

MAKING HISTORY

THE STRUGGLE FOR GAY
AND LESBIAN EQUAL RIGHTS

1945 ▼ 1990

AN ORAL HISTORY

ERIC MARCUS

"Making History offers us a rich personal picture of how and where both gay and straight folks have participated in the pursuit of equality for lesbians and gay rights since the 1940s. The accounts given of life's richness, coming out scenes, revealed as they are by the passage of both personal and political eras, are both inspiring and heartwarming." —Jeffrey Tambor, New York Times Book Review

Making History Struggle For Gay And Lesb

Allida Mae Black

Making History Struggle For Gay And Lesb:

Making History Eric Marcus, 2018-06-12 When *Making History* was first published in 1992 the acclaimed oral historian Studs Terkel called it One of the definitive works on gay life Novelist Armistead Maupin said that author Eric Marcus not only writes with grace and clarity but makes it look so easy the ultimate measure of historian and novelist alike Now for the first time the original complete edition of *Making History* is available in e book Through his engaging oral histories Eric Marcus traces the unfolding of LGBTQ civil rights effort from a group of small independent underground organizations and publications into a national movement covering the years from 1945 to 1990 Here are the stories of its remarkable pioneers a diverse group of nearly fifty Americans who hail from all corners of the nation From the period in history when homosexuals were routinely beaten by police to the day when gay rights leaders were first invited to the White House *Making History* is the story of an against all odds struggle that has succeeded in bringing about changes in American society that were once unimaginable

Making history Eric Marcus, 1992 *Rethinking the Gay and Lesbian Movement* Marc Stein, 2022-11-18 Now in its second edition *Rethinking the Gay and Lesbian Movement* provides an accessible overview of an important and transformational struggle for social change highlighting key individuals and events influential groups and organizations major successes and failures and the movement's lasting effects and unfinished work Focusing on four decades of social cultural and political change in the second half of the twentieth century Marc Stein examines the changing agendas beliefs strategies and vocabularies of a movement that encompassed diverse actions campaigns ideologies and organizations From the homophile activism of the 1950s and 1960s through the rise of gay liberation and lesbian feminism in the 1970s to the multicultural and AIDS activist movements of the 1980s this book provides a strong foundation for understanding gay lesbian bisexual transgender and queer politics today This new edition reflects the substantial changes in the field since the book's original publication eleven years ago *Rethinking the Gay and Lesbian Movement* will be valued by everyone interested in LGBTQ struggles the politics of movement activism and the history of social justice in the United States

Making History : the Struggle for Gay and Lesbian Equal Rights Eric Marcus, 1993 *Queering Gay and Lesbian Studies* Thomas Piontek, 2010-10-01 *Queering Gay and Lesbian Studies* is a broadly interdisciplinary study that considers a key dilemma in gay and lesbian studies through the prism of identity and its discontents the field studies has modeled itself on ethnic studies programs perhaps to be intelligible to the university community but certainly because the ethnic studies route to programs is well established Since this model requires a stable and identifiable community gay and lesbian studies have emphasized stable and knowable identities The problem of course is that sexuality is neither stable tidy nor developmental With the advent of queer theory there are now other perspectives available that frequently find themselves at odds with traditional gay and lesbian studies In this pioneering new study Thomas Piontek provides a critical analysis of the development of gay and lesbian studies alongside the development of queer theory the disputes between them and criticism of their activities

from both in and outside of the gay academic community Examining disputes about transgendering gay male promiscuity popular culture gay history political activism and non normative sexual practices Piontek argues that it is vital to queer gay and lesbian studies opening this emerging discipline to queer critical interventions without however further institutionalizing queer theory *Reader's Guide to Lesbian and Gay Studies* Timothy Murphy,2013-10-18 The Reader s Guide to Lesbian and Gay Studies surveys the field in some 470 entries on individuals Adrienne Rich arts and cultural studies Dance ethics religion and philosophical issues Monastic Traditions historical figures periods and ideas Germany between the World Wars language literature and communication British Drama law and politics Child Custody medicine and biological sciences Health and Illness and psychology social sciences and education Kinsey Report **How to Make the World a Better Place for Gays & Lesbians** Una W Fahy,2009-09-26 This book encourages readers to confront address and change anti gay prejudice on all levels of society from personal and interpersonal to collective religious and institutional Historical Dictionary of the Lesbian and Gay Liberation Movements JoAnne Myers,2013-09-19 Not so long ago hardly anything was said of the Lesbian Liberation Movement and the Gay Liberation Movement indeed the terms gay and lesbian were not even used if some other expression could be found Today by contrast hardly a day passes when something important does not occur and is carried by the major media and disseminated on more personal levels through blogs and the social media If anything there is perhaps too much news and not enough information Obviously a book like this cannot keep up with the news but it can do something equally important when it comes to information by reminding us of the past and what has been going and just how fast events are moving The Historical Dictionary of the Lesbian and Gay Liberation Movements covers the history of this movement through a cross referenced dictionary with over 1000 entries on specific countries and regions influential historical figures laws that criminalized same sex sexuality various historical terms that have been used to refer to aspects of same sex love and contemporary events and legal decisions Including a comprehensive chronology and bibliography this book is an excellent access point for students researchers and anyone interested in learning more about the struggle for equality

