The Battle for God Karen Armstrong,2011-08-10

In the late twentieth century fundamentalism has emerged as one of the most powerful forces at work in the world contesting the dominance of modern secular values and threatening peace and harmony around the globe Yet it remains incomprehensible to a large number of people In *The Battle for God* Karen Armstrong brilliantly and sympathetically shows us how and why fundamentalist groups came into existence and what they yearn to accomplish We see the West in the sixteenth century beginning to create an entirely new kind of civilization which brought in its wake change in every aspect of life often painful and violent even if liberating Armstrong argues that one of the things that changed most was religion People could no longer think about or experience the divine in the same way they had to develop new forms of faith to fit their new circumstances Armstrong characterizes fundamentalism as one of these new ways of being religious that have emerged in every major faith tradition Focusing on Protestant fundamentalism in the United States Jewish fundamentalism in Israel and Muslim fundamentalism in Egypt and Iran she examines the ways in which these movements while not monolithic have each sprung from a dread of modernity often in response to assault sometimes unwitting sometimes intentional by the mainstream society Armstrong sees fundamentalist groups as complex innovative and modern rather than as throwbacks to the past but contends that they have failed in religious terms Maintaining that fundamentalism often exists in symbiotic relationship with an aggressive modernity each impelling the other on to greater excess she suggests compassion as a way to defuse what is now an intensifying conflict

The Rise

of Egyptian Communism, 1939-1970 Selma Botman,1988-08-01 Selma Botman examines the virtually unknown history of communism in Egypt during the twentieth century In an original and well documented study the author has traced the development of the revolutionary left using political court cases interviews with political activists and literature from the communist movement itself In the post World War II period Egyptian communists operated in an environment of extreme secrecy and periodic repression While the communist movement never became a mainstream political force or had realistic capabilities for overthrowing the royalist regime its importance and influence were much larger than its numbers imply Egyptian Marxists had a significant ideological impact on Egyptian society especially among the intelligentsia and to a lesser

degree among trade unionists Moreover they were present at key moments of nationalist student and working class militancy The revolutionary left also contributed to the destabilization of the constitutional monarchy and the worn out Wafd Party the premier nationalist organization in Egypt and helped pave the way for the emergence of Gamal Abdul Nasser and the Free Officers movement of 1952
