Death and Dying John F. Szabo, 2009-11-02 While it can be traced to the 1700s the term thanatology has gained traction in recent decades to refer to the study of death. Because of the breadth of the published material and the challenges of discovery in large bibliographic databases and catalogs finding and identifying monographic material on death dying grief and bereavement can be extremely challenging. Although there have been several bibliographical resources published on thanatology those titles were incomplete limited in scope or leaned heavily toward one area of the field.

In *Death and Dying: An Annotated Bibliography of the Thanatological Literature* John F. Szabo provides more than 2,200 citations of monographs on the science and study of death and dying. Among the areas this volume addresses are the psychological philosophical and attitudinal aspects coping and dealing with the burdens of caregiving and working in the helping professions instructional and educational topics for practitioners primarily health care providers cultural differences in bereavement rituals and grief mourning and loss. In addition notable titles on or relating to death and dying in popular culture death themes in literature methods of death or specific ethical policy or public issues are also included when they contribute important information to subject areas on which the book focuses. This book will be helpful to students researchers academics caregivers health care professionals psychologists social workers and anyone with an interest in death dying bereavement or the care of the terminally ill.

New Religions and the Theological Imagination in America Mary Farrell Bednarowski, 1989-11-22 Bednarowski is especially good at elucidating the theological daring of these new American religions. She demonstrates in a very few pages how theology and group adherence made the individual count a configuration simultaneously American un-American and important. Jon Butler: The cultural confrontation with these new religions is very real and usually very misinformed. Bednarowski has gone to great lengths to dispel the ignorance.

The Christian Century A groundbreaking study. *Syzygy Journal of Alternative Religion and Culture* Organized as a series of theological conversations about ultimate questions this book offers a guide to the answers these six religions offer. Drawing heavily on sources from the movements themselves it presents a balanced comparative account of the emerging theological systems of America's new religions.

The Zen of Living and Dying Philip Kapleau, 1998-04-14 To live life fully and die serenely surely we all share these goals so inextricably entwined. Yet a spiritual dimension is too often lacking in the attitudes circumstances and rites of death in modern society. Kapleau explores the subject of death and dying on a deeply personal level interweaving the writings of Western religions with insights from his own Zen practice and offers

practical advice for the dying and their families Paranormal Experience and Survival of Death Carl B. Becker,1993-01-01 This text amasses data and surveys from a century of research on the paranormal on four continents Europe Asia and the Americas Studying the tensions between religious and scientific perspectives the author reviews numerous substantiated accounts of demon possession of memories of past lives of ghostly apparitions and out of body experiences He analyzes the medical evidence and what such experiences imply about survival after death The author then looks at the reasons for the taboos on scientific discussion of such research within the social sciences and proposes a new paradigm for a more holistic view of the field **Making Sense of Your World** W.
