Joy at Work Dennis W. Bakke,2010-08-03 Imagine a company where people love coming to work and are highly productive on a daily basis Imagine a company whose top executives in a quest to create the most fun workplace ever obliterate labor management divisions and push decision making responsibility down to the plant floor Could such a company compete in today s bottom line corporate world Could it even turn a profit Well imagine no more In Joy at Work Dennis W Bakke tells the true story of this extraordinary company and how as its co founder and longtime CEO he challenged the business establishment with revolutionary ideas that could remake America s organizations It is the story of AES whose business model and operating ethos let s have fun were conceived during a 90 minute car ride from Annapolis Maryland to Washington D C In the next two decades it became a worldwide energy giant with 40 000 employees in 31 countries and revenues of 8.6 billion It s a remarkable tale told by a remarkable man Bakke a farm boy who was shaped by his religious faith his years at Harvard Business School and his experience working for the Federal Energy Administration He rejects workplace drudgery as a noxious remnant of the Industrial Revolution He believes work should be fun and at AES he set out to prove it could be Bakke sought not the empty fun of the Friday beer blast but the joy of a workplace where every person from custodian to CEO has the power to use his or her God given talents free of needless corporate bureaucracy In Joy at Work Bakke tells how he helped create a company where every decision made at the top was lamented as a lost chance to delegate responsibility and where all employees were encouraged to take the game winning shot even when it wasn t a slam dunk Perhaps Bakke s most radical stand was his struggle to break the stranglehold of creating shareholder value on

the corporate mind set and replace it with more timeless values integrity fairness social responsibility and a sense of fun
