Looking After Children Essential Information Record:

Looking After Children Raymond A. Lemay, Hayat Ghazal, 2007-03-01 Looking After Children is an assessment and planning approach for children and youth in out of home care first developed in the UK and since 1997 adapted and used increasingly in Canada particularly in Ontario The approach is developmental and strengths based The Assessment and Action Record AAR the core clinical tool provides the basis for an in depth assessment interview which then leads to a comprehensive care plan The AAR is computerized and provides the possibility of data aggregation and the recent revision allows for comparability among Canadian children as assessed by the National Longitudinal Survey of Children and Youth Looking After Children A Practitioner s Guide includes training material that will help practitioners understand and put the LAC approach and tools to effective use Published in English *Assessing Outcomes in Child and Family Services* Anthony N. Maluccio, 2017-11-30 In this collective portrait editors and authors do not attempt to draw systematic country by country comparisons Given the magnitude of the issues they believed that it would be inappropriate to paint with too broad a stroke What they have accomplished however is to codify and identify what the participants repeatedly noted in regard to issues and difficulties inherent in conducting outcome evaluation These include varying definitions of outcome complexities in measuring outcomes of particular interventions with different groups of consumers and documenting the effectiveness of the intervention the tendency to focus on evaluation of process more than outcome the challenge of involving practitioners in the evaluation task in part because its value is unclear to them or perceived as distant or untrustworthy the typical inadequacy of resources available for systematic evaluation and the need to inject rigor into the design and execution of evaluation projects The authors demonstrate strong conviction about sharing research expertise across national boundaries learning through each other how to cope with organizational impediments to cross national collaboration and strengthening the interaction between practice and research Their contributions suggest that there is wide interest in pursuing cross national collaboration In recent years largely in response to demands by their funding sources for accountability assessment of performance and cost effectiveness researchers in human services have been devoting increased attention to outcome evaluation Limited attention however has been given to the findings of evaluation studies conducted in different countries The present volume has been organized and edited to address the task of learning from outcome research across the world Its goal an extension of a major goal of the human services in any one country is to improve life chances of vulnerable children and youth **Improving the Health of Children and Young People in Public Care** Helen Lewis, 1999 This manual supports the health training of residential and field social workers and foster carers The Integrated Children's System Hedy Cleaver, Harriet Ward, Jane Scott, Wendy Rose, Andrew Pithouse, 2008-06-15 The Integrated Children's System ICS was developed to support effective practice with children and families and improve decision making and planning for children in need This book outlines what the ICS is and how it works and assesses the effectiveness of a number of pilot

studies offering guidance for others using and implementing the system

Children, Spirituality, Religion and Social Work Margaret Crompton, 2017-03-02 Attention to children's spiritual and religious well being is required by legislation Government guidelines and the UN Convention on the Rights of the Child 1989 Margaret Crompton has worked with and on behalf of children as a social worker lecturer and writer Her recent publications include *Children and Counselling* and a training pack *Children Spirituality and Religion* This jargon free book develops and adds to those ideas and materials focusing on everyday practice in social work education and health care Reference is made to several religions and to ideas about spirituality which is not necessarily associated with religious belief and observance Practitioners experience is also cited Topics include spiritual and religious rights spiritual development needs and well being implications of religious beliefs and observances for daily life and care abuse and neglect death including suicide and abortion and communication including stories and play
