Making Education Work Latin American Ideas And Asian Results:

Making Education Work Cláudio de Moura Castro, Aimee E. Verdisco, 2002 *Adolescent Psychology in Today's World* Michael J. Nakkula, Andrew J. Schneider-Muñoz, 2018-11-02 This groundbreaking three volume set spotlights how conditions around the world are affecting the healthy development of adolescents in their respective environments on all six continents. Continually unstable or perpetually poor economic conditions, globalization and rapid technological change are just three of the forces affecting a group of 1.2 billion strong today, a demographic poised to become our world leaders and catalysts in the not too distant future. The world's adolescents, led by two editors who have been dedicated to studying adolescent development worldwide for decades, this novel collection of works from contributors in more than 40 countries emphasizes how possibilities for healthy mental and physical development are affected by the difficulties youths face in their countries and how these challenges have shaped and are shaping contemporary teenage life today. The set comprehensively addresses issues for adolescents across the globe such as the day to day challenges of poverty, inadequate education, violence or war, disease, reproductive matters, globalization and technological challenges and more, while also providing a strengths based focus in the volumes showing how and why some teenagers in each country have surmounted the challenges and forged stronger characters to better their worlds. These stories document more than personal victories and their experiences matter far more than the adolescents themselves. In its State of the World's Children 2011 report, UNICEF noted that the world community needs to turn its attention to adolescents in need, explaining that focusing on this large and potentially powerful group makes economic sense as well as being a necessary step in working towards achieving human justice. By addressing the risks, challenges and strengths of teenagers as a group in countries worldwide, this work serves to break the cycle of poverty, violence, discrimination and death for adolescents.

The International Handbook of Educational Research in the Asia-Pacific Region J.P. Keeves, Ryo Watanabe, 2013-11-11 The aim of the Handbook is to present readily accessible but scholarly sources of information about educational research in the Asia Pacific region. The scale and scope of the Handbook is such that the articles included in it provide substantive contributions to knowledge and understanding of education in the Asia region. In so doing, the articles present the problems and issues facing education in the region and the findings of research conducted within the region that contribute to the resolution of these problems and issues. Moreover, since new problems and issues are constantly arising, the articles in the Handbook also indicate the likely directions of future developments. The different articles within the Handbook seek to conceptualize the problems in each specific content area under review, provide an integration of the research conducted within that area, the theoretical basis of the research, the practical implications of the research and the contribution of the research towards the resolution of the problems identified. Thus, the articles do not involve the reporting of newly conducted research but rather require a synthesis of the research undertaken in a particular area with reference to the research methods employed and the theoretical frameworks on which

the research is based In general the articles do not advocate a single point of view but rather present alternative points of view and comment on the debate and disagreements associated with the conduct and findings of the research Furthermore it should be noted that the Handbook is not concerned with research methodology and only considers the methods employed in inquiry in so far as the particular methods of research contribute to the effective investigation of problems and issues that have arisen in the conduct and provision of education at different levels within the region **Lesson Study and Schools as Learning Communities** Atsushi Tsukui, Masatsugu Murase, 2018-09-21

School as Learning Community SLC or Lesson Study for Learning Community LSLC represents an approach to lesson study that emerged in Japan in the 1990s and which has been studied intensively by educators and researchers worldwide to establish democratic learning communities for teachers and students in schools The model which involves all teachers in a school observing and sharing a lesson together creates a listening pedagogy to embrace and develop diversity of learning in each teacher and student a practice that is as yet not commonly researched in Asian countries outside of Japan The book's theoretical foundation reviews existing literature on SLC and LSLC in the Japanese contexts of educational theories and practices The chapters discuss patterns of learning practices and the challenges of conducting LSLC in Japan Taiwan Korea Indonesia and Vietnam Recommendations for research and practice involving SLC LSLC are also provided in the book with a key focus on the impact of lesson study on school reform policies Comparative and International Education Kathy Bickmore, Ruth Hayhoe, Caroline Manion, Karen Mundy, Robyn Read, 2017-02-23

Despite the Odds Merilee S. Grindle, 2018-06-05 Despite the Odds poses an important question How can we account for successful policy reform initiatives when the political cards are stacked against change Theories of politics usually predict that reform initiatives will be unsuccessful when powerful groups are opposed to change and institutions are biased against it

This book however shows how the strategic choices of reform proponents alter the destinies of policy reforms by reshaping power equations and undermining institutional biases that impede change In many countries the political path to reform can be daunting Antireform interests are powerful and support for change is at best lukewarm Centrally important institutions strongly defend the policy status quo Despite these political odds reformers have seized the initiative in promoting reform weakening and marginalizing opposition groups and marshaling political patrons and networks to advance their initiatives Despite the Odds opens the black box of decision making in five initiatives designed to enhance the quality of education services in Latin America The book addresses the strategies used by reformers to manage the political process of change and those adopted by opposition groups and institutions resisting their efforts Individual chapters consider how leaders set national policy agendas for education how policy design teams created the content of reform initiatives how they dealt with the messy and public confrontations that greeted reform proposals when they were announced and the carryover of political conflict when they were implemented

Investment and Interventions to Improve the Quality of Education Systems Jin Chi, Eduardo Velez Bustillo, 2021-12-28 Quality improvement is a major current goal of Education in China and this will be achieved through overall quality improvement of the education system as a whole a situation that is also the case across the world Deploying a cost benefit analysis and multidisciplinary perspectives from education economics neurocognition gender studies child development and international development this book presents a range of critical interventions in education development and investment that have proven to be effective in many countries around the world The book draws on theoretical and practical experience in the field of education investment and analyses key issues in China's early childhood education early reading girls education brain science application in international education small scale schools in low income areas and teacher education Students and scholars of education and development and Chinese education will benefit from this title

Future Directions of Educational Change Helen Malone, Santiago Rincón-Gallardo, Kristin Kew, 2017-08-09 Future Directions of Educational Change brings together timely discussions on social justice professional capital and systems change from some of the leading scholars in the field of education Engaging in theory and evidence based debates covering issues such as literacy education whole system reform and teacher leadership this volume argues that quality and equity are equally important in reshaping existing education systems both within the United States and globally The authors offer contextual analyses of current educational research and practice while looking toward the future and offering thought provoking arguments for challenging and rectifying the systemic inequalities within education today

Handbook of Education Policy Gerard A. Postiglione, Christopher J. Johnstone, Wesley R. Teter, 2023-01-20 This insightful Handbook is an essential guide to educational policy around the world As shifting geopolitics intensified climate change and widening economic inequalities persist the need for informed educational policy is critical
