Looking Back At Leisure:

Childhoods & Leisure Utsa Mukherjee, 2023-09-12 This edited volume brings together interdisciplinary scholarship on children's everyday leisure from across the globe addressing key questions around children's agency, rights, child-adult relations and social change. It is positioned to inaugurate a new frontier of research within leisure studies. Leisure theory has historically been adult-centric and based in the global north and consequently children's lived experiences of leisure have remained marginal to theory-building exercises within leisure studies since its inception. As the call for decolonizing leisure studies grows, this book champions a cross-cultural and social justice agenda that does not privilege global north childhoods but acknowledges the multiplicity of lived childhoods across the globe and their interconnections. By drawing attention to children's leisure across multiple genres such as organized leisure, sports, play and digital leisure among others, this edited volume drives a new wave of research that speaks simultaneously to leisure studies and childhood studies and thereby advances the intellectual remit of global leisure studies.

Time, work and leisure Hugh Cunningham, 2016-05-16 This book traces the history of the relationship between work and leisure from the leisure preference of male workers in the eighteenth century through the increase in working hours in the later eighteenth and early nineteenth centuries to their progressive decline from 1830 to 1970. It examines how trade union action was critical in achieving the decline, how class structured the experience of leisure, how male identity was shaped by both work and leisure, how in a society that placed high value on work a leisured class was nevertheless at the apex of political and social power until it became thought of as the idle rich. Coinciding with the decline in working hours, two further tranches of time were marked out as properly without work: childhood and retirement. Accessible, wide-ranging and occasionally polemical, this book provides the first history of how we have imagined and used time.

Looking back Mary Elizabeth Shipley, 1879 *Free Time* Graham Neville, 2004-05-27 For centuries, Christian teachers saw leisure only as a necessary accompaniment of work, a time for the recovery of strength so that work could be resumed. But now the expansion of leisure requires a theological reassessment. These essays are offered as a contribution to that process. In this book, hints are taken from a wide variety of theologians from Augustine and Thomas Aquinas to Pascal, Kierkegaard, Berdyaev, Barth and Moltmann, as well as from sociological writers such as Thorstein Veblen and Josef Pieper. There are also thematic discussions of fantasy and imagination of freedom and boredom and of play, games and laughter. The intention is to stimulate discussion, not to make definitive statements.

Labor's End traces the discourse around automation from its origins in the factory to its wide ranging implications in political and social life As Jason Resnikoff shows the term automation expressed the conviction that industrial progress meant the inevitable abolition of manual labor from industry But the real substance of the term reflected industry s desire to hide an intensification of human work and labor s loss of power and protection behind magnificent machinery and a starry eyed faith in technological revolution The rhetorical power of the automation ideology revealed and perpetuated a belief that the idea of freedom was

incompatible with the activity of work From there political actors ruled out the workplace as a site of politics while some of labor's staunchest allies dismissed sped up tasks expanded workloads and incipient deindustrialization in the name of technological progress A forceful intellectual history Labor's End challenges entrenched assumptions about automation's transformation of the American workplace
