Other Peoples Rules:

New Perspectives on the Divide Between National and International Law André Nollkaemper, Janne Elisabeth Nijman, 2007 This book analyses one of the most pressing issues of modern international law the relationship between the international legal order and the domestic legal orders of sovereign states It contains different perspectives on the legal complexity that results from the interactions between the international and domestic spheres **The Object of Literature** Pierre Macherey, 1995-03-16 This 1995 book by Pierre Macherey was his first dealing with literature and theory since his seminal *A Theory of Literary Production* Continuing the project of Althusserian theory Macherey engages in a series of close exegeses of classical texts in French literature and philosophy from the late eighteenth century down to the 1970s that explore the historically variable but thematically similar ways in which literary texts represent philosophical ideas Rejecting the simple notion that literature deploys philosophical topoi in an unmediated manner Macherey shows the conceptual sophistication and broad intellectual influence that literary art has displayed in the modern period At once a theoretical meditation of great originality and a historical work of scrupulous scholarship *The Object of Literature* will entrench Pierre Macherey's already considerable reputation as one of the most significant contemporary theoreticians of literature

International Law and its Others Anne Orford, 2006-11-02 Institutional and political developments since the end of the Cold War have led to a revival of public interest in and anxiety about international law Liberal international law is appealed to as offering a means of constraining power and as representing universal values This book brings together scholars who draw on jurisprudence philosophy legal history and political theory to analyse the stakes of this turn towards international law Contributors explore the history of relations between international law and those it defines as other other traditions other logics other forces and other groups They explore the archive of international law as a record of attempts by scholars bureaucrats decision makers and legal professionals to think about what happens to law at the limits of modern political organisation The result is a rich array of responses to the question of what it means to speak and write about international law in our time ?????? ?????? Michael Carasik, 2015-04-01 For the first time *Miqra ot Gedolot* is available in an accessible English edition First published 500 years ago as the Rabbinic Bible the biblical commentaries known as the *Miqra ot Gedolot* have inspired and educated generations of Hebrew readers With this edition the voices of Rashi Ibn Ezra Nahmanides Rashbam and other medieval commentators come alive once more speaking in a contemporary English translation annotated and explicated for lay readers Each page of *The Commentators Bible* contains several Hebrew verses from the book of Exodus surrounded by both the 1917 and 1985 JPS translations and new English translations of the major commentators This large format volume is beautifully designed for ease of navigation among the many elements on each page including explanatory notes and selected additional comments from the works of Bekhor Shor Hizkuni Abarbanel Sforno Gersonides and others Publisher **EU Law** Gerard Conway, 2015-07-03 *EU Law* provides a comprehensive examination of

the law of the European Union in two distinct parts covering the institutions structure and processes of the EU as well as the substantive law as enacted by the Lisbon Treaty Beginning by examining its origins Conway locates EU Law within both an international and a domestic legal context He then explores the evolution of EU Law before providing a clear and accessible account of the structure and internal and international workings of the EU and the special role of the European Court of Justice The second half of the book explores the Four Freedoms of Goods Workers Capital and Movement and provides a detailed account of Competition Law and the Economic and Social contexts The Routledge Spotlights series brings a modern contemporary approach to the core curriculum for the LLB and GDL which will help students Move beyond an understanding of the law Refine and develop the key skills of problem solving evaluation and critical reasoning which are essential to exam success Discover sources and suggestions for taking your study further By focusing on recent case law and real world examples Routledge Spotlights will help you shed light on the law understand how it operates in practice and gain a unique appreciation of the contemporary context of the subject Companion Website This book is supported by a range of online resources developed to support your learning keep you up to date and to help you prepare for assessments including Key Case Flashcards to aid with recall Quizzes and practice questions Rise of the International Richard Devetak, Tim Dunne, Timothy Dunne, 2024 International Relations and History were once academic fields sharing a common concern with the affairs of empires states and nations Over the course of the twentieth century however they drifted apart International Relations largely retained the focus on the affairs and relations of these principal international actors but took a methodological turn leading to higher levels of theoretical abstraction History on the other hand retained the methods that define the discipline but shifted the focus veering away from matters of state to the vast array of actors events activities and issues that colour everyday life In recent years the drift has been arrested by scholars in each discipline who have turned towards the other discipline in their research International Relations has undergone a historiographical turn while History has taken an international turn Rise of the International brings together scholars of International Relations and History to capture the emergence and development of the thought the relations and the systems that have come to be called international in western discourse The evidence offered by contributors to the volume suggests there has been no single stable unchanging concept or object of theoretical reflection or historical investigation that can be called the international but a variety of historically contingent conceptualizations across different contexts Ramseyer Rule Print of the Mutual Security Act of 1958. 85-2 United States. Congress. House. Foreign Affairs, 1958 **The Oxford Handbook of Comparative Law** Mathias Reimann, Reinhard Zimmermann, 2019-03-26 This fully revised and updated second edition of The Oxford Handbook of Comparative Law provides a wide ranging and diverse critical survey of comparative law at the beginning of the twenty first century It summarizes and evaluates a discipline that is time honoured but not easily understood in all its dimensions In the current era of globalization this discipline is more relevant than ever both on the

academic and on the practical level The Handbook is divided into three main sections Section I surveys how comparative law has developed and where it stands today in various parts of the world This includes not only traditional model jurisdictions such as France Germany and the United States but also other regions like Eastern Europe East Asia and Latin America Section II then discusses the major approaches to comparative law its methods goals and its relationship with other fields such as legal history economics and linguistics Finally section III deals with the status of comparative studies in over a dozen subject matter areas including the major categories of private economic public and criminal law The Handbook contains forty eight chapters written by experts from around the world The aim of each chapter is to provide an accessible original and critical account of the current state of comparative law in its respective area which will help to shape the agenda in the years to come Each chapter also includes a short bibliography referencing the definitive works in the field
