Cooper, James G. Cibulka, Lance D. Fusarelli, 2008-06-30 Written by a mix of established and rising stars in school politics policy law finance and reform this comprehensive Handbook provides a three part framework that helps organize this relatively new and loosely organized field of study A central theme running through the book is how to harness politics to school equity and improvement Key features include Thematic Discussions detailed discussions of key topics in educational politics are organized by themes and competing perspectives The overarching themes are 1 the goals of the U S political system justice equity opportunity efficiency and choice 2 the means and resources for reaching these goals and 3 the political behaviors and compromises that seek to mitigate ideological differences and conflicts of interest Research Oriented in addition to summarizing the latest research connected to key topics each chapter exemplifies and reports on the methods and techniques for further exploration of these topics Reform Oriented throughout the book and especially in the summarizing chapter authors provide suggestions for improving the political behaviors of key educational groups and individuals unions superintendents politicians school boards teachers and parents      **The Politics of School Integration** Robert Crain, 2017-07-05 This book discusses desegregation as a community decision focusing on case studies from the 1960s Crain uses comparative techniques based on fifteen northern and southern cities The author seeks a total explanation for the decision to desegregate by determining its proximate causes and locating the roots of the decision in the economic social and political structure of the community This work represents the first attempt to conduct a genuinely scientific analysis of the political process by which school systems were desegregated in this period Robert L Crain documents the way in which eight non southern big city school systems met community demands to reduce segregation Reactions varied from immediate compliance to months and years of stubborn resistance some cities maintaining good relations with civil rights leaders and others becoming battlegrounds Differences in these reactions are explained and focus is brought to desegregation in the South New Orleans in particular The situation there is contrasted with six peacefully desegregated southern cities as well as the attitude of its powerful economic elite The concluding part of the book is a general consideration of the civil rights movement in the cities studied and the author considers the implications of his findings both for the future of school desegregation and for studies of community politics Employing comparative techniques and concentrating upon the outputs of political systems this is a highly innovative contribution to the study of community power structures and their relationship to educational systems It remains an effective supplement to courses in sociology political science and education as well as an important source of data for everyone concerned with the history of efforts for national integration      *Detroit and the New Political Economy of Integration in Public Education* Curtis L. Ivery, Joshua A. Bassett, 2022-09-10 This edited volume

analyzes a little known but important juncture in the history of racial integration and public education during the Obama administration through the advent of the Trump administration which also marks a significant transition of US racial politics and race relations from its foundations in civil rights movements of the 1950s 60s Focusing on the City of Detroit which via the historic Supreme Court case *Milliken v Bradley* stands as the central site of analysis for these broader national dynamics of race education and integration what we term as a new political economy of integration this volume offers a multidisciplinary perspective on the critical role integration must play in the project of America becoming a multiracial democracy as US populations continue to grow more diverse and will soon transform the nation into a multiracial majority for the first time in its history

**Politics and Policy in North Carolina** Thad L. Beyle, Merle Black, 1975 [Resources in Education](#), 1998-12 **Desegregating Private Higher Education in the South** Melissa Kean, 2008-10-15 This book examines the influences on the racial policies of the elite private universities in the South in the wake of World War II As pressure to abandon segregation in higher education grew the presidents and trustees of these institutions struggled with both outsiders and with each other to maintain their traditional leadership role in southern society while also joining the national mainstream By the early 1960s realizing finally that they could not have both they grudgingly opened admissions to black students and thereby gave themselves a chance at national eminence

**Readings on Equal Education**, 1985 *The Oxford Handbook of Law and Politics* Keith E. Whittington, R. Daniel Kelemen, Gregory A. Caldeira, 2010-06-11 The study of law and politics is one of the foundation stones of the discipline of political science and it has been one of the most productive areas of cross fertilization between the various subfields of political science and between political science and other cognate disciplines This Handbook provides a comprehensive survey of the field of law and politics in all its diversity ranging from such traditional subjects as theories of jurisprudence constitutionalism judicial politics and law and society to such re emerging subjects as comparative judicial politics international law and democratization The Oxford Handbook of Law and Politics gathers together leading scholars in the field to assess key literatures shaping the discipline today and to help set the direction of research in the decade ahead

**Urban Policy** Dennis J. Palumbo, George Albert Taylor, 1979 **Handbook on Contemporary Education** Steven E. Goodman, 1976 **Research in Education**, 1974 *Race and the Origins of American Neoliberalism* Randolph Hohle, 2015-06-12 Why did the United States forsake its support for public works projects public schools public spaces and high corporate taxes for the neoliberal project that uses the state to benefit businesses at the expense of citizens The short answer to this question is race This book argues that the white response to the black civil rights movement in the 1950s 60s and early 70s inadvertently created the conditions for emergence of American neoliberalism Neoliberalism is the result of an unlikely alliance of an elite liberal business class and local segregationists that sought to preserve white privilege in the civil rights era The white response drew from a language of neoliberalism as they turned inward to redefine what it meant to be a good white citizen The language of neoliberalism

depoliticized class tensions by getting whites to identify as white first and as part of a social class second This book explores the four pillars of neoliberal policy austerity privatization deregulation and tax cuts and explains how race created the pretext for the activation of neoliberal policy Neoliberalism is not about free markets It is about controlling the state to protect elite white economic privileges     National Union Catalog ,1968     **Structuring Inequality** Tracy L. Steffes,2024-04-02 How inequality was forged fought over and forgotten through public policy in metropolitan Chicago As in many American metropolitan areas inequality in Chicagoland is visible in its neighborhoods These inequalities are not inevitable however They have been constructed and deepened by public policies around housing schooling taxation and local governance including hidden state government policies In *Structuring Inequality* historian Tracy L Steffes shows how metropolitan inequality in Chicagoland was structured contested and naturalized over time even as reformers tried to change it through school desegregation affordable housing and property tax reform While these efforts had modest successes in the city and the suburbs reformers faced significant resistance and counter mobilization from affluent suburbanites real estate developers and other defenders of the status quo who defended inequality and reshaped the policy conversation about it Grounded in comprehensive archival research and policy analysis *Structuring Inequality* examines the history of Chicagoland s established systems of inequality and provides perspective on the inequality we live with today     Records and Briefs of the United States Supreme Court ,1832     **Congressional Record** United States.
