*Japan in the Fascist Era* E. Reynolds, 2004-07-15 In contrast to Euro centric works on comparative fascism that set Japan apart from Germany and Italy this book emphasizes parallels between Japan and its Axis Allies Romantic nationalist ideologies attracted a strong following in all three nations as they emerged as modern states in the late 1800s In both Germany and Japan these were from the beginning strongly racial in nature Spurred by grievances against the status quo powers all three took up aggressive policies in the 1930s producing a short lived fascist era Japan's prominent role demands

a broader perspective and consideration of fascism as more than a purely European phenomenon      Fascism: The 'fascist epoch' Roger Griffin, Matthew Feldman, 2004 The nature of fascism has been hotly contested by scholars since the term was first coined by Mussolini in 1919 However for the first time since Italian fascism appeared there is now a significant degree of consensus amongst scholars about how to approach the generic term namely as a revolutionary form of ultra nationalism Seen from this perspective all forms of fascism have three common features anticonservatism a myth of ethnic or national renewal and a conception of a nation in crisis This collection includes articles that show this new consensus which is inevitably contested as well as making available material which relates to aspects of fascism independently of any sort of consensus and also covering fascism of the inter and post war periods This is a comprehensive selection of texts reflecting both the extreme multi faceted nature of fascism as a phenomenon and the extraordinary divergence of interpretations of fascism

**Farm and Nation in Modern Japan** Thomas R.H. Havens, 2015-03-08 A study of agrarian thought in prewar Japan this book concentrates on the developing fissure between official and rural conceptions of nationalism in the late nineteenth and early twentieth centuries Professor Havens analyzes the response of Japanese farmers and their spokesmen to the pursuit of modernization during the Meiji and Taisho periods Through a critical examination of writings and speeches of major farm ideologues including Gond Seiky Tachibana K zabur and Kat Kanji the author examines the ways in which agrarianist theories shaped modern Japanese nationalism and the extent to which rural ideologies triggered political violence in the turbulent 1930s He then focuses on the romantic rural communalism of the 1920s and 1930s as an example of antigovernment nationalism designed to rescue the Japanese people at large from bureaucracy capitalism and urbanization Based on extensive research in modern Japanese ideological political and economic materials the study offers new insight into the early twentieth century revolution in nationality sentiments and provides fresh grounds for doubting the state's monopoly on public loyalties during the years immediately preceding Pearl Harbor Originally published in 1974 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

**Japanese Imperialism, 1894-1945** W. G. Beasley, 1987-03-05 This is a study of the origins and nature of Japanese imperialism from the Sino Japanese war of 1894 1895 through to 1945 Japan is the only Asian country in modern times to have built both a successful industrial economy and an empire and it is Professor Beasley's contention that these two phenomena are closely related Japan's aims were influenced by its experience of western imperialism and its own growing industrialization but as external circumstances changed and Japan's capacity grew so did its needs and ambitions The creation of the Japanese empire is one of the most remarkable exploits of the twentieth century Professor

Beasley has provided a much needed scholarly investigation into its development expansion and eventual destruction
