**Radical Christian Writings** Andrew Bradstock, Christopher Rowland, 2008-04-15 This volume which fills a gap in the current literature will be essential reading for third year undergraduates and above in Biblical studies Faith-based Radicalism Christiane Timmerman, 2007 Terror attacks against Western symbols of power suicide terrorism in Chechnya or bombing of abortion clinics in the United States these are a few of the violent religious outbursts that the media never seem to stop broadcasting While these outbursts are mostly linked to Islamic extremism it should however be acknowledged that every religion has its own violent side Despite all the events the media are too prompt to show us it would be dishonest and insensible not to accept that every religion has also a potential for religious peace building and communal renewal How can it be explained then that religions sometimes react violently against the society surrounding them by trying to overthrow it while at some other times they willingly help and try to build a better world for everyone The University Centre Saint Ignatius Antwerp organised an interdisciplinary summer seminar in September 2005 and gathered senior scholars all experts in their own fields and junior scholars who will be the experts of tomorrow from all over the world to discuss these burning issues The seminar focused on miscellaneous topics all pointing towards the question of religion and society like literalism and the Holy texts the ambivalence of faith based radicalism the psychology of religion and terrorism nationalism and religion and religious social movements Publisher *A Theology of Community Organizing* Chris Shannahan, 2013-11-12 The rising importance of community organizing in the US and more recently in Britain has coincided with the developing significance of social movements and identity politics debates about citizenship social capital civil society and religion in the public sphere At a time when participation in formal political process and membership of faith groups have both declined dramatically community organizing has provided a new opportunity for small community groups marginalized urban communities and people of faith to engage in effective political action through the developments of inter faith and cross cultural coalitions of groups In spite of its renewed popularity little critical attention has been paid to community organizing This book places community organizing within debates about the role of religion in the public sphere and the rise of public theology in recent years The book explores the history methodology and achievements of community organizing engaging in a series of conversations with key community organizers in the US and Britain This volume breaks new ground by beginning to articulate a cross cultural and inter faith Theology for Community Organizing that arises from fresh readings of Liberation Theology **Theological Reflection: Methods, 2nd Edition** Elaine Graham, Heather Walton, Frances Ward, 2019-02-27 Theological Reflections Methods offers a comprehensive collection of models of theological reflection By bringing this diverse collection together in one place the editors create a unique reference work that allows a clear and visible contrast and comparison as each model is treated formally and in a standard format Throughout each chapter the distinguishing features of the model are examined the geneology and origins are discussed worked examples of the model applied to contemporary

theology are provided and critical commentary future trends and exercises and questions are provided Now firmly established as an essential text on theological reflection this new edition has been revised and updated with a new introduction updated examples and refreshed bibliographies

David F. Ford, Graham Stanton, 2004 Eighteen leading scripture scholars and theologians engage with key issues and texts to do with scripture and theology They look at how the Bible and theology have come together in the past in Judaism the early Church the Middle Ages early modernity and the 20th century How is current biblical scholarship to be related to past insights and modern methods Contributors debate how wisdom is to be related to faith and to reason      **Voices from the Borderland**

Chris Shannahan, 2016-04-01 Urban theology affirms the importance of context notably the place of the city in theological reflection However it has often been confined to particular contexts or theological camps and thus failed to engage with the fluidity of contemporary urban societies Voices from the Borderland presents an overview of urban theology arguing that the twenty first century demands a dialogical model of theology that enacts progressive change The volume draws on studies of the multicultural and multi faith British urban experience and situates these within the wider international context The works of influential theologians in the field are examined and the dialogue between theology globalisation post colonialism postmodernism and post religious urban culture critically explored The volume is unique in bringing together urban liberation theology urban black theology reformist urban theology globalisation urban theology and post religious urban theology      **A Theology of International Development** Thia Cooper, 2020-02-05 Religion and development have been intertwined since development s beginnings yet faith based aid and development agencies consistently fail to consider how their theology and practice intersect This book offers a Christian theology of development with practical solutions to bridge the gap and return to truly faith based policies and practices Development aims to raise the living standard of the world s poor mainly through small scale projects that increase economic growth A theology of liberation provided a critique to development practice but a specific theology of development is still lacking and many faith based aid agencies have failed to adapt their practice In applying theological thinking to development the author argues that aid agencies need to address the entrenchment of unequal power relations and embrace a holistic notion of development defined by the needs of those most marginalized instead of by a focus on economic growth Development organisations need to consider the distinction between charity and justice and to empower people in the Global South paying particular attention to the intersections of race class sexuality religion and the environment Overall this book is a powerful call to upend development practice as it currently exists and to return faith based organizations to following Christian practices It will be an important read for religion and development researchers practitioners and students      **Encyclopedia of New Religious**

**Movements** Peter Clarke, 2004-03-01 New Religious Movements NRMs can involve vast numbers of followers and in many cases are radically changing the way people understand and practice religion and spirituality Moreover many are having a profound impact on the form and content of mainstream religion The Encyclopedia of New Religious Movements provides uniquely global coverage of the phenomenon with entries on over three hundred movement from almost every country in the world Coverage includes movements that derive from the major religions of the world and to neo traditional movements movements often overlooked in the study of NRMs In addition to the coverage of particular movements there are also entries on topics themes key thinkers and key ideas for example the New Age Movement Neo Paganism New Religion and gender NRMs and cyberspace NRMs and the law the Anti Cult Movement Swedenborg Jung Teilhard de Chardin Lovelock Gurdjieff al Banna Qutb The marked global approach and comprehensiveness of the encyclopedia enable an appreciation of the innovative energy of NRMs of their extraordinary diversity and the often surprising ways in which they can propagate geographically The most ambitious publication of its sort the Encyclopedia of New Religious Movements is a major addition to the reference literature for students and researchers of the field in religious studies and the social sciences Entries are cross referenced with short bibliographies for further reading There is a full index