Encyclopedia of Lesbian and Gay Histories and Cultures Bonnie Zimmerman,George Haggerty,2021-06-13 A rich heritage that needs to be documented Beginning in 1869 when the study of homosexuality can be said to have begun with the establishment of sexology this encyclopedia offers accounts of the most important international developments in an area that now occupies a critical place in many fields of academic endeavors It covers a long history and a dynamic and ever changing present while opening up the academic profession to new scholarship and new ways of thinking A groundbreaking new approach While gays and lesbians have shared many aspects of life their histories and cultures developed in profoundly different ways To reflect this crucial fact the encyclopedia has been prepared in two separate volumes assuring that both histories receive full unbiased attention and that a broad range of human experience is covered Written for and by a widerange of people Intended as a reference for students and scholars in all fields as well as for the general public the

encyclopedia is written in user friendly language At the same time it maintains a high level of scholarship that incorporates both passion and objectivity It is written by some of the most famous names in the field as well as new scholars whose research continues to advance gender studies into the future *Lesbian and Gay Studies* Theo Sandfort, Judith Schuyf, Jan Willem Duyvendak, Jeffrey Weeks, 2000-07-19 This timely book seeks to demonstrate the coherence of lesbian and gay studies It introduces the reader to the principal inter disciplinary approaches in the field and critically assesses their strengths and weaknesses whilst asking What is lesbian and gay studies When did it emerge And what are its achievements and research agenda The gay and lesbian movement has emerged as a major political and cultural force It poses a series of far reaching questions about the organization of identity the operation of power and the limits of tolerance Lesbian and Gay Studies has emerged as a vital and enriching field It offers challenges to more traditional disciplines and requires new forms of thought about the connections between academic work and personal politics **The Gay Liberation Youth Movement in New York** Stephan Cohen, 2007-11-21 Between 1966 and 1975 North American youth activists established over 35 school and community based gay liberation youth groups whose members sought control over their own bodies education and sexual and social relations This book focuses on three groundbreaking New York City groups Gay Youth GY Street Transvestite Action Revolutionaries S T A R and the Gay International Youth Society of George Washington High School GWHS from the advent of gay liberation in NYC in 1969 to just after its dissolution and the rise of identity politics by 1975 Cohen examines how gay liberation with its rejection of stultifying sex roles attack on institutional oppression connection between personal and political liberation celebration of innate androgyny and resolute anti war and anti capitalist stance shaped understandings of sexual identity membership criteria organization decision making the roles of youth and adults and efforts to effect social change **Out in Central Pennsylvania** William Burton, 2020-06-22 Outside of major metropolitan areas the fight for lesbian gay bisexual and transgender rights has had its own unique and rich history one that is quite different from the national narrative set in New York and California Out in Central Pennsylvania highlights one facet of this lesser known but equally important story immersing readers in the LGBTQ community building and social networking that has taken place in the small cities and towns in the heart of Pennsylvania from the 1960s to the present day Drawing from oral histories and the archives of the LGBT Center of Central PA History Project this book recounts the innovative ways that LGBTQ central Pennsylvanians organized to demand civil rights and to improve their quality of life in a region that often rejected them Full of compelling stories of individuals seeking community and grappling with inequity harassment and discrimination and featuring a distinctive trove of historical photographs Out in Central Pennsylvania is a local story with national implications It brings rural and small town queer life out into the open and explores how LGBTQ identity and social advocacy networks can form outside of a large urban environment *Framing Equality* Omar G. Encarnación, 2025-05-23 The book explains why the struggle over gay marriage differed among democratic countries especially in the severity of the conservative backlash and

