Mozart Wind and String Concertos Alec Hyatt King, 1978 Mozart wrote his first concerto at the age of ten and completed his last a few weeks before his death In the intervening twenty five years he composed over fifty concertos for various instruments The most numerous are of course those for the piano which are the subject of a separate BBC Music Guide by Philip Radcliffe This volume is dedicated to Mozart's other concertos those for wind and stringed instruments masterpieces such as the powerful Sinfonia Concertante in E flat and the lyrical Clarinet Concerto or the Flute Concerto in G and the last two Horn Concertos all perfect of their kind

Mozart Wind & String Concertos Alec Hyatt King, 1986 An excellent series of music guides formerly known as the BBC Music Guides This much praised series gives an overall view of the subject showing how particular works came to be written their significance in the general history of the genre and how the form was developed by the composer There are detailed examinations of important works or movements with musical examples Highly recommended for GCSE and A level students

Mozart's Piano Concertos C. M. Girdlestone, 2013-01-04 This early work on Mozart's Piano Concertos is both expensive and hard to find in its first edition It contains analyses of the themes and structure of some of Mozart's greatest piano compositions This is a fascinating work and thoroughly recommended for anyone interested in music theory Many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce We are republishing these classic works in affordable high quality modern editions using the original text and artwork

Mozart's Piano Concertos John Irving, 2017-07-05 Mozart's piano concertos stand alongside his operas and symphonies as his most frequently performed and best loved music They have attracted the attention of generations of musicologists who have explored their manifold meanings from a variety of viewpoints In this study John Irving brings together the various strands of scholarship surrounding Mozart's concertos including analytical approaches aspects of performance practice and issues of compositional genesis based on investigation of manuscript and early printed editions Treating the concertos collectively as a repertoire rather than as individual works the first section of the book tackles broad thematic issues such as the role of the piano concerto in Mozart's quasi freelance life in late eighteenth century Vienna the origin of his concertos in earlier traditions of concerto writing eighteenth century theoretical frameworks for the understanding of movement forms subsequent historical shifts in the perception of the concerto's form listening strategies and performance practices This is followed by a documentary register which proceeds through all 23 original works drawing together information on the source materials Accounts of the concertos compositional genesis early performance history and reception are also included here drawing extensively on the Mozart family correspondence and other contemporary reports Drawing together and synthesizing this

Mozart's Piano Concertos Marius Flothuis,2021-11-22 Mozart's Piano Concertos especially those composed during the years 1784-91 are still held in high esteem two centuries later by both amateur music lovers and professional musicians Strangely enough only very few comprehensive studies exist on this remarkable section of Mozart's output The present study first published in German in a slightly abridged form deals with Mozart's evolution as a composer of piano concertos sheds light on the connections between the concertos and other fields of creative activity as well as on those with other composers of his time Finally attention is paid to problems of performance practice The author born in 1914 emeritus professor of Utrecht University and former chairman of the Zentralinstitut f r Mozart Forschung Salzburg has been involved with the subject of Mozart's concertos for about 60 years The Concerto Stephan D. Lindeman,2006 Twelve tone and serial music were dominant forms of composition following World War II and remained so at least through the mid 1970s In 1961 Ann Phillips Basart published the pioneering bibliographic work in the field
