The Impossible Imperative brings to life the daily efforts of child welfare professionals working on behalf of vulnerable children and families Stories that highlight the work written by child welfare staff on the front lines speak to the competing principles that shape everyday decisions The book shows that rather than being a simple task of protecting children the field of child welfare is shaped by a series of competing ideas The text features eight principles that undergird child protection practice all of which are typically in conflict with others These principles guide practice and direct the course of policymaking but when liberated from their aspirational context and placed in the real world they are fraught with contradiction The Impossible Imperative is designed to inspire a lively debate about the fundamental nature of child welfare and about the principles that serve as the foundation for the work It can be used as a teaching tool for aspiring professionals and as motivation to those looking to social work to make a difference in the world

It brings together a broad collection of experts from across social work who trace how thinking and approaches to practice have changed over time, examine key legislative developments in the field, look at the impacts of major inquiries and consider the re-emergence of certain specialisms. Social Work and Social Problems Gerald Smale, Graham Tuson, Daphne Statham, 2000-02-18 This book describes how social work teams can respond to social problems in a way that both deals with immediate need and helps build community capacity. The authors recognise the need to respond appropriately to crisis where vulnerable children and adults are at risk but argue that an inappropriate response can compound and perpetuate people's problems. They suggest that social care organisations need to go beyond operating as aid agencies focusing on the needs of individuals and should increase their development capacity by working with other agencies and citizens to make communities more supportive and inclusive for vulnerable and excluded people.

Family Law, 1996 **Women and Social Work** Jalna Hanmer, Daphne Statham, 1999-11-11 In this second edition of a classic text, the changes in the lives of women using social services and women working in them are sensitively charted with the aim of reflecting on how non-sexist, women-centred practice can be nurtured and developed. Retaining its original emphasis on attitudes, values and the social welfare context, the text explores the core areas of poverty work including providing support for children and adults, violence and familial relationships but with a stronger emphasis on the important diversities created by age, disability and employment as well as by race, class and sexuality.
