Making Of A Christian Aristocracy Social:

The Making of a Christian Aristocracy Michele Renee Salzman, 2009-06-30 What did it take to cause the Roman aristocracy to turn to Christianity changing centuries old beliefs and religious traditions Salzman takes a fresh approach to this much debated question by focusing on a sampling of individual aristocratic men and women as well as on writings and archeological evidence

Simplicity and Humility in Late Antique Christian Thought Jaclyn L. Maxwell, 2021-03-25 The social values of upper class Christians in Late Antiquity often contrasted with the modest backgrounds of their religion's founders the apostles and the virtues they exemplified Drawing on examples from the Cappadocian Fathers John Chrysostom and other late antique authors this book examines attitudes toward the apostles status as manual workers and their virtues of simplicity and humility Due to the strong connection between these traits and low socioeconomic status late antique bishops often allowed their own high standing to influence how they understood these matters The virtues of simplicity and humility had been a natural fit for tentmakers and fishermen but posed a significant challenge to Christians born into the elite and trained in prestigious schools This volume examines the socioeconomic implications of Christianity in the Roman Empire by considering how the first wave of powerful upper class church leaders interpreted the socially radical elements of their religion

Continuity and Rupture in the Long Middle Ages Michael Edward Moore, 2024-08-26 The Long Middle Ages indicates a span of time extending from Antiquity across the Middle Ages to the Early Modern period The author tries to understand factors of historical continuity binding this period together and the periodic scenes of violent change that disrupted societies and traditions The Long Middle Ages were established on classical and biblical foundations while each

generation interpreted and expanded on those origins The cohesion of the Long Middle Ages was brought about by continuous acts of reflection and renaissance Scholarly practices and ideas of Antiquity were taken up in the monasteries and cathedral schools of the Middle Ages while during the Renaissance and then the Baroque period thinkers looked back to Antiquity and to the Middle Ages Continuity and Rupture in the Long Middle Ages is an interdisciplinary approach to intellectual history which puts the history of ideas in the context of cultural political religious and legal history Medieval history is the central moment while continuity and change are found in traditions extending from the Lord's Prayer AD 30 to Jean Mabillon AD 1632 1707 and onward to moderns like Ernst Cassirer and Paul Ricoeur Readers will discover new significance in historical figures like the Venerable Bede Boniface of Mainz Charlemagne and Pope Formosus in the laws of medieval kings and bishops and institutions like the monastery of Cluny These essays gathered together for the first time in this Variorum volume offer powerful new interpretations for students and researchers in the fields of medieval studies legal and literary interpretation legal history and the history of European intellectual life from ancient to modern times

Pagans and Christians in Late Antique Rome Michele Renee Salzman, Marianne Sághy, Rita Lizzi Testa, 2016 This book sheds new light on the religious and consequently social changes taking place in late antique Rome The essays in this volume argue that the once dominant notion of pagan Christian religious conflict cannot fully explain the texts and artifacts as well as the social religious and political realities of late antique Rome Together the essays demonstrate that the fourth century city was a more fluid vibrant and complex place than was previously thought Competition between diverse groups in Roman society be it pagans with Christians Christians with Christians or pagans with pagans did create tensions and hostility but it also allowed for coexistence and reduced the likelihood of overt violent physical conflict Competition and coexistence along with conflict emerge as still central paradigms for those who seek to understand the transformations of Rome from the age of Constantine through the early fifth century

From Rome to Byzantium AD 363 to 565 A. D. Lee, 2013-01-15 Between the deaths of the Emperors Julian 363 and Justinian 565 the Roman Empire underwent momentous changes Most obviously control of the west was lost to barbarian groups during the fifth century and although parts were recovered by Justinian the empire s centre of gravity shifted irrevocably to the east with its focal point now the city of Constantinople Equally important was the increasing dominance of Christianity not only in religious life but also in politics society and culture Doug Lee charts these and other significant developments which contributed to the transformation of ancient Rome and its empire into Byzantium and the early medieval west By emphasising the resilience of the east during late antiquity and the continuing vitality of urban life and the economy this volume offers an alternative perspective to the traditional paradigm of decline and fall

The Oxford Handbook of Early Christian Ritual Rikard Roitto, 2018-11-08 Scholars of religion have long assumed that ritual and belief constitute the fundamental building blocks of religious traditions and that these two components of religion are interrelated and interdependent in significant ways Generations of New Testament and Early Christian scholars have produced detailed analyses of the belief systems of nascent Christian communities including their ideological and political dimensions but have by and large ignored ritual as an important element of early Christian religion and as a factor contributing to the rise and the organization of the movement In recent years however scholars of early Christianity have begun to use ritual as an analytical tool for describing and explaining Christian origins and the early history of the movement Such a development has created a momentum toward producing a more comprehensive volume on the ritual world of Early Christianity employing advances

made in the field of ritual studies The Oxford Handbook of Early Christian Ritual gives a manifold account of the ritual world of early Christianity from the beginning of the movement up to the fifth century The volume introduces relevant theories and approaches central topics of ritual life in the cultural world of early Christianity and important Christian ritual themes and practices in emerging Christian groups and factions

