The Oxford Handbook of Cities in World History Peter Clark, 2013-02-14 In 2008 for the first time the majority of the planet s inhabitants lived in cities and towns Becoming globally urban has been one of mankind s greatest collective achievements over time and raises many questions How did global city systems evolve and interact in the past How have historic urban patterns impacted on those of the contemporary world And what were the key drivers in the roller coaster of urban change over the millennia market forces such as trade and industry rulers and governments competition and collaboration between cities or the urban environment and demographic forces This pioneering comparative work by leading scholars drawn from a range of disciplines offers the first detailed comparative study of urban development from ancient times to the present day The Oxford Handbook of Cities in World History explores not only the main trends in the growth of cities and towns across the world in Asia and the Middle East Europe Africa and the Americas and the different types of cities from great metropolitan centres to suburbs colonial cities and market towns but also many of the essential themes in the making and remaking of the urban world the role of power economic development migration social inequality environmental challenge and the urban response religion and representation cinema and urban creativity Split into three parts covering Ancient cities the medieval and early modern

period and the modern and contemporary era it begins with an introduction by the editor identifying the importance and challenges of research on cities in world history as well as the crucial outlines of urban development since the earliest cities in ancient Mesopotamia to the present

Markets and Growth in Early Modern Europe Victoria N Bateman, 2015-10-06 This is the first study to analyze a wide spread of price data to determine whether market development led to economic growth in the early modern period

Medieval Healthcare and the Rise of Charitable Institutions Tiffany A. Ziegler, 2018-10-13 Medieval Healthcare and the Rise of Charitable Institutions The History of the Municipal Hospital examines the development of medieval institutions of care beginning with a survey of the earliest known hospitals in ancient times to the classical period to the early Middle Ages and finally to the explosion of hospitals in the twelfth and thirteenth centuries For Western Christian medieval societies institutional charity was a necessity set forth by the religion s dictums care for the needy and sick was a tenant of the faith leading to a unique partnership between Christianity and institutional care that would expand into the fledgling hospitals of the early Modern period In this study the hospital of Saint John in Brussels serves as an example of the developments The institution followed the pattern of the establishment of medieval charitable institutions in the high Middle Ages but diverged to become an archetype for later Christian hospitals

House Prices: Changing the City World Pengfei Ni, Marco Kamiya, Haibo Wang, 2019-11-20 This report was jointly launched by the National Academy of Economic Strategy of the Chinese Academy of Social Sciences and UN HABITAT Using the indicator system and objective data the competitiveness of 1 035 global cities was evaluated in detail The report measures the development pattern of global urban competitiveness as a whole and the gap between the relevant parties and the ideal state It has refreshed people s past perceptions of urban rankings and confirmed that the science and technology innovation center cities and central cities of emerging economies have begun to break the inherent global cities and they have entered the ranks of the most urban competitiveness While paying attention to the comparison of competitiveness among cities this report further promotes the perspective to the pattern and trend change of global economic and social development from the perspective of city The followings are new findings First information technology has increasingly become the primary driving force for urban development Second it is the three meridians that divide the global urban population and economic differentiation Third the soft links between cities gradually dominate the global urban system Fourth the formation of new global cities is beginning

Public Finance of the Dutch Republic in Comparative Perspective Wantje Fritschy, 2017-04-11 This study offers the first complete overview of the remarkable public finances of the Dutch Republic of the United Provinces Wantje Fritschy has analysed the development and structure of its public revenue and expenditure She argues that a tax revolution and the fiscal resilience of the provinces together were more important for its surprising performance than Holland s public debt alone and the institutional and economic characteristics of its urban system were more important than wealth due to foreign trade Comparisons with the fiscal systems of three more centralized states the

Venetian Republic Britain and the Ottoman Empire underline the crucial importance of long term urbanization trajectories in understanding early modern fiscal performance It was not because it was federal that the Dutch Republic collapsed

Revival: Growth Clusters in European Metropolitan Cities (2001) Leo van den Berg,Erik Braun,2017-07-12 This title was first published in 2001 Analyzing and comparing several growth clusters in nine European cities this compelling volume examines the critical success factors that determine the economic development of urban regions The Rise of Commercial Empires David Ormrod,2003-03-13 A work of major importance for the economic history of both Europe and North America
