the Convention by the UK has so far lacked transparency and has unfortunately alienated disabled people and their organisations This is unacceptable in the light of the clear Convention commitment which the Government intends to make to the involvement of disabled people in the development of policies and laws which affect them This approach undermines the previous role that the UK Government has played in championing equality for disabled people and their leading role in negotiating the terms of the UNCRPD An Introduction to Disability Inclusive Disaster Risk Reduction Shaun Grech, Jörg Weber, 2025-03-20 This first of its kind volume introduces Disability Inclusive Disaster Risk Reduction DIDRR in unprecedented critical and interdisciplinary ways covering the complex conceptual theoretical and practice terrain Established and emerging scholars and practitioners introduce and probe key discourses theory policy and practice at the intersections of disability disasters and disaster risk reduction navigating compound and dynamic areas including climate change governance wars and conflict forced migration disability representation geopolitics gender and ethnicity This edited

book lays out and questions established policies discourses and practices in mainstream areas including Disaster Risk Reduction Disaster Risk Management and Humanitarian Action opening an effective critical debate to understand challenge and shift dominant paradigms By developing new theory on DIDRR it will serve as an important tool for academics researchers and practitioners working in multiple fields including disability studies disaster management global health humanitarian studies international studies and geography among others

The Constitutional Rights, Privileges, and Immunities of the American People Arnold T. Guminski, 2009 The Constitutional Rights Privileges and Immunities of the American People explores the idea that the Supreme Court should radically revise its general theory of constitutional rights and discusses various aspects of some special theories of constitutional rights in order to ensure a sufficient universe of discourse As a former deputy district attorney for Los Angeles County Guminski gained a wealth of experience in preparing arguments for appellate courts Based on his experience and careful research he proposes a persuasive theory that explains why some but not all rights secured against infringement by the United States are also secured against infringement by the states by both the privileges or immunities and the due process clauses of the fourteenth amendment adopted in 1868 He examines whether national citizenship before the Civil War was paramount and superior addresses the procedural and substantive aspects of the due process clause and recites the reasons supporting his general theory In presenting the essentials of his theory about how the Constitution should be judicially construed Guminski thereby encourages other citizens to express their own opinions about constitutional law with the hope that these views may one day have an impact on the way the Supreme Court interprets the Constitution
