Moyles, 2021-03-30 A page turning memoir about a young woman s grueling revelatory summers working alone in a remote lookout tower and her eyewitness account of the increasingly unpredictable nature of wildfire in the Canadian north While growing up in Peace River Alberta Trina Moyles heard many stories of Lookout Observers strange eccentric types who spent five month summers alone climbing 100 foot high towers and watching for signs of fire in the surrounding boreal forest How could you isolate yourself for that long she wondered I could never do it she told herself Craving a deeper sense of purpose she left northern Alberta to pursue a decade long career in global humanitarian work After three years in East Africa and newly engaged Trina returned to Peace River with a plan to sponsor her fiance Akello s immigration to Canada Despite her fear of being alone in the woods she applied for a seasonal lookout position and got the job Thus begins Trina s first summer as one of a handful of lookouts scattered throughout Alberta with only a farm dog Holly labeled a domesticated wolf by her former owners to keep her company While searching for smoke Trina unravels under the pressure of a long distance relationship and a dawning awareness of the environmental crisis that climate change is producing in the boreal Through megafires lightning storms and stunning encounters with wildlife she learns to survive at the fire tower by forging deep connections with nature and with an extraordinary community of people dedicated to wildfire detection and combat In isolation she discovers a kind of self awareness and freedom that only solitude can deliver Lookout is a riveting story of loss transformation and belonging to oneself layered with an eyewitness account of the destructive and regenerative power of wildfire in our northern forests **Shadowrun Legends: Technobabel** Stephen Kenson, 2018-09-21 A MEGABYTE BLOW OUT IN 21ST CENTURY BOSTON He awoke in a body bag his brain fried a black hole where his memory should be If not for the cool carbon fiber blade concealed in his arm he would ve been dead for sure But Michael Bishop a k a Babel messiah of the Matrix is back in the game Renraku Computer Systems has defied the accords of the Corporate Court Now they must

decipher the secrets of the otaku and Babel is the technoshaman reborn for the job But netwalking in the shadows of the electron jungle means an initiation into deadly megacorporate intrigue and discovering more about Babel's own team than he fears he should know As allies become adversaries Babel breaks through the dreaded black ice security to find a doorway to the future and signs of a corp war looming on the horizon one that could destroy the technoworld and beyond forever The Seven Angels of the Apocalypse Peter M. Sciarrotta, 2002-08-29 It was hard to categorize The Seven Angels of the Apocalypse It is fiction based on the truths that loom before us all Chapter 1 is totally true as the main character encounters a stigmatic through a third party on his 21st birthday the day he was to decide about becoming a priest There are many other truths that manifest themselves throughout this book The author is able to identify who the angels of the Apocalypse actually are by name which is very bold and is able to back these up with Biblical facts that are thrown into this work The author spins a web of world events that develop well with many twists and turns and in the end all things come together in a very climatic scene Don't overlook any details given by the author as there are many covert themes present He seems to say a lot with few words as if he trusts the reader's intelligence Peter is able to bring these world events to a level that relate to the lives of everyday people while giving us an insight to the way our world leaders would handle the apocalyptic situations One point brought up by one of the book's characters Pope Peter II is monumental The Bible is the most widely published book ever why does no one know how it ends The insight the author has is straight forward and Peter does not hesitate to challenge other schools of thought The Left Behind theory is put under scrutiny and the characters give argument to this widely accepted theory quite successfully The Seven Angels of the Apocalypse is not a long drawn out novel which is good because the reader's attention will be so intense that you just can't put this book down This book takes you from today to the Second Coming There will be a sequel The Millennial Reign of Jesus Christ to take us from the Second Coming to the end of Revelations Do not read this book before bedtime Doom of the Gods James McHale, 2013 Armageddon looks set for mankind when a dangerous experiment with nanotechnology aboard the International Space Station goes disastrously wrong following a massive solar eruption The destruction of the space station results in the microscopic engines of destruction beginning to rain down upon the earth Further complications ensue with the arrival of the stellar mass that has been ejected from the sun and also threatens the earth With mankind's very survival in the balance the race is on to prevent the final extinction of all life across the earth by the nanoplague and the solar storm This is a fast paced action sci fi story that spans the globe and leaves the reader breathless with its political and international intrigue advanced technology and raw human emotion **The Greatest Classics for Children in One Volume** J.