Chastity Nancy van Deusen, 2008-02-28 Chastity as a topic is an ideal interdisciplinary consideration since it accesses iconographical representation the philosophical issues of purity morality and of innocence the legal issues of loss and punishment the historical issues of celibacy and the legislation that topic evoked as well as the role of chastity as a literary topos in Late Antiquity as well as the Middle Ages for example in medieval commentary traditions and within medieval vernacular literatures The topic of Chastity as well as its opposing characteristics thus provides an arena for a discussion of the transmission of Ovid and the commentaries this author provoked in the Middle Ages the interpretation of images illustrating legal texts cross cultural enquiries such as the reciprocity between Christian Muslim and Judaic interpretations of temperance continence and abstinence and the theological legal issue of God's rights in excising Adam and Eve from the Garden of Eden Contributors Nancy van Deusen Frank T Coulson Marcia L Colish Uta Renate Blumenthal Th r se Anne Druart Claudia Bornholdt Susan L Engle Cristian Gaspar and Rafael Chodos

Children and Asceticism in Late Antiquity Ville Vuolanto, 2016-03-03 In Late Antiquity the emergence of Christian asceticism challenged the traditional Greco Roman views and practices of family life The resulting discussions on the right way to live a good Christian life provide us with a variety of information on both ideological statements and living experiences of late Roman childhood This is the first book to scrutinise the interplay between family children and asceticism in the rise of Christianity Drawing on texts of Christian authors of the late fourth and early fifth centuries the volume approaches the study of family dynamics and childhood from both ideological and social historical perspectives It examines the place of children in the family in Christian ideology and explores how families in the late Roman world adapted these ideals in practice Offering fresh viewpoints to current scholarship Ville Vuolanto demonstrates that there were many continuities in Roman ways of thinking about children and despite the rise of Christianity the old traditions remained deeply embedded in the culture Moreover the discussions about family and children are shown to have been intimately linked to worries about the continuity of family lineage and of the self and to the changing understanding of what constituted a meaningful life

History and the Study of Religion Stanley Stowers, 2024 How does one understand religion Can one explain religion How does one understand the craft and discipline of the historian How can one best bring together the study of religion with the craft and discipline of the historian I am a historian who works in the study of religion and believe that the present intellectual moment offers enormous in some ways unprecedented opportunities both in the study of religion and historiography But at the same time difficulties and dangers loom together with the opportunities My specialty and prime set of examples lie in the study of ancient Mediterranean religion if indeed there is something that can rightly be called Mediterranean religion or even called religion Many specialists in the study of religion and also many of those who study ancient cultures doubt or even reject outright religion as a cross historical category on the one hand and on the other anything common about religion across the ancient Mediterranean And some cognitive scientists who against religion specialists have argued for the centrality of gods to religion then agree with the skeptics that religion is not a coherent social object a social kind I will argue that long discredited forms of anti realism and untenable anthropocentrism haunt both groups Among other areas I work in Christianity and Judaism Do they belong to Mediterranean religion One can easily see how coming to an understanding of what religion is and what Mediterranean religion is form key questions I will argue that religion is a robust realistic entity a social kind and that ancient Mediterranean religion even with all of its great diversity operated with some key common principles It is no secret that Christianity and Judaism have presented themselves as unique and essentially untouched by an inferior and degenerate religiosity that characterized everyone else in the Mediterranean History looks different when one dispenses with such normatively heavy freight and situates the two within rather than outside of Mediterranean religion

Dining at the End of Antiquity Nicholas Hudson, 2024 The history of dining is a story that cannot be told without archaeology Surviving texts tell of the opulent banquets of the wealthy elite but little attention is given to the simpler more intimate social gatherings of domestic invitation dinners This is especially true of the lower classes who are largely ignored by our sources We can however provide a voice for the underprivileged by turning to the material

detritus of ancient cultures that reflects their social history Dining at the End of Antiquity brings together the material culture and literary traditions of Romans at the table to reimagine dining culture as an integral part of Roman social order Through a careful analysis of the tools and equipment of dining Nicholas Hudson uncovers significant changes to the way different classes came together to share food and wine between the fourth and sixth centuries Reconstructing the practices of Roman dining culture Hudson explores the depths of new social distances between the powerful and the dependent at the end of antiquity

Mediterranean Families in Antiquity Sabine R. Huebner, Geoffrey Nathan, 2016-10-17 This comprehensive study of families in the Mediterranean world spans the Bronze Age through Late Antiquity and looks at families and households in various ancient societies inhabiting the regions around the Mediterranean Sea in an attempt to break down artificial boundaries between academic disciplines

Knowing God in Light Nichifor Tănase, Marius Portaru, Daniel Lemeni, The fall of Communism in Eastern Europe opened up a new future for theology too not least in Romania perhaps of all Orthodox nations the most open to the West Young Romanian Orthodox theologians seized the opportunity to study and research in the West availing themselves of mentors and resources hitherto denied them some have settled in the West others returned home This welcome volume displays a theological revival as young Romanian theologians draw on tradition and address new problems We can discern here a welcome confidence in the Orthodox tradition no longer on the defensive nor concerned to mark itself off from the theology of the West It is a generous Orthodoxy a term that has been used of the theological approach of the late Metropolitan Kallistos ready to share its treasures with other Christians and eager to learn from them and engage with them
