Major British writers George Bagshawe Harrison (ed), 1954 Major British Writers George Bagshawe Harrison (1894-ed), 1959 **Major British Authors** C. A. Enroth, 1970 **Encyclopedia of British Writers, 1800 to the Present** George Stade, Karen Karbiener, 2010-05-12 Contains alphabetically arranged entries that provide biographical and critical information on major and lesser known nineteenth and twentieth century British writers and includes articles on key schools of literature and genres **Encyclopedia of British Writers** Christine L. Krueger, 2014-07 This concise encyclopedic reference profiles more than 800 British poets *The New Cambridge Bibliography of English Literature: Volume 1, 600-1660* George Watson, Ian Roy Willison, 1974-08-29 More than fifty specialists have contributed to this new edition of volume 1 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries The Life & time of seven major British writers, 1974 Sterneiana, 1974 *Major British Writers, Vol II* George Bagshawe Harrison, 1959 English poetry and literature **Major British Writers** George Bagshawe Harrison, 1961 Major British Writers VOL 1 G.B. Harrison, 1954 **A Literary Pilgrimage Among the Haunts of Famous British Authors** Theodore Frelinghuysen Wolfe, 1895 **A Literary Pilgrimage Amongst the Haunts of Famous British Authors** Theodore Frelinghuysen Wolfe, 1895 **Major English Writers of the Eighteenth Century** Harold E. Pagliaro, 1969 **A Guide to English Literature** F. W. Bateson, At first glance A Guide to English Literature may seem to be no more than a short bibliography of English literature with perhaps rather more extensive and certainly more outspoken comments on the principal editions commentaries biographies and critical works than bibliographies usually provide But it is something more this guide contains long inter chapters that provide reinterpretations of the principal periods of English literature in the light of modern research as well as two final sections summarizing in unusual detail the literary criticism that exists in English and recent scholarship in the field The purpose of this book then is to provide the reader with convenient access to a disciplined study of the texts themselves This guide proposes itself as a new kind of literary history The conventional history of literature has often tended to become a substitute for the reading of the literature it describes the better the history the greater the temptation to substitute it The present combination of reading lists and inter chapters cannot be a substitute for anything else Meaningless as literature in themselves they nevertheless provide the necessary preliminary information to meaningful reading Since oddities of arrangement derive from these assumptions the authors are not arranged alphabetically Instead

there are chronological compartments with the divisions circa 1500 1650 and 1800 in which authors succeed each other in the order of their births This pioneering handbook is primarily a bibliographical laborsaving device It is meant mostly for students and the general reader in that it stops where original research by the reader is expected to begin However the last chapter on literary scholarship is devoted specifically to the research specialist and provides indispensable equipment for the reader There is also a general section on literary criticism which will be of use to all F W Bateson 1901 1978 was University Lecturer in English Literature at Oxford and a Fellow and Tutor of Corpus Christi College Founder and editor of the periodical *Essays in Criticism* he is also editor of the four volume *Cambridge Bibliography of English Literature* and the author of a number of critical studies of English poetry and drama *Major British Writers, Vol I* George Bagshawe Harrison, 1959 **British Writers** Jay Parini, 2002 This supplement reflects the newest scholarship on some of the most important figures featured in the original *British Writers* set Twenty brand new articles all written by scholars provide a fresh look at writers such as Chaucer William Blake Charles Dickens James Joyce W B Yeats T S Eliot Joseph Conrad and many others **The Encyclopedia of British Literature, 3 Volume Set** Gary Day, Jack Lynch, 2015-03-09 Provides a comprehensive overview of all aspects of the poetry drama fiction and literary and cultural criticism produced from the Restoration of the English monarchy to the onset of the French Revolution Comprises over 340 entries arranged in A Z format across three fully indexed and cross referenced volumes Written by an international team of leading and emerging scholars Features an impressive scope and range of subjects from courtship and circulating libraries to the works of Samuel Johnson and Sarah Scott Includes coverage of both canonical and lesser known authors as well as entries addressing gender sexuality and other topics that have previously been underrepresented in traditional scholarship Represents the most comprehensive resource available on this period and an indispensable guide to the rich diversity of British writing that ushered in the modern literary era 3 Volumes www.literatureencyclopedia.com
