Long Walk To Church A Contemporary History Of Russian Orthodoxy:

A Long Walk To Church Nathaniel Davis,1995 Ironically Hitler s invasion and Stalin s reaction to it rescued the church parishes reopened new clergy and bishops were consecrated a patriarch was elected and seminaries and convents were reinstituted

A Long Walk To Church Nathaniel Davis,2003-02-28 Making use of the formerly secret archives of the Soviet government interviews and first hand personal experiences Nathaniel Davis describes how the Russian Orthodox Church hung on the brink of institutional extinction twice in the past sixty five years In 1939 only a few score widely scattered priests were still functioning openly Ironically Hitler s invasion and Stalin s reaction to it rescued the church and parishes reopened new clergy and bishops were consecrated a patriarch was elected and seminaries and convents were reinstituted However after Stalin s death Khrushchev resumed the onslaught against religion Davis reveals that the erosion of church strength between 1948 and 1988 was greater than previously known and it was none too soon when the Soviet government changed policy in anticipation of the millennium of Russia s conversion to Christianity More recently the collapse of communism has created a mixture of dizzying opportunity and daunting trouble for Russian Orthodoxy The newly revised and updated edition addresses the tumultuous events of recent years including schisms in Ukraine Estonia and Moldova and confrontations between church traditionalists conservatives and reformers The author also covers battles against Greek Catholics Roman Catholics Protestant evangelists and pagans in the south and east the canonization of the last Czar the church s financial crisis and hard data on the slowing Russian orthodox recovery and growth Institutional rebuilding and moral leadership now beckon between promise and possibility

Russian Society and the Orthodox Church Zoe Knox,2004-06-02 Russian Society and the Orthodox Church examines the Russian Orthodox Church s social and political role and its relationship to civil society in post Communist Russia It shows how Orthodox prelates clergy and laity have shaped Russians attitudes towards religious and ideological pluralism which in turn have influenced the ways in which Russians understand civil society including those of its features pluralism and freedom of conscience that are essential for a functioning democracy It shows how the official church including the Moscow Patriarchate has impeded the development of civil society while on the other hand the non official church including nonconformist clergy and lay activists has promoted concepts central to civil society

Through the Iron Curtain Silvia Scatena,Dietrich Sagert,2023-12-04 The history of the intertwined relationships woven by the Taiz Community amongst Christians of Eastern European countries in the second half of the last century has not yet been written Yet it is a fundamental chapter for understanding the unique international influence of the community The encounter with the different faces of a Christian youth beyond the Iron Curtain who in Taiz had their first experience of a unified European space was to become one of the main directions of the community s effort

from the early 1960s The contributions of this volume intend to throw a first light on this story relying on a completely unpublished documentation and on the testimony of many protagonists involved in the construction of this unique continental and ecumenical network

Varieties of Russian Activism Jeremy Morris,Andrei Semenov,Regina Smyth,2023-04-04 Despite decades under Putin s rule it is too simplistic to assert that authoritarianism in Russia has eliminated activism especially in relation to everyday life Instead we must build an awareness of diverse efforts to mobilize citizens to better understand how activism is shaped by and in turn shapes the regime Varieties of Russian Activism

focuses on a broad range of collective actions addressing issues from labor organizing to housing renovation religion electoral politics minority language rights and urban planning Contributors draw attention to significant forms of grassroots politics that have not received sufficient attention in scholarship or that deserve fresh examination The volume shows that Russians find novel ways to redress everyday problems and demand new services Together these essays interrogate what kinds of practices can be defined as activism in a fast changing politically volatile society An engaging collection Varieties of Russian Activism unites leading scholars in the common aim of approaching the embeddedness of civic activism in the conditions of everyday life connectedness and rising society state expectations

Stalin's Holy War Steven Merritt Miner, 2003-10-16 Histories of the USSR during World War II generally portray the Kremlin's restoration of the Russian Orthodox Church as an attempt by an ideologically bankrupt regime to appeal to Russian nationalism in order to counter the mortal threat of Nazism Here Steven Merritt Miner argues that this version of events while not wholly untrue is incomplete Using newly opened Soviet era archives as well as neglected British and American sources he examines the complex and profound role of religion especially Russian Orthodoxy in the policies of Stalin's government during World War II Miner demonstrates that Stalin decided to restore the Church to prominence not primarily as a means to stoke the fires of Russian nationalism but as a tool for restoring Soviet power to areas that the Red Army recovered from German occupation The Kremlin also harnessed the Church for propaganda campaigns aimed at convincing the Western Allies that the USSR far from being a source of religious repression was a

bastion of religious freedom In his conclusion Miner explores how Stalin's religious policy helped shape the postwar history of the USSR *Understanding Russian Politics* Stephen White, 2011-03-31 A fresh and compelling interpretation of Russian politics by a leading authority this textbook focuses on political developments in the world's largest country under Putin and Medvedev Using a wealth of primary sources it covers economic social and foreign policy and the system of politics that has developed in recent years Opposing arguments are presented and students are encouraged to reach their own judgements on key events and issues such as privatisation and corruption This textbook tackles timely topics such as gender and inequality issues organised religion the economic crisis and Russia's place in the international community It uses numerous examples to place this powerful and richly endowed country in context with a focus on the place of ordinary people which shows how policy is translated to Russians everyday lives *Soviet Space Culture* E. Maurer, J. Richers, M. Rütters, C.

