**Jack the Ripper?** Philip Jones, 2023-01-06 Readers are transported to Victorian London and introduced to Inspector Doyle a modern day detective with eternal life who discovers that he has been wrongly named as Jack the Ripper the Victorian serial killer Nobody wants that label at any time in history so with the aid of time travel he returns to the year 1888 in an attempt to clear his name Another complication for Inspector Doyle is that his modern day daughter Flora who he has left behind to travel back several centuries is becoming increasingly suspicious of her father s identity This is after making her way into his Shrewsbury study that she is forbidden to enter The only good thing about returning to 1888 is that Inspector Doyle is able to rekindle his relationship with daughter Alice and wife Eleanor who he had to leave behind all those centuries ago Alice can then only but marvel at her father s abilities to answer a question that only he knows the answer to because he has travelled into the future and back The story references many Victorian objects that have been meticulously researched and then used to tell a story that is only possible through time travel and a rather clever inventor who may or may not be still alive Many elements of the original Jack the Ripper case are also detailed as are the horrors of Whitechapel

Find out whether Inspector Doyle manages to clear his name by discovering who the real Jack the Ripper is and expect a twist at the end that involves both daughters and a Victorian book that unlike the rest of Inspector Doyle's objects is unable to exist in parallel between the two time zones      **Shadow Pasts** William D. Rubinstein, 2014-09-11 For many intelligent people the stuff of history does not consist of the kind of dry as dust investigations of diplomatic economic or political history that most university historians research and write about but the famous topics of history's mysteries who was Jack the Ripper Was there a conspiracy to kill President Kennedy Did Richard III murder the Princes in the Tower What are the mysteries of the ancient Pyramids Not only have a great many books and articles been written on these and similar topics by so called amateur historians but they have generated societies conferences newsletters and television programmes Many people who are not academic historians take a keen interest in these topics and have in some cases made themselves real experts on them with interesting theories of their own Despite all of this however these topics are virtually ignored by academic historians and can be treated with contempt In *Shadow Pasts* William D Rubinstein a well known and widely published history professor examines seven of the most famous and interesting topics which have been discussed debated examined and written about by amateur historians Each of these mysteries and the theories surrounding them are examined in detail with Professor Rubinstein presenting his own original and sometimes surprising conclusions about what really happened

New York City a case long connected by many to the earlier string of Ripper killings in the East End of London This is followed by coverage of the 2004 U S Ripper Conference including essays by John Hacker Jack the Ripper and Technology Ripperology in the Twenty First Century and Stan Russo The Strange Case of Dr Hewitt which questions why some suspects are treated more seriously than they probably should be adapted from their presentations there A number of shorter pieces by various authors follows Ripper Notes is a nonfiction anthology series covering all aspects of the Jack the Ripper murder case