the legacy for LGBTQ equality Wide-Open Town Nan Alamilla Boyd,2003-05-23 Wide Open Town traces the history of gay men and lesbians in San Francisco from the turn of the century when queer bars emerged in San Francisco's tourist districts to 1965 when a raid on a drag ball changed the course of queer history Bringing to life the striking personalities and vibrant milieu that fueled this era Nan Alamilla Boyd examines the culture that developed around the bar scene and homophile activism She argues that the communities forged inside bars and taverns functioned politically and ultimately offered practical and ideological responses to the policing of San Francisco's queer and transgender communities Using police and court records oral histories tourist literature and manuscript collections from local and state archives Nan Alamilla Boyd explains the phenomenal growth of San Francisco as a wide open town a town where anything goes She also relates the early history of the gay and lesbian civil rights movement that took place in San Francisco prior to 1965 Wide Open Town argues that police persecution forged debates about rights and justice that transformed San Francisco's queer communities into the identity based groups we see today In its vivid re-creation of bar and drag life its absorbing portrait of central figures in the communities and its provocative chronicling of this period in the country's most transgressive city Wide Open Town offers a fascinating and lively new chapter of American queer history **A History of Hope** NA NA,2016-09-27 This book chronicles American history through the stories of the individuals and movements that dreamed of a better future and then took action to make that dream a reality arguing that the much heralded American spirit was not born as a gift of our founding but was forged through our adversity and triumphs From colonial revolutionaries to abolitionists labor organizers to suffragists progressives to civil rights activists it was individuals and movements who dared to go against the American majority that both guarded and created our best national self *Lesbian, Gay, and Bisexual Identities over the Lifespan* Anthony R. D'Augelli,Charlotte J. Patterson,1995-02-09 Over the last fifteen years psychological research regarding sexual orientation has seen explosive growth In this book Anthony R D Augelli and Charlotte J Patterson bring together top experts to offer a comprehensive overview of what we have discovered and what we still need to learn about lesbian gay and bisexual identities Writing in clear nontechnical language the contributors cover a range of topics including conceptions of sexual identity development over the lifespan family and other personal relationships parenting and bigotry and discrimination *Lesbian Gay and Bisexual Identities Over the Lifespan* is essential reading for researchers students social scientists mental health practitioners and general readers who seek the most up to date and authoritative treatment of the subject available *The Politics of Gay Rights* Craig A. Rimmerman,Kenneth D. Wald,Clyde Wilcox,2000-07 The contributors to this volume thoroughly investigate the politics of the gay and lesbian movement beginning with its political organizations and tactics The essays also address the strategies and ideology of conservative opposition groups *Who's Who in Contemporary Gay and Lesbian History* Robert Aldrich,Garry Wotherspoon,2020-10-28 First published in 2004 With subjects drawn from politics the arts and popular culture *Who's Who in Contemporary Gay Lesbian History* includes 500 entries from a large team of expert

international contributors The geographical scope takes in the whole of the Western world Includes fascinating information about little known figures as well as cult icons from World War II to the present day Queerying Planning Petra L. Doan, 2016-05-23 Current planning practices have largely neglected the needs of the Lesbian Gay Bisexual and Transgender LGBT community for safe urban spaces in which to live work and play This volume fills the gap in the literature on the planning and development of queer spaces and highlights some of the resistance within the planning profession to incorporate gay and lesbian concerns into the planning mainstream Planning lags behind other disciplines concerned with queer urban issues In contrast the field of geography has developed a rich sub specialty in the geographies of sex and gender that examines spaces and the variety of non heteronormative populations that inhabit them This volume brings together both planners and geographers with experience in planning to examine some of the fundamental assumptions of urban planning as they relate to the LGBT community The first few chapters are substantial revisions and expansions of earlier influential work on planning for non conformist populations and the preservation of LGBT neighborhoods Subsequent chapters comprise original contributions that draw on the rich literature from queer theory planning theory and the geography of sexualities to explore the ways that nonconformist populations struggle with heteronormative expectations embedded in planning theory and procedures These chapters consider the intersection of planning and a range of populations including transgendered and gender variant individuals Subsequent chapters examine the ways that variations in the scale of urban and regional governance influence local politics around the implementation of more equitable policies at the city level In addition several chapters critically examine the implications of using the tolerance component of Richard Florida's creative cities arguments The final section consists of two chapters that explore the ways that urban planning regimes have been used to regulate sexually oriented businesses and the way this regulation of sexualized spaces has implications on the heteronormativity of plans and planners In summary these chapters interrogate planning practice and pose questions for academic and professional planners about the ways that the queer community and its needs for spaces have shifted What do those changes mean for the practice of planning 40 years after the North American Stonewall rebellion and looking forward to the next 40 years To what extent does existing planning practice constrain the evolution of queer communities or seek to commercialize such spaces to the benefit of large developers and the detriment of marginalized members of the community How might planning practice change to provide more direct support to the evolution of queer people and the spaces in which they live This volume draws on these insights as well as the experiences of the various authors to lay out possible future directions for the field of planning to create truly inclusive urban areas **Modern American Queer History** Allida Mae Black, 2001 In the twentieth century countless Americans claimed gay lesbian bisexual and transgender identities forming a movement to secure social as well as political equality This collection of essays considers the history as well as the historiography of the queer identities and struggles that developed in the United States in the midst of widespread upheaval and change Whether

the subject is an individual life story a community study or an aspect of public policy these essays illuminate the ways in which individuals in various locales understood the nature of their desires and the possibilities of resisting dominant views of normality and deviance Theoretically informed but accessible the essays shed light too on the difficulties of writing history when documentary evidence is sparse or coded Taken together these essays suggest that while some individuals and social networks might never emerge from the shadows the persistent exploration of the past for their traces is an integral part of the on going struggle for queer rights

Whispering the Secrets of Language: An Mental Journey through **Making History Struggle For Gay And Lesb**

In a digitally-driven earth wherever monitors reign supreme and immediate conversation drowns out the subtleties of language, the profound strategies and mental nuances concealed within phrases usually get unheard. Yet, situated within the pages of **Making History Struggle For Gay And Lesb** a charming fictional value blinking with raw emotions, lies an extraordinary journey waiting to be undertaken.