Scheide, 2011-08-16 Starting with the first man made satellite Sputnik in 1957 and culminating four years later with the first human in space Yuri Gagarin space became a new utopian horizon This book explores the profound repercussions of the Soviet space exploration program on culture and everyday life in Eastern Europe especially in the Soviet Union itself

Globalization and Orthodox Christianity Victor Roudometof, 2013-10-15 With approximately 200 to 300 million adherents worldwide Orthodox Christianity is among the largest branches of Christianity yet it remains relatively understudied This book examines the rich and complex entanglements between Orthodox Christianity and globalization offering a substantive contribution to the relationship between religion and globalization as well as the relationship between Orthodox Christianity and the sociology of religion and more broadly the interdisciplinary field of Religious Studies While deeply engaged with history this book does not simply narrate the history of Orthodox Christianity as a world religion nor does it address theological issues or cover all the individual trajectories of each subgroup or subdivision of the faith Orthodox Christianity is the object of the analysis but author Victor Roudometof speaks to a broader audience interested in culture religion and globalization Roudometof argues in favor of using globalization instead of modernization as the main theoretical vehicle for analyzing religion displacing secularization in order to argue for multiple hybridizations of religion as a suitable strategy for analyzing religious phenomena It offers Orthodox Christianity as a test case that illustrates the presence of historically specific but theoretically distinct glocalizations applicable to all faiths **Ministries of Compassion among Russian**

Evangelicals, 1905-1929 Mary Raber, 2016-05-13 The present study fills a gap in the study of the evangelical movement in Russia by presenting a comprehensive picture of their compassionate ministry during their longest stretch of relative freedom before the 1980s Better known for their energetic preaching and literature work Russian evangelicals also gave attention to compassionate ministry although it was never extensive because of their marginal status They established assistance funds organized charitable institutions practiced urban rescue ministry participated in the Russian temperance movement and established economic communities Each area is distinct yet all were supported by the same set of theological

convictions The Russian evangelicals were convinced that their witness should consist of good works as well as words and that the gospel had the power to undo human suffering While intentionally cultivating an attitude of concern for the needs of others they taught that compassion was the concern of all members of the community regardless of economic status or age In their publications evangelicals devoted a good deal of teaching to the proper Christian attitude toward money and giving

They drew on Western models but also their indigenous sectarian roots **Eastern Christianity and the Cold War, 1945-91** Lucian Leustean, 2010-01-21 Despite widespread persecution Orthodox churches not only survived the Cold War period but levels of religiosity in Orthodox countries remained significant This book examines the often surprising relations between Orthodox churches and political regimes It provides a comprehensive overview of the dynamics between Eastern Christianity and politics from the end of the Second World War to the fall of communism covering 40 Orthodox churches including diasporic churches in Africa Asia America and Australia Based on research from recently opened archives and publications in a wide range of European languages it analyses church state relations on both sides of the Iron Curtain It discusses the following key themes the relationship between Orthodox churches and political power religious resistance to communism the political control of churches religion and propaganda monasticism and theological publications religious diplomacy within the Orthodox commonwealth and religious contacts between East and West **Icons Axed, Freedoms**

Lost Vyacheslav Karpov, Rachel L. Schroeder, 2025-01-14 In Icons Axed Freedoms Lost Vyacheslav Karpov and Rachel L. Schroeder demonstrate how Russia went from persecuting believers to jailing critics of religion and why in contrast religious pluralism and tolerance have solidified in Ukraine Offering a richly documented history of cultural and political struggles that surrounded desecularization the resurgence of religion's societal role from the end of the USSR to the Russo Ukrainian war they show Russian critics of desecularization adhered to artistic provocations from axing icons to punk prayers in cathedrals and how Orthodox activists in turn responded by vandalizing controversial exhibits and calling on the state to crush the enemies of the Church Putin's solidifying tyranny heard their calls and criminalized insults to religious feelings Meanwhile Ukraine adhered to its pluralistic legacies Its churches refused to engage in Russian style culture wars sticking instead to forgiveness and forbearance Icons Axed Freedoms Lost offers original theoretical and methodological perspectives on desecularization applicable far beyond the cases of Russia and Ukraine
