Our Most Skillful Architect Richard Taliaferro Associated Colonial Virginia Constructions:

"Our Most Skillful Architect" Claude O. Lanciano, 1981 Richard Taliaferro 1705 1779 was born in Virginia to Francis and Elizabeth Taliaferro He married Elizabeth Eggleston ca 1736 and they had two children Richard has long been a figure of architectural interest from the colonial period of Williamsburg Virginia

The Fabulous History of the Dismal Swamp Company Charles Royster, 1999 In this absorbing narrative Charles Royster traces the rise and fall of the eighteenth century transatlantic culture that was built on the insatiable demand in Europe for Virginia tobacco and the equally insatiable American demand for European manufactured goods Moving from the plantations of Virginia and Antigua to the warehouses of London and Glasgow from the Gold Coast of Africa to the valleys of the Allegheny Mountains from the iron furnaces of southern Wales to the subscribers room of Lloyd s of London Professor Royster gives us the story of the Dismal Swamp Company a fantastically delusional enterprise that proposed draining and developing a vast morass along the Virginia North Carolina border Examining the interconnected lives of the company s partners Royster reveals a colonial order built on a system of cronyism conspicuous consumption and debt that seems hauntingly familiar He writes about the many schemers and dreamers including George Washington Robert King Carter two William Byrds Patrick Henry Thomas Jefferson and Robert Morris who failed to amass their desired fortunes and a few realists Samuel Gist Dr Thomas Walker and Anthony Bacon who succeeded but at the dire expense of others And we see the breakdown of this culture and the transition to a more democratic though similar system after the Revolution Throughout Royster s narrative we see possessors possessed by their possessions slaveholders possessed by slavery and heirs possessed by litigation Connecting all their stories are their unceasing efforts to make something substantial out of the insubstantial chief among them the almost unbelievable delusion that fortunes could be made from the Dismal Swamp

"True Worth is Highly Shown in Liveing Well" Barbara Burlison Mooney, 1991

The Buildings of Peter Harrison John Fitzhugh Millar, 2014-10-02 Perhaps the most important architect ever to have worked in America Peter Harrison s renown suffers from the destruction of most of his papers when he died in 1775 He was born in Yorkshire England in 1716 and trained to be an architect as a teenager He also became a ship captain and soon sailed to ports in America where he began designing some of the most iconic buildings of the continent In a clandestine operation he procured the plans for the French Canadian fortress of Louisbourg enabling Massachusetts Governor William Shirley to capture it in 1745 This setback forced the French to halt their operation to capture all of British America and to give up British territory they had captured in India As a result he was rewarded with commissions to design important buildings in Britain and in nearly all British colonies around the world and he became the first person ever to have designed buildings on six continents He designed mostly in a neo Palladian style and invented a way of building wooden structures so as to look like carved stone wooden rustication He also designed some of America s most valuable furniture including inventing the coveted block front and introducing the bombe motif In America he lived in Newport Rhode Island

and in New Haven Connecticut where he died at the beginning of the War of Independence **Publishers Directory** ,1994
