Sternek, Elena Trombini, Andrzej Zuczkowski, Giancarlo Trombini, 2022-06-08 The Essentials of Gestalt Theoretical Psychotherapy offer for the first time in English an insight into the guiding ideas of this integrative psychotherapy method which is consistently anchored in Gestalt psychology and in this respect also differs substantially from most streams of Gestalt therapy with which it should not be confused The anthology includes ten contributions by authors from Austria Italy Germany and the USA These deal with fundamental questions and concepts of any psychotherapy The role and meaning of consistency in practical life and in psychotherapy the question of human epistemic possibilities and an epistemology appropriate for psychotherapy the personality theory of Gestalt Theoretical Psychotherapy the basic principles of therapeutic relationship and practice the role of emotions in the example of phenomenal causality of feelings the task of diagnostics in Gestalt Theoretical Psychotherapy a clinical example related to anorexia Gestalt psychological viewpoints for therapy progress the role of relational determination in intrapsychic and interpersonal experience **Assimilating New Leaders**

Diane Downey, 2001 **Constructivist Instruction** Sigmund Tobias, Thomas M. Duffy, 2009-05-28 Bringing together leading thinkers from both sides of the hotly debated controversy about constructivist approaches to instruction this book presents the evidence for and against constructivism and detailed views from both sides of the controversy A distinctive feature is the dialogue built into it between the different positions *Pivot Thinking and the Differential Sharing of Information Within New Product Development Teams* Mark F. Schar, 2011 Functionally diverse team members bring unique sets of cognitive styles to team interaction it is less clear how these differences affect the exchange of critical mutually required team information This cognitive diversity in new product design NPD teams increases the likelihood that individual team members will perceive the team's task differently leading to cognitive representational gaps between teammates interpretations of both the task and potential solution This research shows that cognitively diverse NPD teams develop representational gaps based on individual cognitive preferences between convergent and divergent information types and these cognitive preferences influence both task definition and solution A second experiment shows that team leadership that bridges cognitive preferences called pivot thinking can overcome this limiting behavior Understanding these general mechanisms deepens understanding of group information processing and conflict in cognitively diverse NPD teams Implications for design education are discussed Proceedings of the 20th Congress of the International Ergonomics Association (IEA 2018) Sebastiano Bagnara, Riccardo Tartaglia, Sara Albolino, Thomas Alexander, Yushi Fujita, 2018-08-10 This book presents the proceedings of the 20th Congress of the International Ergonomics Association IEA 2018 held on August 26-30 2018 in Florence Italy By highlighting the latest theories and models as well as cutting edge technologies and applications and by combining findings from a range of disciplines including engineering design robotics healthcare management computer science human biology and behavioral science it provides researchers and practitioners alike with a comprehensive timely guide on human factors and ergonomics It also offers an excellent source of innovative ideas to stimulate future discussions

and developments aimed at applying knowledge and techniques to optimize system performance while at the same time promoting the health safety and wellbeing of individuals The proceedings include papers from researchers and practitioners scientists and physicians institutional leaders managers and policy makers that contribute to constructing the Human Factors and Ergonomics approach across a variety of methodologies domains and productive sectors This volume includes papers addressing the following topics Ergonomics in Design Activity Theories for Work Analysis and Design and Affective Design
