The Rise and Fall of the South African Peasantry Colin Bundy, 1979-01-01 **The Rise and Fall of the South African Peasantry** Jack Lewis, 1983 *Poverty, War, and Violence in South Africa* Clifton Crais, 2011-09-19 Poverty and violence are issues of global importance In *Poverty War and Violence in South Africa* Clifton Crais explores the relationship between colonial conquest and the making of South Africa's rural poor Based on a wealth of archival sources this detailed history changes our understanding of the origins of the gut wrenching poverty that characterizes rural areas today Crais shifts attention away from general models of economic change and focuses on the enduring implications of violence in shaping South Africa's past and present Crais details the devastation wrought by European forces and their African auxiliaries Their violence led to wanton bloodshed large scale destruction of property and famine Crais explores how the survivors struggled to remake their lives including the adoption of new crops and the world of inequality and vulnerability colonial violence bequeathed He concludes with a discussion of contemporary challenges and the threats to democracy in South Africa *The Rise and Fall of the South African Peasantry Second Edition* Colin Bundy, 2009-01 Collective Violence and the Agrarian Origins of South African Apartheid, 1900-1948 John Higginson, 2014-11-24 This book examines the dark odyssey of official and private collective violence against the rural African population and Africans in general during the two generations before apartheid became the primary justification for the existence of the South African state John Higginson discusses how Africans fought back against the entire spectrum of violence ranged against them demonstrating just how contingent apartheid was on the struggle to hijack the future of the African majority **The Oxford Handbook of the South African Economy** Arkebe Oqubay, Fiona Tregenna, Imraan Valodia, 2021 This Handbook provides a detailed and wide ranging coverage of the key economic questions in South Africa concentrating on the more recent economic challenges facing the country **Outlaws, Anxiety, and Disorder in Southern Africa** Rachel King, 2019-06-18 This book explores how objects landscapes and architecture were at the heart of how people imagined outlaws and disorder in colonial southern Africa Drawing on evidence from several disciplines it chronicles how cattle raiders were created pursued and controlled and how modern scholarship strives to reconstruct pasts of disruption and deviance Through a series of vignettes Rachel King uses excavated material rock art archival texts and object collections to explore different facets of how disorderly figures were shaped through impressions of places and material culture as much as actual transgression Addressing themes from mobility to wilderness historiography to violence resistance to development King details the world that raiders made over the last two centuries in southern Africa while also critiquing scholars tools for describing this world Offering interdisciplinary perspectives on the past in Africa's southernmost mountains this book grapples with concepts relevant to those interested in rule breakers and rule makers both in Africa and the wider world **No More Tears** Richard Levin, Daniel Weiner, 1997 This text demonstrates why incorporating extensive knowledge that exists in poor rural areas into development of land and

reform policies is essential for truly democratic social and economic transformation *The New Imperial Histories Reader* Stephen Howe, 2020-07-24 In recent years imperial history has experienced a newfound vigour dynamism and diversity There has been an explosion of new work in the field which has been driven into even greater prominence by contemporary world events However this resurgence has brought with it disputes between those who are labelled as exponents of a new imperial history and those who can by default be termed old imperial historians This collection not only gathers together some of the most important influential and controversial work which has come to be labelled new imperial history but also presents key examples of innovative recent writing across the broader fields of imperial and colonial studies This book is the perfect companion for any student interested in empires and global history **The House of Tshatshu** Anne Kelk Mager, Phiko Jeffrey Velelo, 2018-08-30 In rural South Africa today there are signs that chieftaincies are resurging after having been disbanded in colonial times Among these is the amaTshatshu of the Eastern Cape which was dis established in 1852 by the British and recognised once more under the democratic ANC dispensation in 2003 Bawana leader of the amaTshatshu was the first Thembu chief to cross the Kei River in the mid 1820s to open up the northeastern frontier of the Cape Colony His successors and followers fought the British in the frontier wars but were defeated In tracing his history and that of his descendants this book explores the meaning of chieftainship in South Africa at the time of colonial conquest under apartheid s bantustans and now post apartheid It illustrates not only the story of a beleaguered and dispossessed people but also the ways in which power is constructed In addition it is about gender and land about belonging identity and naming The book unsettles accounts of chiefly authority unpacks conflicts between royal families municipalities and government departments and explores the impasse created by these quarrels It retrieves evidence that the colonial state sought to obliterate and draws the disempowered back into the process of making history The authors are both closely associated with the land and the people of the amaTshatshu One is a historian who grew up on their land and the other is counsellor to the chief As such they bring their knowledge and respective skills to bear in this book The collaboration of a black and a white author sets up a creative tension which animates the text and is a powerful element of the book
