Making Of The Suez Canal:

The Making of the Suez Canal John Marlowe, 1964 **World Ditch** John Marlowe, 1964 The Making of the Modern Near East 1792-1923 Malcolm Yapp, 2014-01-09 This clear and authoritative text surveys the history of the region from the collapse of the Ottoman Empire to the present day It contains a general regional introduction followed by a series of country by country analyses and a section which places the Near East in the international context Professor Yapp's new edition covers recent dramatic events including the end of the Cold War the Kuwait Crisis of 1990-91 and the continuing conflict in Israel as well as assessing the huge social and economic changes in the region It will be essential reading for students and scholars concerned with modern middle eastern history and politics of the middle east **Witch Ditch** John Marlowe, 1964 Making Modernity in the Islamic Mediterranean Margaret S. Graves, Alex Dika Seggerman, 2022-04-19 The Islamic world's artistic traditions experienced profound transformation in the 19th century as rapidly developing technologies and globalizing markets ushered in drastic changes in technique style and content Despite the importance and ingenuity of these developments the 19th century remains a gap in the history of Islamic art To fill this opening in art historical scholarship Making Modernity in the Islamic Mediterranean charts transformations in image making architecture and craft production in the Islamic world from Fez to Istanbul Contributors focus on the shifting methods of production reproduction circulation and exchange artists faced as they worked in fields such as photography weaving design metalwork ceramics and even transportation Covering a range of media and a wide geographical spread Making Modernity in the Islamic Mediterranean reveals how 19th century artists in the Middle East and North Africa reckoned with new tools materials and tastes from local perspectives **The Chairman: John J McCloy & The Making of the American Establishment** Kai Bird, 2017-01-10 Exhaustively researched and remarkably evenhanded The New York Times Absorbing the definitive life story Kirkus Reviews A fascinating study Los Angeles Times In The Chairman the authoritative biography of John J McCloy Pulitzer Prize winning author Kai Bird chronicles the life of the man labeled the most influential private citizen in America Against the backgrounds of World War II the Cold War the construction of Pax Americana the Cuban missile crisis the Kennedy assassination and Vietnam Bird shows us McCloy's astonishing rise from self-described chore boy to chairman of the Establishment His powerful circle shaped the postwar globe But McCloy stood out among them as a towering figure of achievement as a Wall Street lawyer who earned the confidence of captains of industry and presidents as Henry Stimson's right hand man at the War Department as president of the World Bank and chairman of the Chase financial empire and as presidential adviser Bird captures every facet of this self-made man We see McCloy's commercial acumen as the most in demand lawyer of Wall Street his dictatorial will as high commissioner of occupied Germany and his stoic loyalty as adviser to Presidents FDR Truman Eisenhower Kennedy Johnson Carter Ford and Reagan Bird brilliantly explores how McCloy came to epitomize the American Establishment and the values of a generation that led the United States through bitter war and

unparalleled prosperity **The Great Sea** David Abulafia, 2011-06-01 Connecting Europe Asia and Africa the Mediterranean Sea has been for millennia the place where religions economies and political systems met clashed influenced and absorbed one another In this brilliant and expansive book David Abulafia offers a fresh perspective by focusing on the sea itself its practical importance for transport and sustenance its dynamic role in the rise and fall of empires and the remarkable cast of characters sailors merchants migrants pirates pilgrims who have crossed and re crossed it Ranging from prehistory to the 21st century The Great Sea is above all a history of human interaction Interweaving major political and naval developments with the ebb and flow of trade Abulafia explores how commercial competition in the Mediterranean created both rivalries and partnerships with merchants acting as intermediaries between cultures trading goods that were as exotic on one side of the sea as they were commonplace on the other He stresses the remarkable ability of Mediterranean cultures to uphold the civilizing ideal of convivencia living together Now available in paperback The Great Sea is the definitive account of perhaps the most vibrant theater of human interaction in history *Suez Canal* Valerie Bodden, 2006-07 Explores the history and construction of the Suez Canal and describes its important role in world trade and the revitalization of the area **The Making of Israel's Army** Yigal Allon, 2024-07-03 Allon recounts the growth of the Israeli army from its inception in the 1880 s when Jewish communities in Palestine formed their first small self defence groups through the Haganah s clandestine period in the 1920 s and 30 s and the fighting after 1945 when army and state together achieved legality to the Sinai Campaign of 1956 and the Six Day War in June 1967 when the army reached maturity His precise economical narrative interspersed with brief passages of analysis is supplemented by extensive documentation which is especially interesting in the way it traces the development of attitudes and doctrine in the Israeli forces The work is a valuable contribution It tells us a great deal about the organization in its various stages that fought the wars and helps explain why these assumed the forms that they did and why they succeeded a study that is more than a history of a military organization Middle Eastern Studies Allon has contributed an extended essay concerned with the Israeli Government s military philosophy policy and strategy rather than an administrative and technical history half the book contains several important reports and policy statements not easily available in English describing military actions undertaken between 1941 and 1967 Allon was an important contributor to the development of the Israeli Defense Forces a rather breathtaking sweep in which hardly a word is wasted The American Political Science Review Allon seeks to explain in concise format the development of Israel s military doctrines of defense The author was former Palmach commander one of the architects of the IDF and a commander of various military units and on several battlefronts during Israel s War of Independence Middle East Journal The development of Israel s armed forces and military doctrine in the context of that country s unique strategic needs Especially interesting are the criticisms of some of the Israeli government s decisions taken just before and during the Six Day War Foreign Affairs A n account authoritative in content modest in tone of the growth and character of the Israeli army by one of its principal creators and

leaders International Affairs Allon gives a short historical and technical account of the evolution of an Israeli fighting capability over the past 70 years The exploits of this army are significant and should be analyzed No less interesting are the book s descriptions of individual actions by participants in the first and second of Israel s wars The value of the book stems partly from a continuity of perspective on Israel s strategic problems from 1948 to August 1969 a useful book Military Affairs

US Foreign Policy Decision-Making from Truman to Kennedy A. Hybel,2014-03-12 The book has three objectives to expose students to the ways different US presidents handled major foreign policy making problems to test the explanatory value of alternative decision making models And to reintroduce students to a wide range of critical US foreign policy issues
