Poetry and Identity in Quattrocento Naples Matteo Soranzo, 2016-04-22 Poetry and Identity in Quattrocento Naples approaches poems as acts of cultural identity and investigates how a group of authors used poetry to develop a poetic style while also displaying their position toward the culture of others Starting from an analysis of Giovanni Pontano's Parthenopeus and De amore coniugali followed by a discussion of Jacopo Sannazaro's Arcadia Matteo Soranzo links the genesis and themes of these texts to the social political and intellectual vicissitudes of Naples under the domination of Kings Alfonso and Ferrante Delving further into Pontano's literary and astrological production Soranzo illustrates the consolidation and eventual dispersion of this author's legacy by looking at the symbolic value attached to his masterpiece Urania and at the genesis of Sannazaro's De partu Virginis Poetic works written in neo Latin and the vernacular during the Aragonese domination in this way are examined not only as literary texts but also as the building blocks of their authors careers

Urban Poetics in the French Renaissance Elisabeth Hodges, 2016-12-05 The city view forms the jumping off point for this innovative study which explores how the concept of the city relates to the idea of the self in early modern French narratives At a time when print culture cartography and literature emerged and developed together the city view a picture or topographic image of a city became one of the most distinctive and popular products of the early modern period Through a construct she calls urban poetics Elisabeth Hodges draws out the relationship between the city and the self showing the impact of the city in cultural production to be so profound that it cannot be extricated from what we know by the name of subjectivity Each chapter of the book brings focus to a crucial text that features descriptions of the self in the city by the writers Villon Corrozet Scève and Montaigne and investigate how representations of urban experience prepared the way for the emergence of the autonomous subject Charting a course between cartography literary studies and cultural history this study opens new vistas on some of the period's defining problems the book the subject the city

The Reception of Vergil in Renaissance Rome Jeffrey A. Glodzik, 2023-01-16 In this work Jeffrey Glodzik argues that Vergil played a central role in the prevailing discourse of Renaissance Rome Roman humanists associated with the papacy employed the language of Vergil to express a vision for Rome and its divinely ordained destiny Using the transformation methodology allelopoiesis he shows that

in their neo Latin works Roman humanists focused on a Christian interpretation of the fourth eclogue to highlight an incipient Golden Age ignored pessimistic readings of the Aeneid to emphasize the glories of a renewed imperium and encapsulated Vergil's words to celebrate papal Rome's unquestionable destiny Ultimately Glodzik demonstrates that the interpretation and application of Vergil were not uniform throughout Europe Vergil was instead shaped to fit the concerns of papal Rome

Vittoria Colonna and the Spiritual Poetics of the Italian Reformation Abigail Brundin, 2016-02-11 Vittoria Colonna was one of the best known and most highly celebrated female poets of the Italian Renaissance Her work went through many editions during her lifetime and she was widely considered by her contemporaries to be highly skilled in the art of constructing tightly controlled and beautifully modulated Petrarchan sonnets In addition to her literary contacts Colonna was also deeply involved with groups of reformers in Italy before the Council of Trent an involvement which was to have a profound effect on her literary production In this study Abigail Brundin examines the manner in which Colonna's poetry came to fulfil in a groundbreaking and unprecedented way a reformed spiritual imperative disseminating an evangelical message to a wide audience reading vernacular literature and providing a model of spiritual verse which was to be adopted by later poets across the peninsula She shows how through careful management of an appropriate literary persona Colonna's poetry was able to harness the power of print culture to extend its appeal to a much broader audience In so doing this book manages to provide the vital link between the two central facets of Vittoria Colonna's production her poetic evangelism and her careful construction of a gendered identity within the literary culture of her age The first full length study of Vittoria Colonna in English for a century this book will be essential reading for scholars interested in issues of gender literature religious reform or the dynamics of cultural transmission in sixteenth century Italy It also provides an excellent background and contextualisation to anyone wishing to read Colonna's writings or to know more about her role as a mediator between the worlds of courtly Petrarchism and religious reform
