Presenttense Poets Of The World:

Present/tense Mark Pawlak, Robert Hershon, Ron Schreiber, Dick Lourie, 2004 Poetry Hard hitting anthology of political poems edited by Mark Pawlak Contributors include Jack Agueros Sherman Alexie Donna Brook Hayan Charara Jayne Cortez Mart n Espada Ed Friedman Joanna Fuhrman Kimiko Hahn Joy Harjo Robert Hershon Anselm Hollo Hettie Jones Dick Lourie Ken Mikolowski Harryette Mullen D Nurkse Ron Overton Maureen Owen Mark Pawlak Adrienne Rich Ron Schreiber Harvey Shapiro M L Smoker Quincy Troupe Janine Pommy Vega Chuck Wachtel and Bill Zavatsky We have always depended on the work of poets to speak more beautifully more powerfully than anyone else on behalf of peace and justice PRESENT TENSE is a wonderful collection of poetry that fulfills that promise In its pages we find poets who move us profoundly and lift our spirits Howard Zinn Behind the Lines Philip Metres, 2007-05 Whether Thersites in Homer s Iliad Wilfred Owen in Dulce et Decorum Est or Allen Ginsberg in Wichita Vortex Sutra poets have long given solitary voice against the brutality of war The hasty cancellation of the 2003 White House symposium Poetry and the American Voice in the face of protests by Sam Hamill and other invited guests against the coming shock and awe campaign in Iraq reminded us that poetry and poets still have the power to challenge the powerful Behind the Lines investigates American war resistance poetry from the Second World War through the Iraq wars Rather than simply chronicling the genre Philip Metres argues that this poetry gets to the heart of who is authorized to speak about war and how it can be represented As such he explores a largely neglected area of scholarship the poet s relationship to dissenting political movements and the nation In his elegant study Metres examines the ways in which war resistance is registered not only in terms of its content but also at the level of the lyric He proposes that protest poetry constitutes a subgenre that by virtue of its preoccupation with politics history and trauma probes the limits of American lyric poetry Thus war resistance poetry and the role of what Shelley calls unacknowledged legislators is a crucial though largely unexamined body of writing that stands at the center of dissident political movements *Poetry Against the World* Magdalena Kay, 2018-10-31 Poetry Against the World Philip Larkin and Charles Tomlinson in Contemporary Britain brings together two major poets who espouse opposite aesthetic ambitions yet are both taken as paragons of Englishness in order to ask how they pitch their poetry against an inhospitable world This book explores how these two representative poets seek to redress an age of demolition through their poetry and how their audiences react to the types of redress they propose

Poetry Of The Second World War Desmond Graham, 2011-05-31 Poetry of the Second World War brings to light a neglected chapter in world literature In its chorus of haunting poetic voices over a hundred of the most articulate minds of their generation record the true experience of the 1939 45 conflict and its unending consequences In keeping with its subject it has an international scope with poems from over twenty countries including Japan Australia Europe America and Russia poems in which human responses echo each other across boundaries of culture and state Auden Brecht Stevie Smith Primo Levi Zbigniew Herbert and Anna Akhmatova are set alongside the eloquence of unknown poets The anthology has been

arranged to bring out the chronological and cumulative human experience of the war pre war fears air raids the boredom fear and camaraderie of military life battle occupation and resistance surviving and the aftermath Here at last are the poems of the Holocaust the Blitz Hiroshima of soldiers refugees and disrupted lives What emerges is a poetry capable of conveying the vast and terrible sweep of war *Movements in Chicano Poetry* Rafael Pérez-Torres,1995-01-27 Studies the central concerns addressed by recent Chicano poetry *Multimodality, Poetry and Poetics* Richard Andrews,2018-04-27 This groundbreaking work takes multimodality studies in a new direction by applying multimodal approaches to the study of poetry and poetics The book examines poetry's visual and formal dimensions applying framing theory to such case studies as Aristotle's Poetics and Robert Lowell's The Heavenly Rain to demonstrate both the implied due to the form's unique relationship with structure imagery and rhythm and explicit forms of multimodality at work an otherwise little explored research strand of multimodality studies The volume explores the theoretical implications of a multimodal approach to poetry and poetics to other art forms and fields of study making this essential reading for students and scholars working at the intersection of language and communication including multimodality discourse analysis and interdisciplinary literary studies
