**Moving Mountains** Leon Howard Sullivan, 1998 From a beginning engulfed in poverty to the boardroom of General Motors Corporation Leon Sullivan founded the Opportunities Industrialization Centers OIC s creating jobs for over a million people These are his words in a story of incredible perseverance faith and belief

**The Social Life of DNA** Alondra Nelson, 2016-09-20 The unexpected story of how genetic testing is affecting race in America We know DNA is a master key that unlocks medical and forensic secrets but its genealogical life is both revelatory and endlessly fascinating Tracing genealogy is now the second most popular hobby amongst Americans as well as the second most visited online category This billion dollar industry has spawned popular television shows websites and Internet communities and a booming heritage tourism circuit The tsunami of interest in genetic ancestry tracing from the African American community has been especially overwhelming In *The Social Life of DNA* Alondra Nelson takes us on an unprecedented journey into how the double helix has wound its way into the heart of the most urgent contemporary social issues around race For over a decade Nelson has deeply studied this phenomenon Artfully weaving together keenly observed interactions with root seekers alongside illuminating historical details and revealing personal narrative she shows that genetic genealogy is a new tool for addressing old and enduring issues In *The Social Life of DNA* she explains how these cutting edge DNA based techniques are being used in myriad ways including grappling with the unfinished business of slavery to foster reconciliation to establish ties with African ancestral homelands to rethink and sometimes alter citizenship and to make legal claims for slavery reparations specifically based on ancestry Nelson incisively shows that DNA is a portal to the past that yields insight for the present and future shining a light on social traumas and historical injustices that still resonate today Science can be a crucial ally to activism to spur social change and transform twenty first century racial politics But Nelson warns her readers to be discerning for the social repair we seek can t be found in even the most sophisticated science Engrossing and highly original *The Social Life of DNA* is a must read for anyone interested in race science history and how our reckoning with the past may help us to chart a more just course for tomorrow

**The Ghetto in Global History** Wendy Z. Goldman, Joe William Trotter, Jr., 2017-11-27 *The Ghetto in Global History* explores the stubborn tenacity of the ghetto over time As a concept policy and experience the ghetto has served to maintain social religious and racial hierarchies over the past five centuries Transnational in scope this book allows readers to draw thought provoking comparisons across time and space among ghettos that are not usually studied alongside one another The volume is structured around four main case studies covering the first ghettos created for Jews in early modern Europe the Nazis use of ghettos the enclosure of African Americans in segregated areas in the United States and the extreme segregation of blacks in South Africa The contributors explore issues of discourse power and control examine the internal structures of authority that prevailed and document the lived experiences of ghetto inhabitants By discussing ghettos as both tools of control and as sites of resistance this book offers an unprecedented and fascinating range

of interpretations of the meanings of the ghetto throughout history It allows us to trace the circulation of the idea and practice over time and across continents revealing new linkages between widely disparate settings Geographically and chronologically wide ranging *The Ghetto in Global History* will prove indispensable reading for all those interested in the history of spatial segregation power dynamics and racial and religious relations across the globe **Legitimacy in**

**International Law** Rüdiger Wolfrum, Volker Röben, 2008-02-26 In recent years the question of the legitimacy of international law has been discussed quite intensively Such questions are for example whether international law lacks legitimacy in general whether international law or a part of it has yielded to the facts of power whether adherence to international legal commitments should be subordinated to self defined national interests whether international law or particular rules of it such as the prohibition of the use of armed force have lost their ability to induce compliance compliance pull and what is the relevance of non enforcement or failure to obey for the legitimacy of that particular international norm This book contains fresh perspectives on these questions offered at an international and interdisciplinary conference hosted by the Max Planck Institute for Comparative Law and International Law **International Law and International Relations** Thomas J.

Biersteker, Peter J. Spiro, Chandra Lekha Sriram, Veronica I. Raffo, 2006-10-19 This unique volume examines the opportunities for and initiates work in interdisciplinary research between the fields of international law and international relations disciplines that have engaged little with one another since the Second World War Written by leading experts in the fields of international law and international relations it argues that such interdisciplinary research is central to the creation of a knowledge base among IR scholars and lawyers for the effective analysis and governance of macro and micro phenomena International law is at the heart of international relations but due to challenges of codification and enforceability its apparent impact has been predominantly limited to commercial and civil arrangements International lawyers have been saying for years that law matters in international affairs and now current events are proving them right International Law and International Relations makes a powerful contribution to the theory and practice of global security by initiating a research agenda building an empirical base and offering a multidisciplinary approach that provides concrete answers to real world problems of governance This book will be of great interest to all students of international law international relations and governance *A Darkly Radiant Vision* Gary Dorrien, 2023-01-01 The third and final volume in the first comprehensive

history of Black social Christianity by the greatest theological ethicist of the twenty first century Michael Eric Dyson The Black social gospel is a tradition of unsurpassed and ongoing importance in American life argues Gary Dorrien in his groundbreaking trilogy on the history of Black social Christianity This concluding volume an interpretation of the tradition since the early 1970s follows Dorrien's award winning *The New Abolition* W E B Du Bois and the Black Social Gospel and *Breaking White Supremacy* Martin Luther King Jr and the Black Social Gospel Beginning in the shadow of Martin Luther King Jr Dorrien examines the past fifty years of this intellectual and activist tradition interpreting its politics theology ethics

social criticism and social justice organizing He argues that Black social Christianity is today an intersectional tradition of discourse and activist religion that interrelates liberation theology womanist theology antiracist politics LGBTQ theory cultural criticism progressive religion broad based interfaith organizing and global solidarity politics A Darkly Radiant Vision features in depth discussions of Andrew Young Jesse Jackson Samuel DeWitt Proctor Gayraud Wilmore James Cone Cornel West Katie Geneva Cannon Stacey Floyd Thomas Traci Blackmon William J Barber II Raphael G Warnock and many others

Pursuing Justice Ralph A. Weisheit, Frank Morn, 2014-07-07 Pursuing Justice Second Edition examines the issue of justice by considering the origins of the idea formal systems of justice current global issues of justice and ways in which justice might be achieved by individuals organizations and the global community Part 1 demonstrates how the idea of justice has emerged over time starting with religion and philosophy then moving to the justice as a concern of the state and finally to the concept of social justice Part 2 outlines the very different mechanisms used by various nations for achieving state justice including systems based on common law civil law and Islamic law with a separate discussion of the US justice system Part 3 focuses on four contemporary issues of justice war genocide slavery and the environment Finally Part 4 shows how individuals and organizations can go about pursuing justice and describes the rise of global justice This updated timely book helps students understand the complexities and nuances of a society's pursuit of justice It provides students with the foundations of global justice systems integrating Greek philosophies and major religious perspectives into a justice perspective and contributes to undergraduate understanding of international justice bodies NGOs and institutions New edition is completely updated and revised to achieve relevance for today's students Covers concepts of justice as well as ideas for pursuing and achieving justice Examines how our modern laws began and traces their evolution to today's laws Presents concepts and issues in justice studies as well as a comparison of several systems of law Teaching resources include discussion questions and real world examples
