## **Radical Educational Policies And Conservative Secretaries Of State:**

Radical Educational Policies and Conservative Secretaries of State Peter Ribbins, Brian Sherratt, 1997 The authors present a series of portraits of seven very different people Mark Carlisle Keith Joseph Kenneth Baker Kenneth Clarke John MacGregor John Patten and Gillian Shephard revealing the ways in which they have sought to define and deliver educational change against a backdrop of conflicting messages from within their own party and in the face of determined opposition from much of the educational establishment These illuminating entertaining and provocative conversations suggest that what was once regarded as radical in the Conservative agenda for education is now increasingly taken for granted by allies and opponents alike Including a thorough analysis of the seven interviews this book will provide a mine of information for all those interested in contemporary politics the future of education and the workings of government A Political Sociology of Education Policy Helen M. Gunter, 2024-05-21 This book aims to restore the role of political analysis in education policy by presenting a new political sociology for framing conducting and presenting research In doing so it will be the first in the field to connect political thinking from Arendt with sociological thinking from Bourdieu Education, Reform and the State John Furlong, Robert Phillips, 2002-11 This book supplies the definitive contemporary history of education policy in the late twentieth century Some of the leading educationalists reflect on the major legislative and structural changes in the field over the last 25 years **Comparative Inquiry and Educational Policy Making**, *Leading Beautifully* Fenwick W. English, Lisa Catherine Ehrich, 2016-01-08 *Leading Beautifully* provides a new dimension to understanding effective leadership Drawing from lessons in the arts and the humanities English and Ehrich explore how educational decision making in schools can be informed by identity personal competence and an understanding of the field's intellectual foundations Based on in depth interviews of artists and educational leaders this book provides insight into the inner world of successful leaders who have developed competencies and understandings that extend beyond the standard leadership tool box This exciting new book explores the theory and practice of leadership connoisseurship as a human centered endeavor and as an antidote to mechanistic business oriented practices The authors well grounded reconsideration of educational leadership will enliven and enhance any educational leader's practice **The Conservative Party and the Destruction of Selective Education in Post-War Britain** Piers Legh, 2023-01-26 The book tells the untold story of the Conservative Party's involvement in terms of stance and policy in the destruction of selective state education from 1945 up to the present day Close consideration is paid to their attitudes and prejudices towards education both in power and in opposition Legh examines the Party's responses to the pressure for comprehensive schooling and egalitarianism from the Labour Party and the British left In doing so Legh defies current historiography to demonstrate that the Party were not passive actors in the advancement of comprehensive schooling The lively narrative is moved along by the author's critical examination of the Education Ministers throughout this period Florence Horsbrugh and David Eccles serving under Churchill and Eden and also

Quintin Hogg and Geoffrey Lloyd under Macmillan as well as Edward Boyle and Margaret Thatcher under Edward Heath. Legh's detailed research utilises a range of government documents, personal papers, parliamentary debates and newspapers to provide this crucial reassessment of the Conservative Party and selective education and in doing so questions over simplistic generalisations about wholesale support for selective education policy. It reveals instead questioning, compromises and disagreements within the Party and its political and ideological allies. The result is a stimulating revival of existing scholarship which will be of interest to scholars of British education and politics.
