Making Images Move Gregory Zinman, 2020-01-03 *Making Images Move* reveals a new history of cinema by uncovering its connections to other media and art forms. In this richly illustrated volume, Gregory Zinman explores how moving image artists who worked in experimental film pushed the medium toward abstraction through a number of unconventional filmmaking practices, including painting and scratching directly on the film strip, deteriorating film with water, dirt, and bleach, and applying materials such as paper and glue. This book provides a comprehensive history of this tradition of handmade cinema from the early twentieth century to the present, opening up new conversations about the production, meaning, and significance of the moving image. From painted film to kinetic art and from psychedelic light shows to video synthesis, Gregory Zinman recovers the range of forms, tools, and intentions that make up cinema's shadow history, deepening awareness of the intersection of art and media in the twentieth century and anticipating what is to come. **Making**

Pictures Without Paint Harry Helfman, 1975 Instructions for projects using the techniques of collage, mosaic, appliqué, stitchery, rubbing, and others. *Make It Last* Jeff Lovingood, 2014-02-27 Author and pastor Jeff Lovingood believes to be successful in youth ministry, pastors need to embrace and understand certain enduring principles that will strengthen and carry them through the tough times when they are tempted to give up. *Make It Last* outlines these values and provides practical guidelines to encourage youth workers to reflect on why they are called to the ministry. An invaluable resource for anyone working with students in the church, *Make It Last* tackles important issues such as: Establishing a vision for youth ministry; Creating a culture that balances evangelism and discipleship; Building effective relationships with students and other ministries; Celebrating what God has done. Man Ray Jennifer Mundy, 2016-03-01 Man Ray, 1890-1976, was a pioneer of the Dada movement in the United States and France and a central protagonist of Surrealism. Today he is one of the best-known American artists of the twentieth century, celebrated above all for his innovative and often seductively glamorous photography. Surprisingly, given Man Ray's key role in the history of early twentieth-century Modernism, a comprehensive collection of his writings on art has not been published in English until now. *Man Ray Writings on Art* fills a conspicuous gap in scholarship on the artist and his period. It brings together his most significant writings, many of them published here for the first time. These occasionally quixotic texts, which include artist books, essays, interviews, letters, and visual poems, reveal the incredible scale of the artist's output and the remarkable continuity of his aesthetic and political beliefs. This volume

offers a long overdue vision of Man Ray as someone who used words both as a creative medium and as a means of articulating ideas about the nature and value of art With richly reproduced illustrations it provides powerful insight not only to scholars of art history and academics but also to working artists and those who count themselves as Man Ray fans
