Politics Of Steel:

The Politics of Steel Yves Meny, Vincent Wright, Martin Rhodes, 2012-02-14 No detailed description available for The Politics of Steel *The Politics of Steel* Keith Ovenden, 1979-01-01 *Political Economy of Steel Development in Nigeria* Daniel A. Omoweh, 2005 This is a critical comparative analysis of the origin nature problems and prospects of steel development and industrialisation in Nigeria and South Korea Focusing on the steel sector this ground breaking book examines the interplay among the state local capital transnational corporations the World Bank and IMF The book examines how all these factors have come to shape the content and direction of steel development in these two countries **Politics vs Economics in World Steel Trade** Kent Jones, 2017-10-10 There can be few industries which have generated as much political controversy as the world steel industry Since 1968 the trade policies of both the US and the EEC have created a vicious circle of protectionism and delayed adjustment in their steel industries In particular protectionist policies by one government have tended to lead directly to rebound protectionist policies by the other This book first published in 1986 begins by tracing the historical roots of steel protectionism and describes the changing competitive structure of the world steel market which has led to increased government involvement in the traditional steel making countries as they became vulnerable to imports from the newly industrialised countries The most distinctive feature of the book is its economic analysis of a policy crisis a crisis whose inner dynamics work against a viable solution Politics and Rhetoric of Italian State Steel Privatisation Edoardo Mollona, Luca Pareschi, 2022-05-17 The globally spreading privatisation wave that occurred in the 1990s deeply changed the structure of economic institutions worldwide This turmoil overturned not only economic institutions but shared cultural and societal institutions as well This book is the result of an investigation into the history of the privatisation of the steel industry in Italy completed between 1994 and 1995 It explores the history of the Italian steel industry by looking at the interplay of local intertwined interests political relations and ideological formations that characterised an idiosyncratic hegemonic historical bloc Rather than stigmatising this pattern as the legacy of a dysfunctional provincialism the authors mobilise Gramsci's theory of hegemony to explain how the Italian privatisation process unfolded to accommodate economic pressures political interests and ideological constraints of a hegemonic social group or aggregation of social groups Thus in reconstructing the privatisation of Italian steel this book proposes a hegemony theory of privatisation and more generally describes a model that explains how political and cultural dynamics give rise to idiosyncratic local variations in globally spreading policies It will be of interest to researchers academics and students in the fields of business history economics sociology and political science **The Politics of steel**, 1987 *Steel And The State* Thomas R Howell, William A Noellert, Jesse G Kreier, Alan Wm Wolff, 2019-06-21 The problems of the U S steel industry have been a source of public controversy for over twenty years The industry has grown substantially smaller since the 1960s and hundreds of thousands of steelworkers have lost their jobs Some steel firms and many steel mills have shut down entirely

profoundly affecting regional economies based on steel and its related industries An industrial transformation of this magnitude has inevitably given rise to efforts to identify its underlying causes This book is a contribution to that effort

David Steel David Torrance,2012-09-18 Michael Foot was speaking affectionately when in 1979 he quipped that David Steel had apparently gone from rising hope to elder statesman without any intervening period whatsoever But the remark also neatly captured a career which had seen the Boy David enter the House of Commons aged only twenty six become leader of the Liberal Party in 1976 at thirty eight years old one of the youngest party leaders in British history and then within months of his election lead his party into a controversial Lib Lab Pact with James Callaghan s Labour government Taking the lead in demanding cooperation with the new Social Democratic Party Steel helped the Alliance poll an unprecedented share of the vote for a third party in the 1983 election Alongside David Owen of the SDP he fought another memorable election four years later as one of the two Davids and later became the major force behind the troubled birth of the Liberal Democrat Party Based on extensive interviews and fresh archival research this biography with which Steel has cooperated charts both the rising hope and elder statesman phases in Steel s career as well as his role as the first Presiding Officer of the Scottish Parliament and his political legacy in light of the post 2010 Conservative Liberal Democrat coalition **The Politics of**

Plant Closings John Portz,1990 A paper reprint of the 1988 original It is a political history that describes and analyzes the management of organized knowledge Wheatley takes Flexner and the Carnegie Foundation of 1910 as the model Portz political science Northeastern U combines a synthesis of the literature on urban politics and political economy with a close analysis of plant closings in Pittsburgh Pennsylvania Louisville Kentucky and Waterloo Iowa to illuminate the complexity of constraints upon and range of local government efforts to control the economic damage caused by shutdowns Paper edition unseen 12 95 Annotation copyrighted by Book News Inc Portland OR **The Political Economy of American Trade**

