Rose, 2016-12-31 Honorable Mention 2016 Lyman Awards presented by the North American Society for Oceanic History This book is a thrillingly written story of naval planes boats and submarines during World War I When the U S entered World War I in April 1917 America's sailors were immediately forced to engage in the utterly new realm of anti submarine warfare waged on below and above the seas by a variety of small ships and the new technology of airpower The U S Navy substantially contributed to the safe trans Atlantic passage of a two million man Army that decisively turned the tide of battle on the Western Front even as its battleship division helped the Royal Navy dominate the North Sea Thoroughly professionalized the Navy of 1917-18 laid the foundations for victory at sea twenty five years later      *The Politics of Strategic Adjustment* Peter Trubowitz, Emily O. Goldman, Edward Rhodes, 1999 The contributors examine a century of American experience to illustrate how the United States determines its security policies While scholars have typically focused on outside factors such as international pressures constraints and opportunities this collection of essays shows that decisions about strategy are critically shaped by domestic politics political ideologies state structure and societal interest
