Mental Health, Intellectual and Developmental Disabilities and the Ageing Process Vee P. Prasher, Philip W. Davidson, Flavia H. Santos, 2020-12-22 This book brings together findings from research and clinical practice with comprehensive coverage of the important aspects of mental health in ageing persons with intellectual and developmental disabilities It is crucial for professionals involved in the care of persons with all intellectual and developmental disabilities to have a broad understanding of the essential range of issues and therefore this book provides a truly multi disciplinary perspective complete with many figures and illustrations to underline the key points Undoubtedly research and clinical practice are much more advanced in the general ageing population than in persons with intellectual and developmental disabilities and so professionals and academics must be made fully aware of commonalities and idiosyncrasies of older people with intellectual and developmental disabilities This book presents the ongoing developments concerning mental health and aging which will become relevant to the intellectually disabled population Through experience this book also acknowledges that the impact on the persons themselves and on their carers always needs to be taken into account with treatment programs established with a multi faceted team approach in mind Avoiding the jargon of many titles in this area while maintaining the hands on approach of clinical practice this book meshes the practical and scientific worlds with all chapters written by leading experts in the field Beyond the US the IASSIDD support expands the book message worldwide Adult Lives Katz, Jeanne, Peace, Sheila, Sheila M. Drawing from academic personal and clinical perspectives the chapters address topics stemming from how the ageing with disability experience is framed the heterogeneity of the population ageing with disability and the disability experience issues of social exclusion health and wellness frailty later life and policy contexts for ageing with disability in various countries Responding to the need to increase access to knowledge in this field the Handbook provides guideposts for researchers practitioners and policy makers about what matters in providing services developing programmes and implementing policies that support persons ageing with long term disabilities and their families *Ageing with a Lifelong Disability* Christine Bigby,2004 This guide provides specialist knowledge about ageing with a disability in the context of the more mainstream knowledge about ageing processes Dr Bigby uses the concept of successful ageing as a framework in which to consider the issues and practicalities for older people with a pre existing disability *Social Work Practice and Intellectual Disability* Christine Bigby,Patsie Frawley,2018-06-26 Read this book to gain an understanding of the knowledge values and skills required for effective practice in the field of intellectual disability and the opportunities which this work offers for multidisciplinary collaboration for social change *Social Work Practice and Intellectual Disability* identifies and discusses The changing definitions of intellectual disability also called learning disability The theory and practice of working with people with intellectual disabilities and their families The core tasks of assessment planning monitoring and review The values of participation and inclusion in action Illustrated with numerous case studies discussion points and clear explanations this addition to the Practical Social Work Series is an indispensable resource It is ideally suited both for the continued professional development of qualified practitioners and for pre qualifying students new to the area *Choice, Preference, and Disability* Roger J.