Policy Anne O. Krueger,2007-12-01 Exploring the political and economic determinants of trade protection this study provides a wealth of information on key American industries and documents the process of seeking and conferring protection Eight analytical histories of the automobile steel semiconductor lumber wheat and textile and apparel industries demonstrate that trade barriers rarely have unequivocal benefits and may be counterproductive They show that criteria for awarding protection do not take into account the interests of consumers or other industries and that political influence and an organized lobby are major sources of protection Based on these findings a final essay suggests that current policy fails to consider adequately economic efficiency the public good and indirect negative effects This volume will interest scholars in economics business and public policy who deal with trade issues Cross-Party Politics in Britain, 1945-2019 Alan Wager,2024-01-21 British politics has long been conceived of as fundamentally a majoritarian two party game The coalition government and years of politicians working across party lines on Brexit were both thought of as deviations from the norm Yet since the Second World War and the new party system that came with it this kind of co operation between parties has

been mooted more often than folk memory would suggest From Winston Churchill to Nick Clegg Tony Blair to Nigel Farage elite British politicians have privately and publicly toyed with the concept of co operating with their competitors Cross Party Politics in Britain 1945 2019 takes a historical comparative look at seven such cases from the last 80 years By retracing tales of failure as well as success this book examines moments overlooked by historians of contemporary Britain and most are examined through the lens of political science for the first time Piecing together internal papers and memos from the archives as well as interviews with many of the key players this book explores two questions Why are politicians so often swimming against the tide when trying to co operate with their competitors even when it appears rational to do so And despite the challenges imposed by the Westminster Model what is it that motivates those that try The answers to these questions put recent developments in British politics in historical perspective and provide clues as to what might happen when the idea of co operation rears its head once again as the next general election approaches *The Steel and Metal*

The Heath Government 1970-74 Stuart Ball, A. Seldon, 2014-01-14 Only now is it possible to see Edward Heath's controversial administration 1970-1974 in balanced historical perspective and increasingly it seems a turning point for postwar Britain This timely volume explores the agenda of the Heath government in all its aspects including economy industrial relations social policy immigration Northern Ireland British entry into Europe and foreign relations assesses how far it achieved its aims and examines the response to them The book is based upon much new research including the archives of the Conservative Party and the TUC and interviews with many of those involved at the heart of government The result will be essential reading for anyone interested in modern British history politics and government Contributors include PAUL ARTHUR LEWIS BASTON VERNON BOGDANOR ALEC CAIRNCROSS CHRISTOPHER HILL DENNIS KAVANAGH ZIG LAYTON HENRY CHRISTOPHER LORD RODNEY LOWE JOHN RAMSDEN ROBERT TAYLOR KEVIN THEAKSTON JOHN YOUNG Politics and the Steel Industry: Post-1950 Trevor Boyns, 1997 **Canadian Manufacturer**, 1913 The Department of State Bulletin, 1984 **Privileging Industry** Fiona McGillivray, 2018-06-26 Why do some industries win substantial protection from the whims of international trade while others do not Privileging Industry challenges standard approaches to this question in its examination of when governments use trade and industrial policy for political goals Fiona McGillivray shows why aiding an industry can be a politically efficient way for a government to redistribute resources from one industrial sector to another Taking a comparative perspective that stands in contrast with the usual focus on U S trade politics she explores for example how electoral rules party strength and industrial geography affect redistribution politics across countries How do political institutions and the geographical dispersion of industries interact to determine which industries governments privilege What tests can assess how governments distribute assistance across industries Research has focused on the industries that legislators want to protect but just as important is identifying those legislators able to

deliver trade assistance Assisting an industry requires both a will and a means Whether an industry is a good vehicle through which to redistribute income depends on its geographic make up and the country s electoral system In turn the electoral system and party strength affect how legislators preferences contribute to policy McGillivray tests these arguments using a tariff based empirical test and nonstandard dependent variables such as the dispersion of stock prices within fourteen different capital markets and government influence in the targeting of plant closures within declining industries An Economic History of the American Steel Industry Robert P. Rogers,2009-03-30 This book provides a basic outline of the history of the American steel industry a sector of the economy that has been an important part of the industrial system The book starts with the 1830 s when the American iron and steel industry resembled the traditional iron producing sector that had existed in the old world for centuries and it ends in 2001 The product of this industry steel is an alloy of iron and carbon that has become the most used metal in the world The very size of the steel industry and its position in the modern economy give it an unusual relevance to the economic social and political system *The Saturday Review of Politics, Literature, Science and Art* ,1904
