Making Of Ireland:

The Making of Ireland and Its Undoing, 1200-1600 Alice Stopford Green, 1908 **The Making of Ireland** James F. Lydon, 1998 Making Ireland British 1580-1650 Nicholas Canny, 2001-05-03 This is the first comprehensive study of all the plantations that were attempted in Ireland during the years 1580 1650 It examines the arguments advanced by successive political figures for a plantation policy and the responses which this policy elicited from different segments of the population in Ireland The book opens with an analysis of the complete works of Edmund Spenser who was the most articulate ideologue for plantation The author argues that all subsequent advocates of plantation ranging from King James VI and I to Strafford to Oliver Cromwell were guided by Spenser's opinions and that discrepancies between plantation in theory and practice were measured against this yardstick The book culminates with a close analysis of the 1641 insurrection throughout Ireland which it is argued steered Cromwell to engage in one last effort to make Ireland British *Making Ireland Irish* Eric G. E. Zuelow, 2009-03-01 From the dark shadow of civil war to the pastel painted towns of today Making Ireland Irish provides a sweeping account of the evolution of the Irish tourist industry over the twentieth century Drawing on an extensive array of previously untapped or underused sources Eric G E Zuelow examines how a small group of tourism advocates inspired by tourist development movements in countries such as France and Spain worked tirelessly to convince their Irish compatriots that tourism was the secret to Ireland's success Over time tourism went from being a national joke to a national interest Men and women from across Irish society joined in eager to help shape their country and culture for visitors eyes The result was Ireland as it is depicted today a land of blue skies smiling faces pastel towns natural beauty ancient history and timeless traditions With lucid prose and vivid detail Zuelow explains how careful planning transformed Irish towns and villages from grey and unattractive to bright and inviting sanitized Irish history to avoid offending Ireland's largest tourist market the English and supplanted traditional rural fairs revolving around muddy animals and featuring sexually suggestive ceremonies with new family friendly festivals and events filling today's tourist calendar By challenging existing notions that the Irish tourist product is either timeless or the consequence of colonialism Zuelow demonstrates that the development of tourist imagery and Irish national identity was not the result of a handful of elites or a postcolonial legacy but rather the product of an extended discussion that ultimately involved a broad cross section of society both inside and outside Ireland Tourism he argues played a vital role in making Ireland Irish The Making of Ireland and Its Undoing, 1200-1600 Alice Stopford Green, 2015-11-17 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no

Making Empire Jane Ohlmeyer,2023-10-10 Ireland was England s oldest colony Making Empire revisits the history of empire in Ireland in a time of Brexit the culture wars and the campaigns around Black Lives Matter and Statues must fall to better understand how it has formed the present and how it might shape the future Empire and imperial frameworks policies practices and cultures have shaped the history of the world for the last two millennia It is nation states that are the blip on the historical horizon Making Empire re examines empire as process and Ireland s role in it through the lens of early modernity It covers the two hundred years between the mid sixteenth century and the mid eighteenth century that equate roughly to the timespan of the First English Empire c 1550 c 1770s Ireland was England s oldest colony How then did the English empire actually function in early modern Ireland and how did this change over time What did access to European empires mean for people living in Ireland This book answers these questions by interrogating four interconnected themes First that Ireland formed an integral part of the English imperial system Second that the Irish operated as agents of empire s Third Ireland served as laboratory in and for the English empire Finally it examines the

impact that empire s had on people living in early modern Ireland Even though the book s focus will be on Ireland and the English empire the Irish were trans imperial and engaged with all of the early modern imperial powers It is therefore critical where possible and appropriate to look to other European and global empires for meaningful comparisons and connections in this era of expansionism What becomes clear is that colonisation was not a single occurrence but an iterative and durable process that impacted different parts of Ireland at different times and in different ways That imperialism was about the exercise of power violence coercion and expropriation Strategies about how best to turn conquest into profit to mobilise and control Ireland s natural resources especially land and labour varied but the reality of everyday life did not change and provoked a wide variety of responses ranging from acceptance and assimilation to resistance This book based on the 2021 James Ford Lectures Oxford University suggests that the moment has come revisit the history of empire if only to better understand how it has formed the present and how this might shape the future

1603-1923 J.C. Beckett, 2011-11-03 Technically this book is a masterly achievement the collection sorting selecting and balancing of material has meant an immense amount of hard and highly skilful work The presentation is not only learned but cool objective unimpassioned and yet almost always alive and compassionate as well As a reference book alone it is immensely valuable As an example of a humane scholarly expert history Professor Beckett s book will be difficult to surpass D B Quinn Belfast Telegraph He has brilliantly succeeded The book is admirably constructed and written with clarity and economy which carry the narrative unflaggingly through to the end This excellent book supersedes all previous histories of modern Ireland F S L Lyons New Statesman