**Post-Colonial Theology** Robert S. Heaney, 2019-05-08 Hate is unveiled on our streets Politics is polarized and the cohesion of communities is under stress and threat Religious and theological leaders appear compromised or paralyzed Robert S Heaney grew up in a Northern Ireland where enmity paraded itself and policed the boundaries between segregated identities and aspirations Such conflict with deep historic roots is inextricably linked to religion and colonization The theologizing of colonialism and the ongoing implications of colonialism cannot be ignored by those who wish to understand the most intractable of human conflicts Religious adherents and scholars are increasingly seeking to understand colonialism and decolonization in theological terms The field of post colonial studies across a range of contexts and in a complex network of inter disciplinary analyses has emerged as a major scholarly movement seeking to provide resources for such a task Theologians have increasingly seen the field as a resource and have made their own contributions to its development However depending as it does on a series of theoretical and technical commitments post colonialism remains inaccessible to the uninitiated Beginning with his own particular context of formation in this book Heaney provides an accessible introduction to post colonial theology

**Public Life and the Place of the Church** Michael Brierley, 2017-11-28 The work of Richard Harries Bishop of Oxford from 1987 to 2006 has been highly distinctive for the consistency of its engagement with contemporary society It represents a model of the Church which is outward looking a Church which is as ready to learn from others as it is to offer its own wisdom and resources This book reflects on Richard Harries ministry in the borderlands of society and Church and engages deeply with the nature of modern society and the place of the Church within it Taking Richard Harries contributions as their inspiration key figures each of them major commentators on areas of pressing contemporary concern probe the important questions which people are asking about a range of social issues Arms and violence the role of the media in public life spirituality multifaith Britain sex capitalism the second chamber and medical ethics are all discussed building up a serious debate on the kind of society in which we live and making suggestive comments about the part which the Church might play Contributors Sabina Alkire Michael Bourke Melvyn Bragg John Drury Claire Foster Jonathan Gorsky Anthony Howard Douglas Hurd Eric James Julia Neuberger Edmund Newell Christopher Rowland Jane Shaw Margaret Shepherd Roger Wagner Keith Ward Rowan Williams Shirley Williams and James Woodward

**Orthodoxy and Anarchism** Davor Džalto, 2024-03-26 This book brings together essays by contemporary Orthodox theologians and scholars on Orthodox Christianity that analyze various aspects of the complex relationship between anarchism both as a concept and as a political philosophy and Orthodoxy As many studies have already shown the dominant theological approaches in Orthodox political theology have been characterized by the search for some kind of symphonia where a harmonious and mutually beneficial cooperation between the Church and the State has been sought Although one can see many alternative attempts in contemporary Orthodox political theology to move away from traditional monarchical and autocratic symphonic models the fact remains that most of those approaches still tend to provide theological articulations that rationalize and ultimately defend the dominant ideological systems such as those of the nation state or liberal democracy for instance There has been however another marginal and marginalized tradition in Orthodox Christian political theology which can be labelled as anarchist The purpose of this volume is to gather contemporary voices in

and on Orthodox theology that explore this tradition in the history of Orthodox Christianity or that themselves employ an anarchist approach to the socio political sphere including the Church in its institutional functioning      **The Blackwell Companion to Political Theology** Peter Manley Scott, William T. Cavanaugh, 2008-04-15 Written by a team of international experts drawn from various traditions of political theology this outstanding resource brings together 35 newly commissioned essays in the field Demonstrates that Christian theology is inherently political and shows how theology impacts on present day political issues Considers the interface of theology with political ideologies including the contribution of theology to feminist ecological black and pacifist movements Assesses the contribution of the major political theologians and theological movements Explores the political aspects of Christian sources such as scripture and liturgy      **That Holy Anarchist** Mark Van Steenwyk, Ched Myers, 2012-06-25 In *That Holy Anarchist* Mark Van Steenwyk explores the relationship between Christianity and anarchism The name of Jesus is invoked by those in power as well as those resisting that power What were the politics of Jesus and how can they continue to inform us as we struggle for justice      [The Oxford History of Protestant Dissenting Traditions, Volume V](#) Mark P. Hutchinson, Mark Hutchinson, 2018 Volume V extends the study of the Oxford History of Dissenting Protestant Traditions series into the twentieth century following the spatial cultural and intellectual changes in dissenting identity and practice as these once European traditions globalized and settled down in other places

*Galatians* Nancy Bedford, 2016-08-16 In this incisive commentary Nancy Bedford explores Paul's Letter to the Galatians as it addresses pressing issues in the earliest Christian churches Paul argues that it is not necessary for Gentiles to become full fledged Jews in order to follow Jesus In Jesus Christ differences among people will continue Bedford sees that equality in Christ Galatians 3:28 does not erase differences but instead breaks down hierarchical relationships among many different people and groups She considers the implications of these convictions for Christian faith today particularly for those outside of Western Christian traditions Bedford's unique theological interpretive approach to Galatians is suitable for preaching and teaching preparation and is a welcome addition to the Belief series      [Nick Page: The Longest Week, The Wrong Messiah, Kingdom of Fools](#) Nick Page, 2018-03-08 Essential reading enlightening and informative you will be sure to learn something new Church of England Newspaper In this illuminating read Nick Page strips away centuries of misrepresentation and myth to reveal the real personality portrayed in the gospels Drawing on a wealth of historical and archaeological research the result is a startling and vivid new portrait of Yeshua ben Yosef Jesus of Nazareth
