Making Health Communication Programs Work A Planners Guide:

Making Health Communication Programs Work (rev. Ed.) Elaine Bratic Arkin, 2009-05 A revision of the original Making Health Communication Programs Work first printed in 1989 which the Nat Cancer Inst NCI developed to guide communication program planning During the 25 years that NCI has been involved in health communication ongoing evaluation of their communication programs has affirmed the value of using specific communication strategies to promote health and prevent disease Research and practice continue to expand the NCI s understanding of the principles and techniques that provide a sound foundation for successful health communication programs This revision updates communication planning guidelines to account for advances in knowledge and technology during the past decade Making Health Communication Programs Work ,1992 Discusses key principles relative to specific steps in health communications program development and includes examples of their use Covers planning and strategy selection selecting channels and materials developing materials and pretesting pretesting what it can and cannot do pretesting methods plan and conduct pretests implementing your program assessing effectiveness feedback to refine program and more Each chapter includes a 3selected readings2 section Includes information sources sample forms glossary bibliography etc Photos and drawings

Making Health Communication Programs Work National Cancer Institute (U.S.). Office of Cancer Communications, 2004

Making Health Communication Programs Work ,2001 *Making Health Communication Programs Work* ,1989

Publications List for Health Professionals National Cancer Institute (U.S.), 1989 **Publications List for Health Professionals** National Cancer Institute (U.S.). Office of Cancer Communications, 1984 *Introduction to Health Promotion* Anastasia M. Snelling, 2023-11-14 An in depth look at the theoretical foundations and practical applications of health promotion Introduction to Health Promotion gives students a working knowledge of health promotion concepts and their applications with a special emphasis on the philosophical and theoretical foundations of health promotion This new edition underscores the growing need highlighted by the COVID 19 pandemic for activities programs and policies to improve the quality of health for all Spearheaded by leading public health professor and registered dietitian Dr Anastasia Snelling this respected textbook addresses health disparities in disadvantaged communities and describes the features of the community driven programs that will be necessary to address them Unlike other books in the field Introduction to Health Promotion delves into the complex interwoven factors that influence health including social and physical environments medical advances personal lifestyle choices and legislation This in depth examination prepares and inspires health promotion students as they prepare for their careers Provides a clear introduction to the essential topics and theories in health promotion Reviews the cultural and political landscape surrounding key health behaviors including tobacco use physical activity and eating Explores current trends in health promotion including telehealth health disparities new technologies and the aging population Describes contemporary health promotion initiatives and provides an overview of health promotion

settings and career opportunities Ideal for students in health promotion health education and public health fields

Introduction to Health Promotion prepares learners with a comprehensive overview of the foundations history and current perspectives of health promotion as well as its key methods and applications Instructors will appreciate the online supplementary materials facilitating course design Technical Assistance Bulletins ,1994 *Resources in Education* ,1991 Introduction to Public Health Program Planning Joanna Hayden,2021 Program planning is integral to the practice of public health As such the intent of this text is to familiarize students preparing for careers in public health with the basics of this essential skill It is an introduction to not a compendium of all that there is on the topic With its three sections Planning Foundations Planning Basics and **Green & Tones' Health Promotion** Ruth Cross,James Woodall,2024-01-25 What to expect from the new edition Full discussion on the impacts from Covid 19 on health strategy Increased emphasis on upstream interventions rather than patient centred individualised downstream approaches Increased internationalisation more comparative examples and international perspectives prioritising northern Europe Scandinavia and the US Health promotion is being taught to an increasingly diverse range of students either because of background future career plans or the increasing international student numbers This book provides international examples applicable to a range of health professions to meet the needs of diverse cohorts The international case studies provided online also mean that international students in the UK have access to cases that can be more relevant to their own countries It can be a challenge understanding the softer side of health science particularly understanding how to think outside an individual responsibility for Health promotion public health The focus of this book is setting out the process of planning implementing and evaluating successful health programmes meaning that you are introduced to the softer side in an applied way making it easier for you to see the importance of what you are studying Effective Dissemination of Health and Clinical Information to Consumers ,1995

Hands-On Social Marketing Nedra Kline Weinreich,1999-06-14 This book demystifies the process of developing and implementing a social marketing campaign The author translates the concepts of marketing into a clear step by step process that almost anyone can follow It will be indispensable to practitioners in the fields of public health social services and health care communications **Using Social Marketing for Public Emergency Preparedness** Nancy Meyer-Emerick,2015-08-11 Less than half of the public in the U S have taken the three steps to prepare for emergencies that are recommended by FEMA and the Red Cross having a 3 day emergency kit a family communication plan and knowing where to get information during an emergency Although emergency managers attempt to train the public often they are only able to distribute brochures and make public notifications For a variety of reasons the public frequently ignores this guidance leaving people more vulnerable during emergencies This book applies the process of social marketing which has been used widely in public health and other disciplines to the lack of public preparedness Written for emergency managers in government and non profit agencies students and volunteers the book provides enough background and resources to enable

the user to carry out an effective emergency preparedness campaign in their community and maintain it over time Unlike preparing one message for everyone social marketing involves working with smaller communities to identify what and how people want to learn training them and then maintaining that relationship to insure their preparedness Because most emergency management agencies lack resources to take on such an initiative the book provides readers with low cost methods to begin a social marketing program