The Irish Story : Telling Tales and Making It Up in Ireland Oxford R. F. Foster Professor of Irish History and a Fellow Hertford College, 2002-09-06 Roy Foster is one of the leaders of the iconoclastic generation of Irish historians In this opinionated entertaining book he examines how the Irish have written understood used and misused their history over the past century Foster argues that over the centuries Irish experience itself has been turned into story He examines how and why the key moments of Ireland s past the 1798 Rising the Famine the Celtic Revival Easter 1916 the Troubles have been worked into narratives drawing on Ireland s powerful oral culture on elements of myth folklore ghost stories and romance The result of this constant reinterpretation is a shifting Story of Ireland complete with plot drama suspense and revelation Varied surprising and funny the interlinked essays in *The Irish Story* examine the stories that people tell each other in Ireland and why Foster provides an unsparing view of the way Irish history is manipulated for political ends and that Irish poverty and oppression is sentimentalized and packaged He offers incisive readings of writers from Standish O Grady to Trollope and Bowen dissects the Irish government s commemoration of the 1798 uprising and bitingly critiques the

memoirs of Gerry Adams and Frank McCourt Fittingly as the acclaimed biographer of Yeats Foster explores the poet's complex understanding of the Irish story the mystery play of devils and angels which we call our national history and warns of the dangers of turning Ireland into a historical theme park The Irish Story will be hailed by some attacked by others but for all who care about Irish history and literature it will be essential reading **Ireland** Thomas Bartlett,2010-06-03

Ireland has been shaped by centuries of emigration as millions escaped poverty famine religious persecution and war But what happens when we reconsider this well worn history by exploring the ways Ireland has also been shaped by immigration From slave markets in Viking Dublin to social media use by modern asylum seekers *Migration and the Making of Ireland* identifies the political religious and cultural factors that have influenced immigration to Ireland over the span of four centuries A senior scholar of migration and social policy Bryan Fanning offers a rich understanding of the lived experiences of immigrants Using firsthand accounts of those who navigate citizenship entitlements gender rights and religious and cultural differences in Ireland Fanning reveals a key yet understudied aspect of Irish history Engaging and eloquent *Migration and the Making of Ireland* provides long overdue consideration to those who made new lives in Ireland even as they made Ireland new *The Making of Ireland and Its Undoing, 1200-1600* Green Alice Stopford 1848-1929,HardPress,2013-01

This Handbook brings together leading historians of the events surrounding the English revolution exploring how the events of the revolution grew out of and resonated in the politics and interactions of the each of the Three Kingdoms England Scotland and Ireland It captures a shared British and Irish history comparing the significance of events and outcomes across the Three Kingdoms In doing so the Handbook offers a broader context for the history of the Scottish Covenanters the Irish Rising of 1641 and the government of Confederate Ireland as well as the British and Irish perspective on the English civil wars the English revolution the Regicide and Cromwellian period The Oxford Handbook of the English Revolution explores the significance of these events on a much broader front than conventional studies The events are approached not simply as political economic and social crises but as challenges to the predominant forms of religious and

political thought social relations and standard forms of cultural expression The contributors provide up to date analysis of the political happenings considering the structures of social and political life that shaped and were re shaped by the crisis The Handbook goes on to explore the long term legacies of the crisis in the Three Kingdoms and their impact in a wider European context *Historical Dictionary of Ireland* Frank A. Biletz,2013-11-14 All places undergo change but in few has this change been quite as sweeping as Ireland both the independent Republic of Ireland and dependent Northern Ireland so it is good to see where it is heading at present Obviously that has to be judged on the background of where it is coming from not only over the past decade or so but over centuries and indeed millennia This new edition of Historical Dictionary of Ireland is an excellent resource for discovering the history of Ireland This is done through a chronology an introductory essay and an extensive bibliography The cross referenced dictionary section has over 600 entries on significant persons places and events political parties and institutions including the Catholic church with period forays into literature music and the arts This book is an excellent resource for students researchers and anyone wanting to know more about Ireland **A History of Women in Ireland, 1500-1800** Mary O'Dowd,2016-02-17 The first general survey of the history of women in early modern Ireland Based on an impressive range of source material it presents the results of original research into women s lives and experiences in Ireland from 1500 to 1800 This was a time of considerable change in Ireland as English colonisation religious reform and urbanisation transformed society on the island Gaelic society based on dynastic lordships and Brehon Law gave way to an anglicised and centralised form of government and an English legal system
